MOTOR VEHICLE TRANSPORT ACT, 1987, PART II TRUCK APPLICATIONS:

The following are applications for extra-provincial truck transport operating licences under Part II of the Motor Vehicle Transport Act, 1987, S.C. 1987, Chapter 35. These Applicants have been found to meet the fitness requirements pursuant to Section 8(2) of that Act and the provincial transport board for Ontario proposes to issue the licences if no objection is served on the Applicant and filed with the Registrar of Motor Vehicles within twenty-nine days of this publication.

EXTRA-PROVINCIAL APPLICATIONS:

NOTE: Where the application is for a licence other than a corridor operating authority, an interested person who serves and files an objection must also provide the Ontario Highway Transport Board with written evidence, within thirty-nine days of this publication that satisfies that Board that, in the absence of evidence to the contrary, the operation of the undertaking in respect of which the licence is sought would likely be detrimental to the public interest.

* Indicates a person who has applied for licences under both Part II and Part III of the Motor Vehicle Transport Act, 1987.

MOTOR VEHICLE TRANSPORT ACT, 1987

INTRA-PROVINCIAL TRUCK APPLICATIONS:

The following are applications for operating licences under Part III of the Motor Vehicle Transport Act, 1987, S.C. 1987, Chapter 35. These applicants have been found to meet the fitness requirement in like manner to section 6 of the Truck Transportation Act, 1988, S.O. 1988, Chapter 64, and the provincial transport board for Ontario proposes to issue the licences unless a person, within thirty days of this publication, serves on the Applicant and files with the Registrar of Motor Vehicles a written request for a fitness hearing or a public interest test in like manner to Sub-

section 7(4) of the Truck Transportation Act, 1988, S.O. 1988, Chapter 64.

NOTE: A person who requests a public interest hearing must, within thirty-nine days of this publication, serve on the Ontario Highway Transport Board a document that makes out a written case to the Board that the granting of the operating authority applied for would be likely to have a significant detrimental effect on the public interest using the criteria set out in subsection 10(1) of the Truck Transportation Act, 1988, S.O. 1988, Chapter 64, and that the request is not frivolously made.

* Indicates a person who has applied for licences under both Part II and Part III of the Motor Vehicle Transport Act, 1987.

TRANSPORT ACT, 1987

MOTOR VEHICLE TRANSPORT ACT, 1987,
PART II TRUCK APPLICATIONS:

The following are applications for extra-provincial operating licences under Part II of the Motor

Vehicle Transport Act, 1987, S.C. 1987, Chapter 35.

EXTRA-PROVINCIAL APPLICATIONS:

NOTE: Objections to these applications must be served on the applicant and filed with the provincial transport board within twenty-nine days of this publication. Any interested person who serves and files an objection must also provide the provincial transport board with written evidence, within thirty-nine days of this publication, that satisfies the board that, in the absence of evidence to the contrary, the operation of the undertaking in respect of which the licence is sought would likely be detrimental to the public interest.

Applications to Provincial Parliament

CITY OF TORONTO

NOTICE IS HEREBY GIVEN that, on behalf of The Corporation of the City of Toronto, application will be made to the Legislative Assembly of the Province of Ontario, for an Act to provide for an amendment to its existing housing legislation contained in the City of Toronto Act, 1975 (No. 2). At the present time, that Act provides that where the City has acquired or acquires land pursuant to the exercise of its powers of expropriation, the City cannot enter into a partnership or any arrangement for the sharing of profits, union of interest, joint adventure, reciprocal concession or other similar arrangement with any person, body corporate or governmental authority in respect to a housing development on such expropriated land. The proposed legislation which is now being requested by the City would repeal that provision in the City of Toronto Act, 1975 (No. 2) and would enable the City to enter into joint venture arrangements in respect of housing developments on land which has been or is expropriated.

This application will be considered by a Standing Committee of the Legislative Assembly. Any person who has an interest in the application and who wishes to make submissions for, or against the application, to the Standing Committee should notify, in writing, the Clerk of the Legislative Assembly, Queen's Park, Toronto, Ontario M7A 1A2.

Dated at Toronto, this 22nd day of April, 1989.

DENNIS Y. PERLIN,
City Hall,
Toronto, Ontario M5H 2N2,
Solicitor for the Applicant,
The Corporation of the

- 1.—(1) The Schedule to Regulation 863 of Revised Regulations of Ontario, 1980, as remade by section 2 of Ontario Regulation 110/87 and amended by section 2 of Ontario Regulation 282/87, section 2 of Ontario Regulation 436/87 and section 1 of Ontario Regulation 615/88, is further amended by adding under the heading "Group G Hospitals" the following item:

4a. Attawapiskat James Bay General Hospital

- (2) The said Schedule is further amended by adding under the heading "Group G Hospitals" the following item:

35a. Fort Albany James Bay General Hospital

- 2.—(1) Subsection 1 (1) of this Regulation shall be deemed to have come into force on the 12th day of December, 1984.

- (2) Subsection 1 (2) of this Regulation shall be deemed to have come into force on the 2nd day of December, 1986.

ELINOR CAPLAN
Minister of Health

Dated at Toronto, this 7th day of April, 1989.

TORONTO AREA TRANSIT OPERATING AUTHORITY ACT

O. Reg. 208/89.

General.

Made—April 6th, 1989.

Approved—April 21st, 1989.

Filed—April 24th, 1989.

REGULATION TO AMEND REGULATION 935 OF REVISED REGULATIONS OF ONTARIO, 1980 MADE UNDER THE TORONTO AREA TRANSIT OPERATING AUTHORITY ACT

- 1.—(1) Clauses 2 (3) (a) and (b) of Regulation 935 of Revised Regulations of Ontario, 1980, as remade by section 1 of Ontario Regulation 386/88, are revoked and the following substituted therefor:

(a) ten one-way tickets or a ten-ride ticket;

(b) ten student one-way tickets or a ten-ride student ticket;

- (2) Subsections 2 (13) and (14) of the said Regulation are revoked and the following substituted therefor:

(13) A student monthly pass is valid for the personal use of the student whose signature appears on the face of the pass and who is in possession of a current and signed student identification card.

(14) An adult monthly pass, a student monthly pass and a twin pass are subject to cancellation by the Authority if the holder of the pass,

(a) wilfully causes damage to Authority property; or

(b) fails to comply with the conditions under which the pass is sold. O. Reg. 208/89, s. 1 (2).

- (3) Subsection 2 (21) of the said Regulation, as remade by section 1 of Ontario Regulation 375/84, is revoked and the following substituted therefor:

(21) A group pass is available to a group consisting of a maximum of five persons of whom at least one but not more than two are eighteen years of age or over and is valid,

- (a) on the date of issue for an unlimited number of rides on the transit system between the stations or within the area designated on the face of the pass; and
- (b) for a trip that begins before 2.00 a.m. on the day after the date of issue to the originating point of the holder of the pass. O. Reg. 208/89, s. 1 (3).

(4) Subsection 2 (21a) of the said Regulation, as made by section 1 of Ontario Regulation 375/84, is revoked and the following substituted therefor:

(21a) A group pass shall not be used in conjunction with children's group fares. O. Reg. 208/89, s. 1 (4).

(5) Section 2 of the said Regulation, as amended by section 1 of Ontario Regulation 400/81, section 1 of Ontario Regulation 441/82, section 1 of Ontario Regulation 380/83, section 1 of Ontario Regulation 375/84, section 1 of Ontario Regulation 333/85 and section 1 of Ontario Regulation 386/88, is further amended by adding thereto the following subsections:

(25) A day pass shall be sold at a rate of two times the fare that would be payable by an adult, child or senior citizen, as the case may be, for a single one-way fare.

(26) A day pass is valid for the personal use of the purchaser of the pass,

- (a) on the date of issue for an unlimited number of rides on the transit system between the stations or within the area designated on the face of the pass; and
- (b) for a trip that begins before 2.00 a.m. on the day after the date of issue to the originating point of the holder of the pass.

(27) A twin pass,

- (a) shall be sold no sooner than ten days before the commencement of the month for which the pass is valid and not later than fourteen days after the commencement of that month; and
- (b) shall be sold at the fare to be paid for an adult monthly pass plus the current Toronto Transit Commission monthly pass rate less \$20.

(28) A twin pass is valid for the personal use of the purchaser of the pass,

- (a) for the month and in the year for which it was issued;
- (b) for an unlimited number of rides on the transit system between the stations or within the area designated on the face of the pass; and
- (c) for transportation on the Toronto Transit Commission's transportation service subject to the Toronto Transit Commission's rules and regulations.

(29) A two-ride ticket shall be sold at a rate of two times the fare that would be payable by an adult, child or senior citizen, as the case may be, for a single one-way fare and is valid,

- (a) for transportation only after it has been cancelled;
- (b) for passage only on the Authority's rail transit system; and
- (c) for two simultaneous trips where there are two simultaneous cancellations.

(30) Ten student one-way tickets are valid for the personal use of a student who is in possession of a current, signed student identification card for passage only on the Authority's bus transit system.

(31) Ten-ride student tickets are valid for the personal use of a student who is in possession of a current and signed student identification card for passage only on the Authority's rail transit system after they have been cancelled.

(32) Ten one-way tickets are valid for passage only on the Authority's bus transit system.

(33) Ten-ride tickets are valid for passage only on the Authority's rail transit system for as many simultaneous rides as there are simultaneous cancellations. O. Reg. 208/89, s. 1 (5).

2.—(1) Subsection 5 (2) of the said Regulation is revoked and the following substituted therefor:

(2) The amount of a refund on a twin monthly pass is determined by adding \$20 to the amount paid and deducting the sum of,

- (a) the Toronto Transit Commission's monthly pass rate; and
- (b) the amount obtained by multiplying 1.35 times the single one-way fare that would be payable for the same trip times the number of days the pass is valid. O. Reg. 208/89, s. 2 (1).

(2) Subsection 5 (3) of the said Regulation is revoked and the following substituted therefor:

(3) The amount of refund on the unused portion of a ten-ride ticket or a ten-ride student ticket is determined by deducting from the amount paid the product obtained by multiplying the greater of the number of rides machine cancelled and the number of rides punch cancelled times the single one-way fare that would be payable for the same trip. O. Reg. 208/89, s. 2 (2).

(3) Subsection 5 (7) of the said Regulation is revoked and the following substituted therefor:

(7) The amount of a refund on the unused portion of a book of ten one-way tickets and ten student one-way tickets is determined by deducting from the amount paid for the tickets the value of the used tickets calculated as the single one-way fare rate that would be payable for the same trip. O. Reg. 208/89, s. 2 (3).

(4) Section 5 of the said Regulation, as amended by section 2 of Ontario Regulation 375/84, section 1 of Ontario Regulation 505/87 and section 3 of Ontario Regulation 386/88, is further amended by adding thereto the following subsection:

(8) The amount of refund on the unused portion of a two-ride ticket is determined by deducting from the amount paid for the ticket the product obtained by multiplying the number of cancelled rides times the single ride fare that would be payable for the same trip. O. Reg. 208/89, s. 2 (4).

3. Subsections 11 (2), (3) and (4), as made by section 1 of Ontario Regulation 171/85, are revoked and the following substituted therefor:

(2) No person shall enter the transit system without activating the device to cancel tickets so as to cancel the appropriate ticket for the intended trip.

(3) Subsection (2) does not apply to a person who enters the transit system at a location where a cash fare may be paid and who pays the prescribed fare.

(4) Subsection (2) does not apply to a person who has a ticket that is not intended to be cancelled by the holder of the ticket and who presents that ticket, on entering the transit system, to the proper authority for inspection or cancellation, as is appropriate in the circumstances. O. Reg. 208/89, s. 3.

4. This Regulation comes into force on the 1st day of May, 1989.

ENVIRONMENTAL PROTECTION ACT

O. Reg. 209/89.

Effluent Monitoring—Organic Chemical
Manufacturing Sector.

Made—April 21st, 1989.

Filed—April 25th, 1989.

REGULATION MADE UNDER THE ENVIRONMENTAL PROTECTION ACT

EFFLUENT MONITORING—ORGANIC CHEMICAL MANUFACTURING SECTOR

DEFINITIONS

1.—(1) In this Regulation,

“characterization” means the analysis of a sample to identify and quantify all of the parameters in Schedule AA;

“combined effluent” means any intentional combination of process effluent or process materials with cooling water;

“final discharge sampling point” means a location in a process effluent, combined effluent or batch discharge effluent stream that discharges to a surface watercourse situated,

(a) before the place of discharge to the surface watercourse, and

(b) downstream of all additions of effluent to that stream;

“General Effluent Monitoring Regulation” means Ontario Regulation 695/88;

“process change” means any change in equipment, production processes or treatment processes;

“quarterly” means once in each three-month period beginning on the first day of January, once in each three-month period beginning on the first day of April, once in each three-month period beginning on the first day of July and once in each three-month period beginning on the first day of October;

“semi-annual period” means a period of six months beginning on the first day of January or July;

“semi-annually” means once in each six-month period beginning on the first day of January and once in each six-month period beginning on the first day of July.

(2) The definitions in section 1 of the General Effluent Monitoring Regulation that are not redefined in this Regulation apply to this Regulation. O. Reg. 209/89, s. 1.

PURPOSE

2. The purpose of this Regulation is to establish a

data base on effluent quality in the organic chemical manufacturing sector that, along with other pertinent information, will be used to develop effluent limits for that sector and to quantify the mass loadings of monitored contaminants being discharged by that sector into surface watercourses. O. Reg. 209/89, s. 2.

APPLICATION

3.—(1) This Regulation applies only with respect to the plants listed in subsection (2).

(2) The site-specific monitoring schedule for each plant is as follows:

Plant	Location	Owner as of February 3, 1989	Site-Specific Monitoring Schedule
Niagara Site	Thorold	B. F. Goodrich Canada Inc.	A
Belleville Plant	Belleville	BTL Specialty Resins, a Division of Bakelite Thermosets Ltd.	B
Thermoset Division	Fort Erie	Canadian Oxy Chemicals Ltd.	C
Millhaven Site	Millhaven	Celanese Canada Inc.	D
Cornwall Plant	Cornwall	Cornwall Chemicals Limited	E
Cornwall Plant	Cornwall	Courtaulds Fibres Canada, a Division of Courtaulds Fibers Inc.	F
Cornwall Plant	Cornwall	Courtaulds Films Canada, a Division of International Paints (Canada) Limited	G
Longford Plant	Longford Mills	Domtar Inc.	H
Sarnia Div.	Sarnia	Dow Chemical Canada Inc.	I
St. Clair River Site	Corunna	Du Pont Canada Inc.	J
Kingston Site	Kingston	Du Pont Canada Inc.	K
Maitland Site	Maitland	Du Pont Canada Inc.	L
Sarnia Chemical Plant	Sarnia	Esso Chemical Canada, a Division of Imperial Oil Ltd.	M
Sarnia Plant	Corunna	Ethyl Canada Inc.	N
Normar Plant	Cobourg	GE Plastics Canada Ltd.	O
Moore Plant	Mooretown	Novacor Chemicals Ltd.	P
Sarnia Site	Sarnia	Polysar Limited	Q
Morrisburg Plant	Morrisburg	Rohm and Haas Canada Inc.	R
Elmira Plant	Elmira	Uniroyal Chemical Ltd.	S

(3) This Regulation is a Sectoral Effluent Monitoring Regulation within the meaning of the General Effluent Monitoring Regulation.

(4) Each direct discharger shall carry out the monitoring obligations, including the sampling, analysis, toxicity testing, flow measurement, recording and

reporting obligations of this Regulation, in accordance with the General Effluent Monitoring Regulation.

(5) Each direct discharger shall carry out the sampling and analytical obligations in relation to boron, bromodichloromethane, ethylbenzene, biphenyl, di-n-octyl phthalate and diphenyl ether in accordance with Notes A to F of Schedule AA.

(6) An obligation on a direct discharger to do a thing under this Regulation is discharged if another person has done it on the direct discharger's behalf.

(7) Each direct discharger shall notify the Director in writing of any change of name or ownership of its plant within thirty days after the day this Regulation comes into force or within thirty days after any such change. O. Reg. 209/89, s. 3.

SAMPLING POINTS

4.—(1) Each direct discharger shall establish a sampling point on each effluent stream named in the site-specific monitoring schedule for that discharger's plant, as follows:

1. A batch discharge effluent sampling point on each batch discharge effluent stream.
2. A combined effluent sampling point on each combined effluent stream.
3. A final discharge sampling point on each process effluent, combined effluent or batch discharge effluent stream that discharges to a surface watercourse.
4. A once-through cooling water sampling point on each once-through cooling water effluent stream.
5. A process effluent sampling point on each process effluent stream.
6. A storm water sampling point on each storm water effluent stream.
7. A waste disposal site effluent sampling point on each waste disposal site effluent stream.
8. An emergency overflow effluent sampling point on each emergency overflow effluent stream.

(2) Each direct discharger shall use the sampling points established under subsection (1) for all sampling required by this Regulation, except that a direct discharger may use alternate sampling points where that is acceptable to the Director.

(3) Where there is continuity of flow among a process effluent, combined effluent or batch discharge effluent stream of a direct discharger, that direct discharger shall collect all samples required by sections 5,

7, 8 and 9 in respect of those particular streams on the same day, to the extent that the coincidence or overlap of frequency requirements specified in the site-specific monitoring schedule for that discharger's plant permits.

(4) Except as otherwise specifically provided, sets of samples required to be collected under this Regulation need not be collected on the same day.

(5) Each direct discharger shall collect each sample required to be collected from a process or combined effluent sampling point as a composite sample throughout an operating day in accordance with subsection 3 (4) of the General Effluent Monitoring Regulation.

(6) Each direct discharger shall submit for analysis the sample volume for each analytical test group that is required by the laboratory to meet the analytical method detection limits specified in Column 6 of Parts A and B of Schedule 3 of the General Effluent Monitoring Regulation.

(7) Each direct discharger carrying out the requirements of subsection (6) need not comply with subsection 3 (23) of the General Effluent Monitoring Regulation. O. Reg. 209/89, s. 4.

CHARACTERIZATION

5.—(1) Each direct discharger shall collect a set of samples sufficient to perform all of the characterization and open characterization required by subsections (4), (6), (7) and (8) from each process effluent, combined effluent and batch discharge effluent sampling point of that discharger,

- (a) at the characterization sampling frequencies and minimum intervals specified in the site-specific monitoring schedule for that discharger's plant; and
- (b) once within thirty days after every process change that is expected to significantly and adversely affect the quality of effluent at that sampling point.

(2) For the purpose of subsection 4 (3) of the General Effluent Monitoring Regulation, samples collected under subsection (1) are collected for characterization.

(3) Clause (1) (b) does not apply to experimental process changes of less than thirty days in duration.

(4) Each direct discharger shall analyze each set of samples collected under clauses (1) (a) and (b) for all of the parameters in Column 2 of Schedule AA.

(5) Each direct discharger shall collect all samples required by clause (1) (a) on the same day, except to the extent that this is impossible because of a lack of coincidence or overlap of frequency requirements

specified in the site-specific monitoring schedule for that discharger's plant for characterization sampling for analytical test group 24, with frequency requirements specified in that schedule for characterization sampling for all other analytical test groups.

(6) Despite subsection (4), where the characterization sampling frequencies specified in the site-specific monitoring schedule for a direct discharger's plant require characterization sampling for all analytical test groups other than analytical test group 24 on a day on which characterization sampling for analytical test group 24 is not required by that schedule, the samples collected under clause (1) (a) on that day need not be analyzed for analytical test group 24.

(7) Despite subsection (4), where the characterization sampling frequencies specified in the site-specific monitoring schedule for a direct discharger's plant require characterization sampling for analytical test group 24 on a day on which characterization sampling for all other analytical test groups is not required by that schedule, the samples collected under clause (1) (a) on that day need only be analyzed for analytical test group 24.

(8) Each direct discharger shall perform an open characterization on each set of samples collected under clause (1) (a).

(9) A direct discharger is only required to fulfill the requirements of clause (1) (a) throughout one twelve-month period. O. Reg. 209/89, s. 5.

DAILY MONITORING

6.—(1) Subject to subsection (2), at each final discharge sampling point, each direct discharger shall,

- (a) continuously sample and analyze, using an on-line analyzer, for the parameters in analytical test groups 3, 5a and 7 in Schedule AA; or
- (b) during each operating day, collect a set of samples and analyze those samples for the parameters specified in clause (1) (a).

(2) If a direct discharger is unable to carry out the requirements of subsection (1) at a final discharge sampling point, that discharger shall instead carry out those requirements at each sampling point on each effluent stream that flows into the stream on which the final discharge sampling point is located and shall analyze those samples for the parameters specified in clause (1) (a).

(3) During each operating day, each direct discharger shall collect a set of samples from each process effluent, combined effluent and batch discharge effluent sampling point of that discharger and shall analyze each such set for the parameters indicated in the daily column, for the stream from which the set was collected, of the site-specific monitoring schedule for that discharger's plant.

(4) When on an operating day a set of samples is collected under subsection (3) from a sampling point at which a collection or analysis was performed on the same day under subsection (1) or (2), the direct discharger need not analyze the set of samples for parameters for which an analysis was performed under subsection (1) or (2).

(5) Clause (1) (b) and subsections (2) and (3) do not apply in respect of any day on which a sufficient volume of sample cannot be collected because of the collection of inspection samples. O. Reg. 209/89, s. 6.

THRICE-WEEKLY MONITORING

7. On at least three operating days in each week, each direct discharger shall collect a set of samples from each process effluent, combined effluent and batch discharge effluent sampling point of that discharger and shall analyze each such set for the parameters indicated in the thrice-weekly column, for the stream from which the set was collected, of the site-specific monitoring schedule for that discharger's plant. O. Reg. 209/89, s. 7.

WEEKLY MONITORING

8.—(1) On at least one day in each week, each direct discharger shall collect a set of samples from each process effluent, combined effluent and batch discharge effluent sampling point of that discharger and shall analyze each such set for the parameters indicated in the weekly column, for the stream from which the set was collected, of the site-specific monitoring schedule for that discharger's plant.

(2) Each set of samples collected under subsection (1) shall be collected on one of the days on which a sample is collected under section 7 from the same sampling point.

(3) For the purpose of subsection (1), a set of samples collected from a sampling point after the first set of samples is collected from that sampling point under subsection (1) shall be collected no sooner than two days after the previous collection of a set of samples from that sampling point. O. Reg. 209/89, s. 8.

MONTHLY MONITORING

9.—(1) On at least one day in each month, each direct discharger shall collect a set of samples from each process effluent, combined effluent and batch discharge effluent sampling point of that discharger and shall analyze each such set for the parameters indicated in the monthly column, for the stream from which the set was collected, of the site-specific monitoring schedule for that discharger's plant.

(2) Each set of samples collected under subsection (1) shall be collected on one of the days on which a sample is collected under section 8 from the same sampling point.

(3) For the purpose of subsection (1), a set of samples collected from a sampling point after the first set of samples is collected from that sampling point under subsection (1) shall be collected no sooner than two weeks after the previous collection of a set of samples from that sampling point. O. Reg. 209/89, s. 9.

MONTHLY MONITORING—ONCE-THROUGH COOLING WATER

10.—(1) On at least one day in each month, on a day on which a set of samples required by subsection 9 (1) is collected, each direct discharger shall collect a set of samples from each once-through cooling water sampling point of that discharger and shall analyze each such set for the parameters indicated in the column, for the stream from which the set was collected, of the site-specific monitoring schedule for that discharger's plant.

(2) For the purpose of subsection (1), a set of samples collected from a sampling point after the first set of samples is collected from that sampling point under subsection (1) shall be collected no sooner than two weeks after the previous collection of a set of samples from that sampling point. O. Reg. 209/89, s. 10.

MONTHLY MONITORING—STORM WATER

11.—(1) Subject to subsections (2) and (3), on at least one operating day in each month in which there is a storm event on an operating day, each direct discharger shall collect a set of samples from each affected storm water sampling point of that discharger during a discharge of storm water related to the storm event and shall analyze each such set for the parameters indicated in the column, for the stream from which the set was collected, of the site-specific monitoring schedule for that discharger's plant.

(2) For the purpose of subsection (1), where a direct discharger has been unable to collect a set of samples from a storm water sampling point of that discharger during any month in which there was a storm event because of insufficient flow, that discharger shall collect a compensating set of samples from that sampling point during a subsequent discharge of storm water in respect of which a set of samples is not collected under subsection (1) and shall analyze each such set for the parameters indicated in the column, for the stream from which the set was collected, of the site-specific monitoring schedule for that discharger's plant.

(3) Each direct discharger shall make every reasonable effort to ensure that samples collected under subsection (1) in at least two of the months of January, February, March, April and May are collected during a thaw with collection during the second thaw to occur no sooner than two weeks after collection during the first thaw. O. Reg. 209/89, s. 11.

MONTHLY MONITORING—WASTE DISPOSAL SITE EFFLUENT

12. On one day in each month during which there is a discharge of waste disposal site effluent, each direct discharger shall collect a set of samples from each affected waste disposal site effluent sampling point of that discharger during a discharge of waste disposal site effluent and shall analyze each such set for the parameters indicated in the column, for the stream from which the set was collected, of the site-specific monitoring schedule for that discharger's plant. O. Reg. 209/89, s. 12.

EVENT MONITORING—EMERGENCY OVERFLOW

13.—(1) During each emergency overflow, each direct discharger shall collect a set of samples from each affected emergency overflow effluent sampling point of that discharger and shall analyze each such set for the parameters indicated in the column, for the stream from which the set was collected, of the site-specific monitoring schedule for that discharger's plant.

(2) Subsection (1) does not apply if the collection of samples would result in extraordinary danger to health or safety. O. Reg. 209/89, s. 13.

QUALITY CONTROL MONITORING

14.—(1) Each direct discharger shall select, for the purpose of this section, the process effluent stream in respect of which the monthly column of the site-specific monitoring schedule for that discharger's plant indicates the largest number of parameters to be analyzed for in analytical test groups 16 to 20, 23, 24 and 27.

(2) If a direct discharger's plant has no process effluent stream in respect of which a parameter in analytical test groups 16 to 20, 23, 24 and 27 is required to be analyzed for, the discharger shall instead select the process effluent stream in respect of which the monthly column of the site-specific monitoring schedule indicates the largest number of parameters to be analyzed for in all analytical test groups.

(3) If a direct discharger's plant has no process effluent stream, the discharger shall instead select the combined effluent stream in respect of which the monthly column of the site-specific monitoring schedule for that discharger's plant indicates the largest number of parameters to be analyzed for in analytical test groups 16 to 20, 23, 24 and 27.

(4) If a direct discharger's plant has no process effluent stream and has no combined effluent stream in respect of which a parameter in analytical test groups 16 to 20, 23, 24 and 27 is required to be analyzed for, the discharger shall instead select the combined effluent stream in respect of which the monthly column of the site-specific monitoring schedule indicates the largest number of parameters to be analyzed for in all analytical test groups.

(5) Each direct discharger shall prepare each travelling spiked blank sample required to be analyzed by this section with a standard solution containing at least the parameters to be analyzed for.

(6) For the purposes of subsections (7) and (8), where the direct discharger collects a composite sample using an automatic composite sampling device, the direct discharger may, instead of collecting a duplicate sample, remove an aliquot from each sample container used to collect the sample, in which case the direct discharger shall analyze the aliquots as if they were duplicate samples.

(7) Once in each month, on a day on which samples are collected under section 9, each direct discharger shall collect a duplicate sample for each sample required to be collected on that day by sections 6 and 7 from the sampling point on the effluent stream selected under subsections (1) to (4) and shall analyze the set of duplicate samples for the parameters indicated in the daily and thrice-weekly columns, for the stream from which the set was collected, of the site-specific monitoring schedule for that discharger's plant.

(8) Once in each quarter, on a day on which duplicate samples are collected under subsection (7), each direct discharger shall collect a duplicate sample for each sample required to be collected on that day by sections 8 and 9 from the sampling point on the effluent stream selected under subsections (1) to (4) and shall analyze the set of duplicate samples for the parameters indicated in the weekly and monthly columns, for the stream from which the set was collected, of the site-specific monitoring schedule for that discharger's plant.

(9) Once in each month, on a day on which duplicate samples are collected under subsection (7), each direct discharger shall prepare, process and return to the laboratory a travelling blank sample for each sample required to be collected on that day by sections 6 and 7 from the sampling point on the effluent stream selected under subsections (1) to (4) and shall analyze the set of travelling blank samples for the parameters indicated in the daily and thrice-weekly columns, for the stream from which the set was collected, of the site-specific monitoring schedule for that discharger's plant.

(10) Despite subsection (9), a direct discharger need not analyze a travelling blank sample for parameters in analytical test groups 3 and 8.

(11) Once in each quarter, on a day on which duplicate samples are collected under subsection (8), each direct discharger shall prepare, process and return to the laboratory a travelling blank sample for each sample required to be collected on that day by sections 8 and 9 from the sampling point on the effluent stream selected under subsections (1) to (4) and shall analyze the set of travelling blank samples for the parameters indicated in the weekly and monthly columns, for the stream from which the set was collected, of the site-

specific monitoring schedule for that discharger's plant.

(12) Once in each month, on a day on which duplicate samples are collected under subsection (7), each direct discharger shall prepare, process and return to the laboratory a travelling spiked blank sample for each sample required to be collected on that day by sections 6 and 7 from the sampling point on the effluent stream selected under subsections (1) to (4) and shall analyze the set of travelling spiked blank samples for the parameters in the analytical test groups 16 to 20, 23, 24 and 27 indicated in the daily and thrice-weekly columns, for the stream from which the set was collected, of the site-specific monitoring schedule for that discharger's plant.

(13) Once in each quarter, on a day on which duplicate samples are collected under subsection (8), each direct discharger shall prepare, process and return to the laboratory a travelling spiked blank sample for each sample required to be collected on that day by sections 8 and 9 from the sampling point on the effluent stream selected under subsections (1) to (4) and shall analyze the set of travelling spiked blank samples for the parameters in analytical test groups 16 to 20, 23, 24 and 27 indicated in the weekly and monthly columns, for the stream from which the set was collected, of the site-specific monitoring schedule for that discharger's plant. O. Reg. 209/89, s. 14.

TOXICITY TESTING

15.—(1) Each direct discharger shall collect a sample from each final discharge sampling point of that discharger once in each month on the same day as the set of samples is collected under section 9 from that sampling point and shall perform thereon a fish toxicity test.

(2) If the tests performed under subsection (1) on all samples from a final discharge sampling point in three consecutive months result in mortality for no more than two out of ten fish at all effluent concentrations, a direct discharger may thereafter perform the tests required by subsection (1), on the samples from that sampling point, on 100 per cent undiluted samples only.

(3) If a test performed under subsection (2) on any sample from a final discharge sampling point results in mortality for more than two out of ten fish, subsection (2) ceases to apply and continues not to apply, to samples from that sampling point, until the tests performed under subsection (1) on all samples from that sampling point in a further three consecutive months result in mortality for no more than two out of ten fish at all effluent concentrations.

(4) Each direct discharger shall collect a sample from each final discharge sampling point of that discharger once in each month, on the same day as the sample is collected under subsection (1) from that sampling point and shall perform thereon a *Daphnia magna* acute lethality toxicity test.

(5) Each direct discharger shall collect the sample required by subsection (4) together in the same container or set of containers with the fish toxicity test sample.

(6) Each direct discharger shall collect a sample from each once-through cooling water sampling point of that discharger once in each quarter on the same day as one of the sets of samples required by section 10 is collected from that sampling point and shall perform, on each sample required by this subsection,

(a) a fish toxicity test; and

(b) a *Daphnia magna* acute lethality toxicity test.

(7) If the tests performed in the first quarter under subsection (6) on all samples from a once-through cooling water sampling point result in mortality for no more than two out of ten tests species for both tests at all effluent concentrations, a direct discharger may thereafter perform the tests required by subsection (6) on the samples from that sampling point on 100 per cent undiluted samples only.

(8) If a test performed under subsection (7) on any sample from a once-through cooling water sampling point results in mortality for more than two out of ten test species, subsection (7) ceases to apply in respect of samples from that sampling point.

(9) A direct discharger is only required to fulfill the requirements of subsection (6) throughout one twelve-month period. O. Reg. 209/89, s. 15.

FLOW MEASUREMENT

16.—(1) Subject to subsection (2), each direct discharger shall continuously measure the flow of each process effluent and combined effluent stream of that discharger at a location or set of locations representative of the flow at the sampling point established for that stream and shall continuously record the measured flow.

(2) Where there is no continuous flow measurement device in place on a combined effluent stream, each direct discharger shall estimate, on each operating day, the total daily flow of the stream and shall record the estimated flow.

(3) Where the flow of a process effluent or a combined effluent stream cannot be continuously measured on any operating day because of equipment malfunction and all reasonable care has been taken to avoid and correct the malfunction, the direct discharger may fulfill the requirement of subsection (1) by estimating the total volume of effluent discharged on that operating day from that stream and recording that estimate.

(4) Each direct discharger shall, at the time of each sampling under this Regulation from a batch discharge or once-through cooling water effluent stream of that discharger, measure or estimate the flow of

that stream at a location or set of locations representative of the flow at the sampling point established for that stream and shall record the measured or estimated data.

(5) Each direct discharger shall measure or estimate the duration and approximate volume of every storm water discharge, waste disposal site effluent discharge and emergency overflow in respect of which the discharger has taken a sample under this Regulation and shall record the measured or estimated data.

(6) Subsection 6 (6) of the General Effluent Monitoring Regulation does not apply in respect of measurements or estimates of volume of discharges of storm water.

(7) Subject to subsection (9), each direct discharger shall demonstrate by calibration, performed no earlier than 365 days before the filing of this Regulation, that each primary flow measuring device used to measure the flow of any process effluent stream for the purposes of this Regulation meets the accuracy requirement of subsection 6 (1) of the General Effluent Monitoring Regulation.

(8) Subject to subsection (10), each direct discharger shall demonstrate by calibration, performed no earlier than 365 days before the filing of this Regulation, that each flow measuring device used to measure the flow of any combined effluent stream for the purposes of this Regulation meets the accuracy requirement of subsection 6 (3) of the General Effluent Monitoring Regulation.

(9) Where a direct discharger demonstrates to the Director by means of a certified report of a registered professional engineer of the Province of Ontario that a primary flow measuring device used to measure the flow of a process effluent stream has been designed and installed in accordance with the standards of a national or international standards setting organization, that primary device will be deemed capable of meeting the accuracy requirement in subsection 6 (1) of the General Effluent Monitoring Regulation.

(10) Where a direct discharger demonstrates to the Director by means of a certified report of a registered professional engineer of the Province of Ontario that a flow measuring device used to measure the flow of a combined effluent stream has been designed and installed in accordance with the standards of a national or international standards setting organization, that flow measuring device will be deemed capable of meeting the accuracy requirement in subsection 6 (3) of the General Effluent Monitoring Regulation. O. Reg. 209/89, s. 16.

REPORTING

17.—(1) Within seven days after this subsection comes into force, each direct discharger shall submit an initial report to the Director in respect of that direct discharger's plant.

(2) Each direct discharger shall report in writing any significant changes in respect of the information submitted under subsection (1) to the Director within thirty days after the end of the month during which the change occurs.

(3) With respect to each sample, each direct discharger shall report to the Director the results of all analyses performed by or on behalf of the direct discharger under sections 5 to 14 of this Regulation and under subsection 4 (18) of the General Effluent Monitoring Regulation, including all positive numerical values at or above the analytical method detection limits calculated by the laboratory performing the analysis, together with the date on which each sample was collected and the method used to collect each sample.

(4) Each direct discharger shall, in accordance with subsection 7 (6) of the General Effluent Monitoring Regulation, report to the Director the toxicity test information obtained under section 15, together with the date on which each sample was collected under section 15.

(5) The information required to be reported under subsection (4) constitutes results of analyses within the meaning of subsection 7 (2) of the General Effluent Monitoring Regulation.

(6) Each direct discharger shall, with respect to each flow measuring device used in meeting the requirements of this Regulation, submit to the Director documentation of any calibration or certification of accuracy required by subsections 16 (7) to 16 (10) of this Regulation and subsection 6 (2) of the General Effluent Monitoring Regulation, no later than thirty days before the first use of the device for the purposes of this Regulation.

(7) Subject to subsection (8), each direct discharger shall, with respect to each method, device or calculation for flow measurement or estimation used in meeting the requirements of this Regulation, submit to the Director, no later than thirty days before the first use of the method, device or calculation for the purposes of this Regulation, documentation sufficient to satisfy the Director that the method, device or calculation complies with the accuracy requirements of subsections 6 (3) and (6) of the General Effluent Monitoring Regulation.

(8) Each direct discharger shall, no later than thirty days before this Regulation comes into force, submit to the Director a description of the methods and calculations to be used in measuring or estimating the volume of discharge of storm water under subsection 16 (5), together with an assessment of the accuracy of those methods and calculations.

(9) Each direct discharger shall submit to the Director documentation of each calibration performed under subsection 6 (7) of the General Effluent Monitoring Regulation, within thirty days after the day on

which the calibration was performed or within thirty days after this Regulation comes into force.

(10) Each direct discharger shall report to the Director the flow measurement information recorded under this Regulation in respect of each process effluent stream, combined effluent stream, batch discharge effluent stream and once-through cooling water effluent stream of that discharger and the date on which each flow was measured.

(11) Each direct discharger shall report to the Director the date, approximate duration and amount of rainfall of each storm event that occurs while this subsection is in force.

(12) Each direct discharger shall report to the Director the date, approximate duration and approximate volume of each discharge of storm water for which a set of samples is collected under section 11.

(13) Each direct discharger shall report to the Director the date, duration and approximate volume of each discharge of waste disposal site effluent that occurs while this subsection is in force.

(14) Each direct discharger shall report to the Director the date, location, duration and approximate volume of effluent discharged during each emergency overflow that occurs while this Regulation is in force.

(15) Each direct discharger shall submit the reports referred to in subsections (10) to (14) to the Director in writing within sixty days after the day on which the information was recorded.

(16) Each direct discharger shall submit to the Director, at least thirty days before the collection of the first sample in each month, a schedule of sampling dates and times by sampling point location for all sampling required by sections 5, 9 and 10.

(17) Each direct discharger shall make every reasonable effort to follow the schedule submitted by the direct discharger under subsection (16) but if the schedule cannot be followed as submitted, the direct discharger shall notify the Director promptly of any change in dates or times.

(18) Within thirty days after the end of each quarter, each direct discharger shall submit a report to the Director stating the quantities of chemicals added to once-through cooling water in the previous quarter and the dates on which these additions occurred.

(19) Subject to subsection 3 (6) of the General Effluent Monitoring Regulation, each direct discharger shall, no later than one year after this Regulation comes into force, submit a report to the Director describing the variation in daily flow for a period of six months for each process effluent stream from which samples are collected other than by means of an automatic flow proportional composite sampling device.

(20) The report referred to in subsection (19) shall include the raw data and calculation methods used to produce the report.

(21) Each direct discharger shall keep records of all sampling required by this Regulation, including, for each sample, the date and time of collection, sampling procedures used, the amount of sample dilution by preservative if dilution exceeds 1 per cent and any incident likely to affect an analytical result.

(22) Each direct discharger shall develop a maintenance schedule for all sampling equipment and shall record the dates on which any maintenance action was taken, together with a description of the action.

(23) Each direct discharger shall keep records of all analytical methods used in meeting the requirements of this Regulation.

(24) Each direct discharger shall submit a report to the Director detailing the date, duration and cause of each sampling, toxicity testing, analytical and flow measurement malfunction or other problem that interferes with fulfilling the requirements of this Regulation, together with a description of any remedial action taken, within sixty days after the day on which the malfunction or problem occurs.

(25) Each direct discharger shall keep all records and reports required by this Regulation to be kept or

made for a period of two years following the date of the last report submitted to the Director under this section. O. Reg. 209/89, s. 17.

TIMING

18.—(1) This Regulation, except sections 1 to 3 and subsections 17 (1), (2), (6), (7), (8), (16) and (17), comes into force on the 1st day of October, 1989.

(2) Sections 1 to 3 and subsections 17 (1), (2), (6), (7), (8), (16) and (17) come into force on the 1st day of July, 1989.

(3) Sections 5, 7 to 13 and 15 and subsections 17 (11) to (13) are revoked on the 1st day of October, 1990.

(4) Sections 4 to 16 of this Regulation cease to apply in respect of a sampling point of a direct discharger where an approval is granted under subsection 24 (1) of the *Ontario Water Resources Act*,

- (a) to route the effluent stream on which the sampling point is established to a sewage works; or
- (b) to eliminate the effluent stream on which the sampling point is established. O. Reg. 209/89, s. 18.

RENONCIATION AU DÉLAI POUR L'ÉTABLISSEMENT DE NOUVELLES COTISATIONS

À l'usage des personnes morales qui désirent renoncer à ce que soit limité le délai pendant lequel le ministre peut fixer des impôts ou établir une nouvelle cotisation ou des cotisations supplémentaires d'impôt en vertu de la Loi sur l'imposition des personnes morales.

Deux copies dûment remplies de la présente renonciation doivent être envoyées par COURRIER RECOMMANDÉ au ministre du Revenu, ministère du Revenu, Direction de l'imposition des compagnies, C.P. 622, 33, rue King ouest, Oshawa (Ontario) L1H 8H6, dans le délai précisé à l'alinéa 73 (7) c).

Pour qu'une renonciation soit valide, les questions relevant de l'impôt sur le revenu et/ou sur le capital et qui font l'objet de la renonciation doivent être précisées dans l'espace prévu à cette fin. La renonciation s'applique automatiquement aux questions qui découlent des questions précisées.

La présente est une renonciation permanente relativement aux questions qui y sont précisées.

Une renonciation qui stipule un délai n'est pas acceptée.

La présente renonciation peut être révoquée en vertu de l'alinéa 73 (7a) a) de la Loi sur l'imposition des personnes morales, par le dépôt d'un avis de révocation de renonciation (formule 4).

La présente renonciation doit être signée par un signataire autorisé à lier la personne morale.

AVIS DE RÉVOCATION DE RENONCIATION

À l'usage des personnes morales qui désirent révoquer, en vertu de l'alinéa 73 (7a) a) de la Loi sur l'imposition des personnes morales, une renonciation (formule 3) déjà déposée relativement au délai d'établissement de nouvelles cotisations peuvent être établies.

Un avis distinct de révocation doit être rempli pour chaque renonciation à révoquer.

Deux copies dûment remplies du présent avis, accompagnées d'une copie de la renonciation déjà déposée, doivent être envoyées par COURRIER RECOMMANDÉ au ministre du Revenu, ministère du Revenu, Direction de l'imposition des compagnies, C.P. 622, 33, rue King ouest, Oshawa (Ontario) L1H 8H6.

La renonciation est révoquée automatiquement un an après la date du dépôt de l'avis de révocation auprès du ministre du Revenu.

Une copie de l'avis, portant la date de dépôt auprès du ministre du Revenu, est renvoyée à la personne morale.

Une fois déposé auprès du ministre du Revenu, un avis de révocation de renonciation ne peut être annulé.

Le présent avis de révocation doit être signé par un signataire autorisé à lier la personne morale.

Une personne morale peut, en vertu de l'alinéa 73 (7a) b) de la Loi sur l'imposition des personnes morales, révoquer la "renonciation automatique" aux fins des impôts ontariens, résultant du dépôt d'une renonciation fédérale en vertu du paragraphe 152 (4) de la Loi de l'impôt sur le revenu (Canada). Pour ce faire, la personne morale doit déposer, auprès du ministre du Revenu, une copie de l'avis fédéral de révocation de renonciation déposé en vertu du paragraphe 152 (4.1) de la Loi de l'impôt sur le revenu (Canada). La "renonciation automatique" est révoquée dans un an après la date du dépôt de la copie de l'avis fédéral de révocation de renonciation (formule fédérale T652) auprès du ministre du Revenu.

PLANNING ACT, 1983

O. Reg. 220/89.

Delegation of Authority of Minister under
Section 4 of the Planning Act, 1983—
Subdivision Plans—Huron County.
Made—April 20th, 1989.
Filed—April 27th, 1989.

ORDER MADE UNDER THE PLANNING ACT, 1983

DELEGATION OF AUTHORITY OF MINISTER UNDER SECTION 4 OF THE PLANNING ACT, 1983— SUBDIVISION PLANS—HURON COUNTY

1. Subject to sections 2 and 3, all authority of the Minister under section 50 of the Act is hereby delegated to the council of the County of Huron in respect of land situate in the County of Huron. O. Reg. 220/89, s. 1.

2. The delegation made in section 1 does not apply to,

- (a) any application for approval under subsection 50 (1) of the Act or a predecessor thereof

received by the Minister before the 1st day of May, 1989; or

- (b) any matter referred to in subsections 50 (20), (21) and (22) of the Act, unless the matter relates to lands that are within a draft plan approved by the council under subsection 50 (13) of the Act. O. Reg. 220/89, s. 2.

3.—(1) The council, in exercising the authority delegated by section 1, shall comply with the following conditions:

1. The council shall adopt an application form that is approved by the Ministry of Municipal Affairs for the receipt of applications under subsection 50 (1) of the Act.
2. The council shall assign to each application received under subsection 50 (1) of the Act a file number consisting of the appropriate code used by the Ministry of Municipal Affairs, the letter "T", the last two figures of the year in which the application is received and a number corresponding to the order in which the application is received, commencing with "001" and a new series of numbers shall be commenced each year.
3. The council shall send to the Ministry of Municipal Affairs one copy of each application received by the council under subsection 50 (1) of the Act and one copy of the draft plan that is the subject of the application and the copies shall be sent not later than ten days after the receipt of the completed application.
4. Where the council decides to confer, as referred to in subsection 50 (3) of the Act, in respect of an application, the council shall send to the Ministry of Municipal Affairs a list of the officials of municipalities and ministries of the public service, commissions, authorities or other persons conferred with or to be conferred with on the application and shall send a copy of the application and of the draft plan to which it relates to the clerk of the local municipality in which the land that is the subject of the application is situate and to such other officials of municipalities and ministries of the public service, commissions, authorities and other persons as the Minister may direct.
5. Where the council decides not to confer, as referred to in subsection 50 (3) of the Act, in respect of an application, the council shall send notice in writing to the applicant, the clerk of the local municipality in which the land that is the subject of the application is situate and the Ministry of Municipal Affairs, giving the reason or reasons why the council has decided not to confer.

6. Where an application under subsection 50 (1) of the Act is withdrawn, the council shall send notice in writing to the clerk of the local municipality in which the land that is the subject of the application is situate and the Ministry of Municipal Affairs, giving the reason or reasons why the application was withdrawn, if known.
7. Where an application is revised or altered, a copy of the revised or altered application shall be sent to the clerk of the local municipality in which the land that is the subject of the application is situate and the Ministry of Municipal Affairs.
8. In conferring, as referred to in paragraph 4, the council shall allow thirty days for the making of written comments in respect of the application for approval, commencing from the date that a copy of the application is sent to the party conferred with, but the time for making comments may be extended by the council where the council is satisfied that there is good reason to do so.
9. Where the council has not given or refused approval of an application made under subsection 50 (1) of the Act within ninety days of receipt of the application, the council shall forthwith provide the applicant and the Ministry of Municipal Affairs with a report on the status of the application.
10. Where the council gives approval or proposes to refuse to give approval to a draft plan under subsection 50 (13) or (14) of the Act, the council shall send notice to the applicant, the clerk of the local municipality in which the land that is the subject of the application is situate, the Ministry of Municipal Affairs and any other person or agency that has requested notification and, where approval is given to a draft plan, the notice shall be accompanied by a copy of the draft plan and of the conditions imposed on the approval thereof.
11. Where the land that is the subject of an application made under subsection 50 (1) of the Act is affected by a proposed amendment to an official plan incorporating policies and designations relating to the land, the council shall not make any decision concerning the application until the amendment to the official plan has been approved or not approved by the Minister or the Municipal Board, as the case may be.
12. Where a matter is referred to the Municipal Board under subsection 50 (15) or (17) of the Act, the council shall notify the applicant, the clerk of the local municipality in which the land that is the subject of the application

is situate and the Ministry of Municipal Affairs.

13. Where the council gives approval to a draft plan under subsection 50 (13) of the Act, the approval shall be shown on the draft plan in the following form:

Subject to the conditions, if any, set forth in our letter dated19...., this draft plan is approved under section 50 of the *Planning Act*, 1983, this day of 19....

14. Where, after approval of a draft plan and before approval of a final plan, the council varies substantially any condition of the draft plan or withdraws its approval of the draft plan, the council shall send notice thereof within fifteen days to all parties that were sent notice under paragraph 10.

15. Where the council gives approval to a final plan under subsection 50 (20) of the Act, the approval shall be shown on the final plan in the following form:

Approved under section 50 of the *Planning Act*, 1983, this day of 19....

16. Where the final plan is to be registered under the *Land Titles Act*, the council shall not approve the final plan for registration until the examiner of surveys appointed under the *Land Titles Act* has advised that the plan is acceptable for registration.

17. The original of the final plan, as approved, together with all copies required for registration under the *Registry Act* or the *Land Titles Act*, as the case may be, shall be forwarded by the council to the appropriate Land Registry Office.

18. The council shall forward one copy of each final plan approved for registration to the Ministry of Municipal Affairs.

(2) The Director of the Plans Administration Branch, Central and Southwest, of the Ministry of Municipal Affairs, may waive in writing any requirement imposed by paragraph 3, 4, 5, 6, 7, 9, 10, 14 or 15 of subsection (1) in so far as it applies to the Ministry of Municipal Affairs.

(3) The delegation of authority set out in this Order is not terminated by reason only that the council has failed to comply with a condition set out in subsection (1). O. Reg. 220/89, s. 3.

4. Where the council proposes to, in turn, delegate under subsection 5 (1) of the Act any of the authority

delegated by section 1, the council shall give notice to the Minister of the proposed delegation not later than thirty days prior to the date that the proposed delegation is to commence. O. Reg. 220/89, s. 4.

5. This Order comes into force on the 1st day of May, 1989.

MOTOR VEHICLE TRANSPORT ACT, 1987

MOTOR VEHICLE TRANSPORT ACT, 1987, PART II TRUCK APPLICATIONS:

The following are applications for extra-provincial truck transport operating licences under Part II of the Motor Vehicle Transport Act, 1987, S.C. 1987, Chapter 35. These Applicants have been found to meet the fitness requirements pursuant to Section 8(2) of that Act and the provincial transport board for Ontario proposes to issue the licences if no objection is served on the Applicant and filed with the Registrar of Motor Vehicles within twenty-nine days of this publication.

EXTRA-PROVINCIAL APPLICATIONS:

NOTE: Where the application is for a licence other than a corridor operating authority, an interested person who serves and files an objection must also provide the Ontario Highway Transport Board with written evidence, within thirty-nine days of this publication that satisfies that Board that, in the absence of evidence to the contrary, the operation of the undertaking in respect of which the licence is sought would likely be detrimental to the public interest.

* Indicates a person who has applied for licences under both Part II and Part III of the Motor Vehicle Transport Act, 1987.

MOTOR VEHICLE TRANSPORT ACT, 1987

INTRA-PROVINCIAL TRUCK APPLICATIONS:

The following are applications for operating licences under Part III of the Motor Vehicle Transport Act, 1987, S.C. 1987, Chapter 35. These applicants have been found to meet the fitness requirement in like manner to section 6 of the Truck Transportation Act, 1988, S.O. 1988, Chapter 64, and the provincial transport board for Ontario proposes to issue the licences unless a person, within thirty days of this publication, serves on the Applicant and files with the Registrar of Motor Vehicles a written request for a fitness hearing or a public interest test in like manner to Subsection 7(4) of the Truck Transportation Act, 1988, S.O. 1988, Chapter 64.

NOTE: A person who requests a public interest hearing must, within thirty-nine days of this publication, serve on the Ontario Highway Transport Board a document that makes out a written case to the Board that the granting of the operating authority applied for would be likely to have a significant detrimental effect on the public interest using the criteria set out in subsection 10(1) of the Truck Transportation Act, 1988, S.O. 1988, Chapter 64, and that the request is not frivolously made.

Ontario Automobile Insurance Board

ERRATUM

Vide Ontario Gazette, Vol. 122-6, dated February 11, 1989.

A portion of the Regulation Made Under the Ontario Automobile Insurance Board Act, 1988, appearing as an Appendix to the Order of the Ontario Automobile Insurance Board dated January 20, 1989 under File No. I-88-1, was inadvertently not published in the Ontario Gazette Vol. 122-6, dated February 11, 1989. The following should be inserted after page 16 of the said Regulation:

- 2) If the number of years licensed, as determined in step (1), exceeds six years, classify as more than six years.
- 3) Determine the accumulated total of all periods of suspension or non-renewal over the six year period immediately preceding the effective date of the policy term in whole months.
- 4) Subtract the period of suspension or non-renewal determined in step (3) from the number of years licensed determined in steps (1) and (2). The resulting amount is to be rounded to the nearest whole year; six months or more rounds up to the next whole year. This represents the number of years licensed to be considered for classification purposes.

(c) Driver Training Rule

A person qualifies for the driver training class of risk exposure if the driver has successfully completed an approved driver training course for the type of vehicle being rated.

If, before the effective date of the Board's inaugural rates, an insured was receiving credit for the completion of driver training, then after that effective date the driver training shall be deemed to be approved for purposes of this rule.

(d) New Ontario Residents Rule

The number of years licensed for new Ontario residents is to be recognized provided satisfactory proof of such driving experience is provided.

In the event satisfactory evidence is not provided, the risk will be classified as zero years licensed.

With respect to years licensed, a new resident of Ontario coming from outside Canada who can provide a copy of a current driver's license shall be credited with the number of years licensed based upon the issuance date of that license to a maximum of three years.

COMMODITY BOARDS AND MARKETING AGENCIES ACT

O. Reg. 243/89.

Levies or Charges—Eggs.

Made—April 28th, 1989.

Filed—May 1st, 1989.

REGULATION TO AMEND REGULATION 110 OF REVISED REGULATIONS OF ONTARIO, 1980 MADE UNDER THE COMMODITY BOARDS AND MARKETING AGENCIES ACT

- 1.—(1) Subsection 2 (1) of Regulation 110 of Revised Regulations of Ontario, 1980, as amended by section 1 of Ontario Regulation 462/81, section 1 of Ontario Regulation 713/83 and section 1 of Ontario Regulation 467/88, is revoked and the following substituted therefor:

(1) The Lieutenant Governor in Council hereby grants to the marketing agency, in relation to the marketing of eggs locally within Ontario the following authority:

1. To fix, impose and collect levies or charges from persons engaged in the production of eggs in Ontario.
2. For the purpose described in paragraph 1, to classify those persons into groups and fix the levies or charges payable by the members of different groups in different amounts, not exceeding in any case 14 cents per dozen of eggs.
3. To use those levies or charges for the purposes of the marketing agency as set out in subsection 2 (1) of the Act. O. Reg. 243/89, s. 1.

(2) Paragraph 2 of the said subsection 2 (1), as made by subsection 1 (1) of this Regulation, is amended by striking out "14 cents" in the fifth line and inserting in lieu thereof "10 cents".

2.—(1) This Regulation, except subsection 1 (2), comes into force on the day it is filed.

(2) Subsection 1 (2) of this Regulation comes into force ten months after this Regulation is filed.

ENERGY ACT

O. Reg. 244/89.

Gas Utilization Code.

Made—April 28th, 1989.

Filed—May 2nd, 1989.

REGULATION MADE UNDER THE
ENERGY ACT

GAS UTILIZATION CODE

1. In this Regulation,

“approved” means,

- (a) acceptable to the authority having jurisdiction,
- (b) where applied to either a standard or a laboratory test report, that the standard or laboratory test report is identified in the titles adopted in section 19,
- (c) where applied to an appliance, that the appliance bears either the label or symbol of a designated testing organization certifying compliance with a standard or a laboratory test report identified in the titles adopted in section 19 or a label issued by the Director,
- (d) where applied to equipment, a component or an accessory, that the equipment, component or accessory bears either the label or symbol of a designated testing organization certifying compliance with a standard or a laboratory test report identified in the titles adopted in section 19, and
- (e) where applied to an installation, that the installation complies with this Regulation;

“fuel features” mean the piping, venting, manual valves, automatic valves or other related devices required for the safe operation of an appliance using a hydrocarbon fuel;

“professional engineer” means a person who is a member or licensee of the Association of Professional Engineers of the Province of Ontario. O. Reg. 244/89, s. 1.

USE OF APPLIANCES

2.—(1) No person shall supply gas to or use a gas appliance if,

- (a) the installation of an appliance has been inspected by the gas distributor under subsection 15 (2) of the Act and has been found not to comply with the Act and this Regulation; or

(b) the appliance has been tagged as unsafe.

(2) Despite subsection (1), a gas distributor who inspects the installation of an appliance under subsection 15 (2) of the Act and is satisfied that no immediate hazard exists may, subject to subsection 3 (2), supply gas to the appliance. O. Reg. 244/89, s. 2.

3.—(1) A distributor who finds that,

- (a) an appliance is being used for a purpose other than that for which it is approved;
- (b) any device, attachment, alteration or deterioration might impair the safe operation of an appliance; or
- (c) the condition of the piping, tubing or hose, the venting of products of combustion, the supply of air for combustion or the clearance from adjacent combustible material in respect of an appliance does not meet the requirements of this Regulation,

and the distributor is satisfied that an immediate hazard exists, the distributor shall turn off the supply of the gas to the appliance and notify the user of the appliance in writing that the appliance is not to be used until the hazardous condition is corrected and the appliance is re-inspected by the distributor.

(2) A distributor who makes a finding under clause (1) (a), (b) or (c) and who is satisfied that no immediate hazard exists shall notify the user of the appliance in writing of the existence of the finding and shall advise the user that unless the condition is corrected within ninety days or such lesser period as is necessary to ensure the safe usage of the appliance, the supply of gas to the appliance will be turned off.

(3) Where a person who holds a valid certificate under section 13 or a contractor finds a condition described in clause (1) (a), (b) or (c) and the person or contractor is satisfied that an immediate hazard exists, the person or contractor shall,

- (a) turn off the supply of gas to the appliance;
- (b) report the findings immediately to the distributor;
- (c) notify the user of the appliance in writing that the appliance is not to be used until the hazardous condition is corrected and the appliance is inspected by the distributor; and
- (d) confirm the findings in writing to the distributor within fourteen days after making the finding.

(4) Where a person who holds a valid certificate under section 13 or a contractor finds a condition described in clause (1) (a), (b) or (c) and the person or contractor is satisfied that no immediate hazard exists, the person or contractor shall,

- (a) report the findings immediately to the distributor;
- (b) notify the user of the appliance in writing of the existence of any condition set out in subsection (1) and that the distributor has been notified; and
- (c) confirm the findings in writing to the distributor within fourteen days after making the finding.

(5) A distributor who is notified under subsection (3) or (4) shall investigate the condition reported and take the appropriate action required under subsection (1) or (2). O. Reg. 244/89, s. 3.

4. Where a condition referred to in subsection 3 (1) is not corrected within the period set out in subsection 3 (2), the distributor shall not supply gas to the appliance and no person shall use the appliance until the condition is corrected. O. Reg. 244/89, s. 4.

5. Every owner of an appliance and every person responsible for the operation of the appliance shall ensure that the appliance and any accessories that are associated with the appliance are maintained in a safe operating condition. O. Reg. 244/89, s. 5.

INSPECTION OF APPLIANCES

6.—(1) Every distributor shall file with the Director, a written manual that sets out the standard practices of the distributor.

(2) The manual of each distributor shall include the required frequency of inspections for appliances and their installations in residential and commercial building.

(3) Each distributor shall operate in conformity with the distributor's manual.

(4) Every owner of,

- (a) an industrial or institutional building where a natural gas appliance is installed; or
- (b) a building other than an industrial, institutional, residential or commercial building where a natural gas appliance is installed for which there is a maintenance and inspection program that is acceptable to the gas distributor and that is approved,

shall ensure that,

- (c) the appliance and its fuel features are maintained in accordance with the manufacturer's recommended maintenance procedures;
- (d) an evaluation of the maintenance procedures referred to in clause (b) is carried out at least once every ten years and where necessary

new or upgraded procedures are established; and

- (e) an inspection of the appliance and its fuel features is carried out at least once every ten years to ensure that the appliance and its fuel features are in a safe operating condition and that the installation is in compliance with the Act and this Regulation.

(5) An inspection under clause (4) (e) shall be carried out by a person who is the holder of a valid certificate as a gas fitter 1 or a maintenance gas fitter.

(6) Every distributor shall maintain a record of each inspection made under this section until the next inspection and report is completed.

(7) Every owner referred to in clauses (4) (a) and (b) shall ensure that a record is maintained in the industrial or institutional building or other building where the appliance is located for each inspection made under this section until the next inspection and report is completed.

(8) In this section, "commercial building", "industrial building" and "institutional building" have the same meaning as in the Code adopted under section 19. O. Reg. 244/89, s. 6.

APPROVAL OF APPLIANCES, COMPONENTS, ACCESSORIES AND EQUIPMENT

7.—(1) The Canadian Gas Association is designated as an organization to test,

- (a) gas appliances; and
- (b) appliances that use gas or electricity interchangeably to perform the same functions,

to approved standards and, where the appliances conform to the approved standards, to place their label or symbol thereon.

(2) The Canadian Standards Association and the Underwriters' Laboratories of Canada are designated as organizations to test,

- (a) gas appliances that are designed primarily for residential use that have an input rating in excess of 400,000 British thermal units per hour (120 Kilowatts);
- (b) gas appliances that are designed primarily for commercial or industrial use within the meaning of the Code adopted under section 19 that have any input rating, except commercial cooking appliances that have an input rating of less than 400,000 British thermal units per hour (120 Kilowatts);
- (c) gas appliances that are designed primarily for use in mobile housing within the meaning of the Code adopted under section 19; and

- (d) appliances that use gas or electricity interchangeably to perform the same functions,

to approved standards and where the appliances conform to the approved standards to place their label or symbol thereon.

(3) The Canadian Gas Association, the Canadian Standards Association Testing Laboratories and the Underwriters' Laboratories of Canada are designated as organizations to test,

- (a) equipment, components or accessories;
- (b) conversion burners;
- (c) appliances with a combination burner that are designed to burn both gas and fuel oil either together or separately;
- (d) combination appliances that are designed to burn both gas and solid fuel; and
- (e) appliances that are designed to burn either gas or fuel oil and that are equipped with,
 - (i) a gas burner or fuel oil burner that is designed by the manufacturer of the appliance, or
 - (ii) a gas burner or fuel oil burner that is authorized by the appliance manufacturer for use with the appliance,

to approved standards and, where the equipment, components, accessories or appliances conform to the approved standards, to place their label or symbol thereon.

(4) Where an organization that is designated in subsection (3) tests an appliance that has components or accessories previously certified by another organization that is not designated under subsection (3), the components or accessories shall be investigated by the designated organization to ascertain whether the components or accessories comply with the applicable approved standards.

(5) A component, an accessory or equipment that bears the label or symbol of, and is listed by, the Underwriters' Laboratories Incorporated or the Factory Mutual System shall be deemed to meet the requirements of this Regulation if the component, accessory or equipment,

- (a) is an integral part of an appliance that is imported into Ontario; or
- (b) is specified and required for a particular application and there is no equivalent component accessory or equipment that bears the label or symbol of an organization designated under subsection (3). O. Reg. 244/89, s. 7.

8.—(1) Where an appliance or a component, accessory or equipment for which there is no approved

standard is tested by a testing organization designated under subsection 7 (3), the organization shall report its findings to the Director.

(2) If the Director is satisfied that the appliance, component, accessory or equipment will not impair public safety, the label or symbol of the designated testing organization shall be placed on the appliance, component, accessory or equipment. O. Reg. 244/89, s. 8.

9.—(1) An application may be made to the Director for a label with respect to the fuel features of an appliance that has an input that does not exceed 50,000,000 British thermal units per hour (15,000 Kilowatts) and that does not bear the label of the Canadian Gas Association, the Canadian Standards Association or the Underwriters' Laboratories of Canada.

(2) The Director may refuse to issue a label where the design of the appliance is substantially the same as another appliance that has been tested and labelled by an organization designated under subsection 7 (3).

(3) An application under subsection (1) shall be accompanied by,

- (a) three copies of a schematic valve train drawing;
- (b) three copies of a bill of material for valves, components and controls;
- (c) three copies of a sequence of operation for the safety interlock system;
- (d) three copies of a ladder type schematic wiring diagram; and
- (e) any other documentation that is necessary to process the application.

(4) The fee payable by an applicant under this section for a review of drawings, inspection of an appliance and observation of a test is \$31 for each hour or part thereof spent on the review, inspection or observation.

(5) If an application is made under subsection (1) and it is not feasible for an organization designated under subsection 7 (3) to test and label the appliance, the Director shall direct an inspector to inspect the appliance to determine whether the appliance complies with the approved standards and this Regulation.

(6) If the inspector finds that the fuel features of the appliance comply with approved standards and with this Regulation, the inspector shall affix a label issued by the Director to the appliance. O. Reg. 244/89, s. 9.

10.—(1) If an application is made under subsection 9 (1) in respect of the fuel features of an appliance for which there is no approved standard or to which an

approved standard is only partially applicable, an inspector may test the appliance for the purpose of approving the appliance and to ensure that,

- (a) where an approved standard is only partially applicable, that the fuel features of the appliance comply with the applicable parts of the approved standard and this Regulation; or
- (b) where there is no approved standard, that the fuel features of the appliance are such to ensure the safe operation of the appliance.

(2) An inspector may affix a label issued by the Director to an appliance referred to in subsection (1) that is approved. O. Reg. 244/89, s. 10.

EXEMPTIONS

11.—(1) The following appliances are exempt from section 10 of the Act:

- 1. Appliances that have an input in excess of 50,000,000 British thermal units per hour (15,000 Kilowatts) and that are certified by a professional engineer to be in compliance with the fuel feature requirements of Part 6 of the Code referred to in section 19 and "Technical Data Bulletin No. 4" referred to in the titles adopted in section 19.
- 2. Manually operated industrial appliances that have an input that do not exceed 20,000 British thermal units per hour (6 Kilowatts).
- 3. Bunsen burners.
- 4. Stationary or portable gas engines.
- 5. Portable asphalt melting pots.
- 6. Portable equipment used for highway construction and repair.

(2) Every owner of an appliance referred to in paragraph 1 of subsection (1) shall submit to the gas distributor before the appliance is activated,

- (a) evidence that a professional engineer is satisfied that the appliance and its installation comply with the requirements of Part 6 of the Code referred to in section 19 and "Technical Data Bulletin No. 4" referred to in the title adopted in section 19 and with this Regulation; and
- (b) the name, address and telephone number of the person who will activate the appliance. O. Reg. 244/89, s. 11.

12.—(1) An application for registration as a contractor under section 13 of the Act shall be made to the Director.

(2) The term of an initial registration as a contractor under section 13 of the Act or a renewal thereof is one year.

(3) The non-refundable fee, payable on application for a registration as a contractor or a renewal thereof, is \$52.

(4) The Director shall issue evidence of the registration or renewal to an applicant who is registered as a contractor or renews a registration as a contractor.

(5) The evidence of the registration or renewal issued by the Director shall set out the expiry date thereof.

(6) An application to renew a registration after the expiry date of the registration shall be treated as a new application for registration.

(7) Every contractor shall display the contractor's evidence of registration in a conspicuous place at the business premises of the contractor and shall notify the Director forthwith of any change in the business address.

(8) The Director shall, upon request and payment of a \$5 fee, issue a duplicate evidence of a valid registration where the original is lost or destroyed.

(9) A registration is not transferable. O. Reg. 244/89, s. 12.

CERTIFICATION

13.—(1) An application for a certificate under subsection 14 (1) of the Act or a renewal thereof shall be made to the Director.

(2) The non-refundable fee payable on an application for a certificate issued under subsection 14 (1) of the Act or for a renewal thereof is, subject to section 14, \$21.

(3) An applicant for a certificate under subsection 14 (1) of the Act shall take an examination conducted or approved by the Director with respect to the subject-matter of the type of certificate applied for.

(4) Despite subsection (3), an applicant for a certificate under subsection 14 (1) of the Act is not required to take an examination where the applicant can satisfy the Director as to the applicant's knowledge and competence with respect to the subject-matter of the type of certificate applied for.

(5) The Director shall issue a certificate or a renewal thereof, as the case requires, to an applicant who becomes certified or renews a certification under subsection 14 (1) of the Act.

(6) A certificate or a renewal thereof issued by the Director under subsection 14 (1) of the Act shall set out the expiry date of the certificate or the renewal.

(7) A certificate or a renewal thereof issued under this section shall be designated as a,

- (a) 704A, with respect to a person who is a gas fitter 1;
- (b) 704B, with respect to a person who is a gas fitter 2;
- (c) 705A, with respect to a person who is a gas appliance installer 1;
- (d) 705B, with respect to a person who is a gas appliance installer 2;
- (e) 706A, with respect to a person who is a maintenance fitter 1;
- (f) 706B, with respect to a person who is a service gas fitter;
- (g) 704X, with respect to a person who is a gas fitter 1 temporary; or
- (h) 704T, with respect to a person who is a gas fitter 2 temporary,

as the case requires.

(8) A 704A, 704B, 705A, 705B, 706A or 706B certificate issued under this section expires on the second birthday of the holder next following the issuance of the certificate, unless it is renewed.

(9) Where a certificate referred to in subsection (8) is renewed, the renewed period shall be for two years expiring on the birthday of the holder of the certificate.

(10) A 704X certificate issued under this section expires two years after the date of issue and is not renewable.

(11) A 704T certificate issued under this section expires three years from the date of issue and is not renewable.

(12) An applicant who does not pass the examination with respect to the subject-matter of the type of certificate applied for may not try another examination until at least thirty days after the date of the taking of the examination that is failed and only after a new application is made under subsection (1).

(13) The Director may issue a new certificate of the same type to a person who applies for a renewal of a certificate that has been expired for a period of up to but not exceeding twelve months after the expiry date shown on the certificate, upon payment of the fee referred to in subsection (2).

(14) An application for a renewal of a certificate that is made more than twelve months after the expiry date shown on the certificate shall be treated as an application for a certificate under subsection (1).

(15) The holder of a certificate or a renewal thereof shall notify the Director within six days of any change in the address of the holder. O. Reg. 244/89, s. 13.

14. Where a person applies for a renewal of more than one valid certificate issued under section 13, a single application shall be made for all the renewals and upon payment of a fee of \$21, the Director shall issue to the applicant a single certificate appropriately endorsed. O. Reg. 244/89, s. 14.

15.—(1) A person who installs an appliance or works on an installed appliance in his or her own single-family detached dwelling within the meaning of the Code adopted under section 19 is exempt from section 14 of the Act.

(2) It is the responsibility of the person referred to in subsection (1) to forthwith notify the gas distributor following completion of the installation or work performed.

(3) The gas distributor shall, upon being notified under subsection (2), inspect the installation or work for compliance with the Act and regulations.

(4) A person who is not the holder of a certificate 704A or 704B and who is employed by a distributor who supplies natural gas is exempt from section 14 of the Act where the person is, after receiving a training course by the employer for the purpose, employed only to,

- (a) shut off all types of appliances of any input;
- (b) turn off gas service;
- (c) reactivate gas service to a single-family dwelling; and
- (d) relight appliances installed in a single-family dwelling. O. Reg. 244/89, s. 15.

16.—(1) The holder of a valid 704A certificate may install, alter, purge, activate, repair, service or remove an appliance of any British thermal unit per hour input and its equipment and in connection therewith may,

- (a) install or remove any piping to an appliance downstream of the meter;
- (b) install, service, remove or replace any vent or vent connector together with its associated draft control devices;
- (c) disconnect and reconnect not more than five feet in horizontal measurement of water piping in order to replace water heaters with approved water heaters and carry out the replacement necessary to complete the reconnection of controls and components that form part of an approved water heater;

- (d) clean, oil, service or replace any electrical component or accessory forming part of an appliance;
- (e) perform such tasks as are necessary to replace controls and components forming part of an appliance other than the replacement of a low water cut-off; and
- (f) install, service, remove or replace components and accessories forming part of a refrigerating or air-conditioning unit,

and may perform the functions of the holder of a 704B, 705A, 705B, 706A or 706B certificate.

(2) The holder of a valid 704X certificate may,

- (a) under the direct supervision of the holder of a valid 704A certificate, perform the same functions as the holder of a 704A certificate including the procedures described in subsections (1);
- (b) under the direct supervision of the holder of either a valid 704A or 704B certificate, perform the same functions as the holder of a 704B certificate including the procedures described in subsection (3); and
- (c) without direct supervision, perform the functions of the holder of a 705A, 705B, 706A or 706B certificate.

(3) The holder of a valid 704B certificate may install, alter, purge, activate, repair, service or remove an appliance having an input of 400,000 British thermal units per hour (120 Kilowatts) or less and its equipment and in connection therewith may perform the procedures described in subsection (1) and may perform the functions of the holder of a 705B or 706B certificate.

(4) The holder of a valid 704T certificate may,

- (a) under the direct supervision of the holder of either a valid 704A or 704B certificate, perform the same functions as the holder of a 704B certificate including the procedures described in subsection (3); and
- (b) without direct supervision, perform the functions of the holder of a 705B certificate.

(5) The holder of a valid 705A certificate may install, purge, activate or remove an appliance of any British thermal unit per hour input and in connection therewith may,

- (a) install or remove any piping to an appliance downstream of the meter;
- (b) install or remove any vent or vent connector together with its associated draft control devices; and

- (c) disconnect and reconnect not more than five feet in horizontal measurement of water piping in order to replace water heaters with approved water heaters and carry out the replacement necessary to complete the reconnection of controls and components that form part of an approved water heater,

and may perform the functions of the holder of a 705B certificate.

(6) The holder of a valid 705B certificate may only install, purge, activate or remove an appliance having an input of 400,000 British thermal units per hour (120 Kilowatts) or less and its equipment and in connection therewith may perform the procedures described in subsection (5).

(7) The holder of a valid 706A certificate may only install, purge, activate, repair, service or remove an appliance fuelled by gas or propane in the vapour state having any British thermal unit per hour input and its equipment that is located or is being located on the industrial premises of his or her employer.

(8) The holder of a valid 706B certificate may only purge, activate, repair, service or remove an appliance having an input of 400,000 British thermal units per hour (120 Kilowatts) or less where the appliance has been manufactured by his or her employer or is being serviced by the employer where the employer is an authorized agent of the manufacturer and in connection therewith may,

- (a) service, remove or replace any vent or vent connector together with its associated draft devices;
- (b) clean, oil, service or replace any electrical component or accessory forming part of such appliance; and
- (c) perform such tasks as are required to replace controls and components forming part of such appliance other than the replacement of a low water cut-off. O. Reg. 244/89, s. 16.

17.—(1) Where a person's evidence of a valid certificate is lost or destroyed, the Director shall, upon request and payment of a \$5 fee, issue a duplicate certificate.

(2) Where the name of the holder of a certificate is changed, the Director shall, upon receipt of evidence of the name change and payment of a \$5 fee, issue a certificate in the new name.

(3) A certificate is not transferable. O. Reg. 244/89, s. 17.

18. Every distributor of gas who distributes an amount of gas in a twelve-month period that exceeds 14,000 cubic metres (500,000 cubic feet) shall pay an annual fee for inspections of the distributor's pipelines and appliances and the appliances of the distributor's

consumers during the year in an amount that is equal to the cost of the inspections. O. Reg. 244/89, s. 18.

19. The code entitled the "Ontario Gas Utilization Code, 1989" issued by the Fuels Safety Branch of the Ministry of Consumer and Commercial Relations and the standards, specifications and codes set out therein as reference publications to the extent that they apply to the said Code and the "Titles of Standards and Laboratory Test Reports Authorized in the Province of Ontario under the *Energy Act* for use with the Ontario Gas Utilization Code, 1989" dated the 1st day of April, 1989 are adopted as part of this Regulation. MINING TAX ACT

O. Reg. 250/89.

General.

Made—April 28th, 1989.

Filed—May 4th, 1989.

**REGULATION TO AMEND
REGULATION 639 OF
REVISED REGULATIONS
OF ONTARIO, 1980
MADE UNDER THE
MINING TAX ACT**

1. Regulation 639 of Revised Regulations of Ontario, 1980 is amended by adding thereto the following sections:

1a. For the purposes of clause 1 (1) (d) of the Act, "limestone" means limestone which is mined and sold for use as a construction material but does not include limestone which is mined for the purpose of being processed to extract elements or compounds which form part of the limestone. O. Reg. 250/89, s. 1, *part*.

6.—(1) For the purposes of subsection 3 (5a) of the Act, a mine shall be considered to be a new mine that has come into existence after the 20th day of May, 1987,

(a) where,

(i) no operator of the mine was entitled to receive proceeds from the output of the mine before the 21st day of May, 1987, and

(ii) the mine is separate and distinct geologically and has had no common workings with any other mine that has been operated at any time during the five calendar years ending before the calendar year in which an operator first becomes entitled to receive proceeds from the output of the mine;

(b) where the mine was inactive on the 20th day of May, 1987 and subsequently resumes production in reasonable commercial quantities; or

(c) where the mine resumes production in reasonable commercial quantities after having been closed down after the 20th day of May, 1987 for a continuous period of at least sixty months.

(2) For the purposes of subsection 3 (5a) of the Act, a major expansion of an existing mine shall be considered to occur after the 20th day of May, 1987 where,

(a) as a result of an investment in an existing mine, the daily rate of production of mineral substances from the mine exceeds by at least 30 per cent the average daily rate of production of the mine during each of the five calendar years ending immediately before the calendar year in which the first outlay was made to expand the mine; and

(b) the first day that the rate of production of mineral substances from the expanded mine reaches the level of production described in clause (a) is after the 20th day of May, 1987. O. Reg. 250/89, s. 1, *part*.

12.—(1) A notice of objection under section 10 of the Act shall be in Form 1.

(2) A notice of appeal under section 10 of the Act shall be in Form 2.

(3) A notice of waiver under subclause 9 (1) (a) (iv) of the Act shall be in Form 3.

(4) A notice of revocation of waiver under subsection 9 (2) of the Act shall be in Form 4.

(5) A declaration for the three year tax exemption under subsection 3 (5a) of the Act shall be in Form 5. O. Reg. 250/89, s. 1, *part*.

2. The said Regulation is further amended by adding thereto the following Forms:

Proclamation

(Great Seal of Ontario)

LINCOLN M. ALEXANDER

PROVINCE OF ONTARIO

ELIZABETH THE SECOND, by the Grace of God of the United Kingdom, Canada and Her other Realms and Territories, Queen, Head of the Commonwealth, Defender of the Faith.

TO ALL TO WHOM THESE PRESENTS SHALL COME,

GREETING:

PROCLAMATION

WHEREAS by an Act passed at the First Session of the Thirty-fourth Legislature of Ontario convened on the third day of November, 1987 intituled "An Act to Revise the Farm Products Containers Act", being Chapter 68 of the Statutes of Ontario, 1988 it is enacted thereof that the said Act shall come into force on a day to be named by Our Lieutenant Governor by his Proclamation;

AND WHEREAS it has appeared expedient that a Proclamation should now issue bringing the said Act into force;

NOW THEREFORE KNOW YE that, having taken the premises into Our Royal consideration, We, by and with the advice of Our Executive Council of Ontario and in the exercise of the power in US vested in this behalf by the said Act or otherwise howsoever, Do, by this Our Royal

PROCLAMATION hereby Name Wednesday, the third day of May, 1989 as the day upon which the said Act intituled "An Act to Revise the Farm Products Containers Act", being Chapter 68 of the Statutes of Ontario, 1988 shall come into force.

OF ALL WHICH PREMISES all Our loving subjects and all others whom it doth or may in anywise concern are hereby required to take notice and govern themselves accordingly.

IN TESTIMONY WHEREOF We have caused these Our Letters to be made patent and the Great Seal of Our Province of Ontario to be hereunto affixed.

WITNESS:

THE HONOURABLE LINCOLN M. ALEXANDER, A Member of Our Privy Council for Canada, One of Our Counsel Learned in the Law, Bachelor of Arts, LIEUTENANT GOVERNOR OF OUR PROVINCE OF ONTARIO,

at Our City of Toronto in Our said Province this twenty-eighth day of April, in the year of Our Lord one thousand nine hundred and eighty-nine and in the thirty-eighth year of Our Reign.

MOTOR VEHICLE TRANSPORT ACT, 1987

MOTOR VEHICLE TRANSPORT ACT, 1987, PART II TRUCK APPLICATIONS:

The following are applications for extra-provincial truck transport operating licences under Part II of

the Motor Vehicle Transport Act, 1987, S.C. 1987, Chapter 35. These Applicants have been found to meet the fitness requirements pursuant to Section 8(2) of that Act and the provincial transport board for Ontario proposes to issue the licences if no objection is served on the Applicant and filed with the Registrar of Motor Vehicles within twenty-nine days of this publication.

EXTRA-PROVINCIAL APPLICATIONS:

NOTE: Where the application is for a licence other than a corridor operating authority, an interested person who serves and files an objection must also provide the Ontario Highway Transport Board with written evidence, within thirty-nine days of this publication that satisfies that Board that, in the absence of evidence to the contrary, the operation of the undertaking in respect of which the licence is sought would likely be detrimental to the public interest.

* Indicates a person who has applied for licences under both Part II and Part III of the Motor Vehicle Transport Act, 1987.

MOTOR VEHICLE TRANSPORT ACT, 1987

INTRA-PROVINCIAL TRUCK APPLICATIONS:

The following are applications for operating
licences under Part III of the Motor Vehicle
Transport Act, 1987, S.C. 1987, Chapter 35. These
applicants have been found to meet the fitness
requirement in like manner to section 6 of the
Truck Transportation Act, 1988, S.O. 1988, Chap-
ter 64, and the provincial transport board for
Ontario proposes to issue the licences unless a per-
son, within thirty days of this publication, serves
on the Applicant and files with the Registrar of
Motor Vehicles a written request for a fitness hear-
ing or a public interest test in like manner to Sub-
section 7(4) of the Truck Transportation Act, 1988,
S.O. 1988, Chapter 64.

NOTE: A person who requests a public interest
hearing must, within thirty-nine days of this
publication, serve on the Ontario Highway
Transport Board a document that makes
out a written case to the Board that the
granting of the operating authority applied
for would be likely to have a significant
detrimental effect on the public interest
using the criteria set out in subsection 10(1)
of the Truck Transportation Act, 1988,
S.O. 1988, Chapter 64, and that the
request is not frivolously made.

2. The areas described in the Schedules are areas in which, in the opinion of the Authority, the control of flooding or pollution or the conservation of land may be affected by the placing or dumping of fill. O. Reg. 253/89, s. 2.

3. Unless permission has been obtained under section 4, no person shall,

- (a) construct any building or structure or permit any building or structure to be constructed in any pond, swamp or area susceptible to flooding during a regional storm;
- (b) place or dump fill or permit fill to be placed or dumped in the areas described in the Schedules whether such fill is already located in or upon such area, or brought to or on such area from some other place or places; or
- (c) straighten, change, divert or interfere in any way with the existing channel of a river, creek, stream or watercourse. O. Reg. 253/89, s. 3.

4. Subject to the *Ontario Water Resources Act* or to any private interest, the Authority may approve and authorize in writing the issuing of a permit for the construction of any building or structure or the placing or dumping of fill or the straightening, changing, diverting or interfering with the existing channel of a river, creek, stream or watercourse to which section 3 applies if, in the opinion of the Authority, the site of the building or structure or the placing or dumping and the method of construction or placing or dumping or the straightening, changing, diverting or interfering with the existing channel will not affect the control of flooding or pollution or the conservation of land. O. Reg. 253/89, s. 4.

5.—(1) A signed application for permission to construct a building or structure shall be filed with the Authority and shall include,

- (a) four copies of a plan of the property showing the proposed location of the building or structure, its elevation and the proposed final grade plan;
- (b) four copies of a complete description of the type of building or structure to be constructed, including drainage details;
- (c) four copies of a statement of the dates between which the construction will be carried out; and
- (d) four copies of a statement of the proposed use of the building or structure following completion of the construction.

(2) A signed application for permission to place or dump fill shall be filed with the Authority and shall include,

- (a) four copies of a plan of the property on which the fill is to be placed showing the proposed location of filling, the depth to which it is proposed to fill and the proposed final grade of the land when filling is completed;

(b) four copies of a complete description of the type of fill proposed to be placed or dumped;

(c) four copies of a statement of the dates when the placing or dumping will be carried out; and

(d) four copies of a statement of the proposed use of the land following completion of placing or dumping.

(3) A signed application for permission to straighten, change, divert or interfere in any way with the existing channel of a river, creek, stream or water-course shall be filed with the Authority and shall include,

(a) four copies of a plan on which shall be shown in plan view and cross section the details of
- such straightening, change, diversion or interference;

(b) four copies of a description of the protective measures to be undertaken;

(c) four copies of a statement of the dates between which the straightening, changing, diverting or interfering will be carried out; and

(d) four copies of a statement of the purpose of the proposed work. O. Reg. 253/89, s. 5.

6. The Authority may, at any time, withdraw any permission given under section 4 if, in the opinion of the Authority, the representations contained in the application for permission are not carried out or the conditions of the permit are not complied with. O. Reg. 253/89, s. 6.

7. The Authority may appoint officers to enforce this Regulation. O. Reg. 253/89, s. 7.

8. Regulation 164 of Revised Regulations of Ontario, 1980 is revoked.

PUBLIC LANDS ACT

O. Reg. 254/89.

Work Permits.

Made—May 4th, 1989.

Filed—May 8th, 1989.

REGULATION MADE UNDER THE PUBLIC LANDS ACT

WORK PERMITS

1. For the purpose of clauses 13a (1) (d) and (e) of the Act, "shore lands" means public or private lands covered by the waters of a lake, river, stream or pond and includes adjacent lands that are seasonally inundated by water. O. Reg. 254/89, s. 1.

2.—(1) An officer shall issue a work permit to any person who applies therefor unless the officer is of the opinion that the work for which a permit is required,

(a) is contrary to law;

(b) is inconsistent with or does not conform to,

(i) an official plan as defined in the *Planning Act, 1983*,

(ii) a Ministry Resource Management Plan,

(iii) the Ministry District Land Use Guidelines,

(iv) a policy statement issued by the Minister of Municipal Affairs under the *Planning Act, 1983*, or

(v) a policy and procedure directive of the Land Management Branch of the Ministry; or

(c) is likely to create a threat to public safety or to a natural resource including Crown lands, waters and watercourses, forests, flora, wildlife and fisheries.

(2) An application for a work permit and the work permit shall be on a form to be provided by the Ministry. O. Reg. 254/89, s. 2.

3. A work permit is valid during the period and for the geographic area specified in the permit. O. Reg. 254/89, s. 3.

4.—(1) An officer may cancel a work permit if,

- (a) the holder of the permit has contravened or failed to comply with the terms and conditions of the permit;
- (b) the holder of the permit did not proceed or is not proceeding with the work in an expeditious manner;
- (c) one of the grounds for refusal under subsection 2 (1) exists or would exist if the work was continued; or
- (d) a work permit issued under section 15 of the *Forest Fires Prevention Act* for the same location has been cancelled under that section.

(2) Before refusing to issue a work permit or cancelling a work permit, the officer shall give notice in writing to the applicant or holder of the permit of his or her intention to do so.

(3) Before refusing to issue a work permit or cancelling a work permit, the officer shall give the applicant or holder of the permit an opportunity to express his or her objection in a hearing before the officer.

(4) An applicant for a work permit or a holder of a work permit who objects to any condition in the permit as being unduly onerous or unnecessary, having regard to the nature or location of the work to be performed, shall be given an opportunity to express his or her objection in a hearing before the officer.

(5) After a hearing is held under subsection (3) or (4), the officer shall notify the applicant or holder of the permit in writing of his or her decision and the reasons therefor.

(6) Within fifteen days of the date of mailing of the officer's decision and reasons therefor, the applicant or holder of the permit may request the Regional Director of the Ministry for the region in which the work or proposed work is located to reconsider the decision of the officer by filing written submissions with respect thereto.

(7) The Regional Director or a delegate thereof shall consider any written submissions of the applicant or holder of the permit and notify the applicant or holder of the permit of his or her decision.

(8) The decision under subsection (7) is final.

(9) Despite subsection (1), an officer may cancel a work permit, without affording the holder an opportunity to be heard, if the continuation of the work under the permit is, in his or her opinion, an immediate

threat to the public interest and the officer gives written notice, with reasons, to the holder.

(10) The officer shall, immediately after cancelling a work permit under subsection (9), refer the matter to the Regional Director for review and subsections (7) and (8) apply to the review. O. Reg. 254/89, s. 4.

MOTOR VEHICLE TRANSPORT ACT, 1987

MOTOR VEHICLE TRANSPORT ACT, 1987, PART II TRUCK APPLICATIONS:

The following are applications for extra-provincial truck transport operating licences under Part II of the Motor Vehicle Transport Act, 1987, S.C. 1987, Chapter 35. These Applicants have been found to meet the fitness requirements pursuant to Section 8(2) of that Act and the provincial transport board for Ontario proposes to issue the licences if no objection is served on the Applicant and filed with the Registrar of Motor Vehicles within twenty-nine days of this publication.

EXTRA-PROVINCIAL APPLICATIONS:

NOTE: Where the application is for a licence other than a corridor operating authority, an interested person who serves and files an objection must also provide the Ontario Highway Transport Board with written evidence, within thirty-nine days of this publication that satisfies that Board that, in the absence of evidence to the contrary, the operation of the undertaking in respect of which the licence is sought would likely be detrimental to the public interest.

* Indicates a person who has applied for licences under both Part II and Part III of the Motor Vehicle Transport Act, 1987.

MOTOR VEHICLE TRANSPORT ACT, 1987

INTRA-PROVINCIAL TRUCK APPLICATIONS:

The following are applications for operating licences under Part III of the Motor Vehicle Transport Act, 1987, S.C. 1987, Chapter 35. These applicants have been found to meet the fitness requirement in like manner to section 6 of the Truck Transportation Act, 1988, S.O. 1988, Chapter 64, and the provincial transport board for Ontario proposes to issue the licences unless a person, within thirty days of this publication, serves on the Applicant and files with the Registrar of Motor Vehicles a written request for a fitness hearing or a public interest test in like manner to Subsection 7(4) of the Truck Transportation Act, 1988, S.O. 1988, Chapter 64.

NOTE: A person who requests a public interest hearing must, within thirty-nine days of this publication, serve on the Ontario Highway Transport Board a document that makes out a written case to the Board that the granting of the operating authority applied for would be likely to have a significant detrimental effect on the public interest using the criteria set out in subsection 10(1) of the Truck Transportation Act, 1988, S.O. 1988, Chapter 64, and that the request is not frivolously made.

MOTOR VEHICLE TRANSPORT ACT, 1987

M.V.T.A. 1987, PART 11, TRUCK APPLICATIONS

The following applicants have made applications for extra-provincial operating licences.

Recently, the Divisional Court of Ontario determined that the Ontario Highway Transport Board is the provincial transport board under the Act, and therefore for greater certainty, notice of these applications are re-published herein with reference only to the applicant's name, file number and date of earlier publication. These applications were unopposed at the time of the initial publication. Any interested person may file an objection within 15 days and written evidence within 25 days of the date of this publication that satisfies the Board that, in the absence of evidence to the contrary, the operation of the undertaking in respect of which the licence is sought would likely be detrimental to the public interest.

For further information with respect to these applications, members of the public are advised to contact the Secretary of the Board.

Government of Ontario Office of Francophone Affairs

IN THE MATTER OF Subsection 10 (2) of the
French Language Services Act, 1986

INVITATION TO MAKE COMMENTS

The Government of Ontario is proposing a regulation under the authority of the *French Language Services Act, 1986* to exempt certain services from the application of the Act.

The *French Language Services Act, 1986* requires that no regulation to exempt services shall be made until at least forty-five days after a notice has been published setting forth the substance of the proposed regulation and inviting comments to be submitted to the Minister Responsible for Francophone Affairs.

The substance of the proposed Regulation is as follows:

For a three year period,

1. To exempt all government publications or appendices to government publications that are of a scientific, technical, reference, research or scholarly nature and that,

- (i) although not restricted in circulation to the confines of the government, are not normally available for general circulation to members of the public, or
- (ii) are normally consulted by members of the public with the assistance of public servants.

2. To exempt all signs on provincial highways in the Municipality of Metropolitan Toronto, the City of Hamilton, and the City of Mississauga.

Please make comments in writing prior to July 7, 1989 to:

Minister Responsible for Francophone Affairs
 Office of Francophone Affairs
 4th Floor, Mowat Block
 Queen's Park
 Toronto, Ontario M7A 1C2

A FULL TEXT OF THE PROPOSED REGULATION IS AVAILABLE UPON REQUEST SENT TO THE ADDRESS ABOVE.

CONCERNANT le paragraphe 10 (2) de la *Loi de 1986 sur les services en français* :

Invitation à commenter

Le Gouvernement de l'Ontario propose un règlement en vertu de la *Loi de 1986 sur les services en français* afin d'exempter certains services de l'application de la Loi.

La *Loi de 1986 sur les services en français* stipule qu'un tel règlement ne peut être pris qu'après l'écoulement d'un délai d'au moins quarante-cinq jours suivant la publication d'un avis énonçant la substance du règlement proposé et invitant le public à adresser ses observations au ministre délégué aux Affaires francophones.

Le substance du règlement proposé est la suivante :
 Pour une période de trois ans,

1. Exempter toutes les publications gouvernementales ou les annexes des publications gouvernementales composées de documents scientifiques, techniques, de référence, de recherche et savants
- (i) dont la diffusion n'est pas nécessairement limitée à l'appareil gouvernemental, mais qui ne sont pas destinées à une diffusion générale auprès du public, ou

- (ii) qui sont normalement consultées par le grand public avec l'aide de fonctionnaires.
2. Exempter tous les panneaux de signalisation sur les routes provinciales qui se trouvent dans la municipalité de la communauté urbaine de Toronto, la cité d'Hamilton et la cité de Mississauga.

Workers' Compensation Board of Ontario

Minute #12, May 5, 1989, Page 5299

IN THE MATTER OF Section 86p of the
Workers' Compensation Act,
R.S.O., 1980, c. 539, as amended:

AND IN THE MATTER OF the findings of the
Industrial Disease Standards Panel Report to
the Workers' Compensation Board on the
Healthy Worker Effect

In accordance with Section 86p(14) of the Workers' Compensation Act, the Board is publishing this notice of its acceptance or rejection of the findings of the Industrial Disease Standards Panel (IDSP), with reasons therefor (see Attachment for a detailed discussion).

Many occupational epidemiology studies compare the health of an occupational cohort to that of the general population. It has long been known, however, that the general population is less healthy than most actively working groups, and this circumstance creates a bias known as the healthy worker effect (HWE).

The HWE is defined as "the consistent tendency for actively employed people to have a more favourable mortality (or morbidity) experience than the population at large". It is an unintended bias which may produce an underestimation of the association of interest, usually the standardized mortality ratio (SMR) or standardized morbidity ratio (SMbR).

In a letter dated June 12, 1986, the Workers' Compensation Board (WCB) requested the Industrial Disease Standards Panel (IDSP) to review the issue of the HWE. The Board requested responses to the following questions:

1. Should the WCB take the HWE into account in evaluating the epidemiological data found in mortality and morbidity studies?
2. If the answer to question 1 is yes, then

- a) What type of correction factor should typically be employed to address this potential source of bias?
- b) Are there any sorts of mortality or morbidity outcomes (e.g., cancer) in respect of which this correction factor should not apply?

These questions were answered in a report by the IDSP, submitted to the WCB on June 21, 1988. In accordance with Section 86p(11) of the Workers' Compensation Act, the WCB published a notice in The Ontario Gazette on August 20, 1988 setting forth the nature of the findings of the IDSP and calling for comments, briefs, and submissions. The deadline for submissions was extended to December 15, 1988. Seven submissions were received by the Board.

After a thorough review of the IDSP's report and all submissions received by the Board, the Board has reached the following conclusions:

o WITH RESPECT TO RECOMMENDATION 1

The Workers' Compensation Board should take the healthy worker effect (HWE) into account in evaluating the epidemiological data found in mortality and morbidity studies.

The Board agrees with this recommendation. Each contributor to the IDSP report has recognized that the HWE is an important potential bias in occupational epidemiology studies. Consequently, those studies which have attempted to minimize or account for the HWE either by design or analysis will carry more weight by the WCB in the process of assessing a causal relationship between an occupational exposure and a disease.

o WITH RESPECT TO RECOMMENDATION 2

Each epidemiological study, especially of the historical cohort type, should be assessed to determine if there is any evidence of the HWE in the form of a reduced (i.e. < 100%) standardized mortality ratio (SMR) for all causes mortality or for all cardiovascular diseases mortality; or correspondingly reduced standardized morbidity ratios (SMbR).

The Board agrees with this recommendation. As indicated by contributors to the IDSP Report, analysis by all cause mortality and mortality for cardiovascular disease will help to uncover the HWE.

o WITH RESPECT TO RECOMMENDATION 3

A correction factor should not be employed to address this potential source of bias since each study requires individual interpretation concerning the extent to which the HWE may have biased the point estimate of the standardized mortality or morbidity ratios for each condition of interest.

The Board concurs with this recommendation and wishes to stress that there is no single correction factor or approach which is appropriate to all epidemiological studies. The contributors to the IDSP Report have all demonstrated that the extent of the HWE is dependent on a number of different factors (e.g., type of disease, time, place, nature of occupation). It is only when these factors are assessed in each study that an investigator can take steps for reducing or accounting for the bias of the HWE.

In the interpretation of epidemiological studies, it does not appear useful to correct for the HWE by dividing one SMR by another since this may only complicate any bias which already exists.

o WITH RESPECT TO RECOMMENDATION 4

Where there is evidence of the presence of the HWE, and there is the possibility of excess mortality (or morbidity) from non-cardiovascular disease causes, the epidemiological estimates of mortality or morbidity should in general be derived after removing from the analysis the initial group of years from the time of first employment. The number of years of follow up to be so removed should be approximately equal to the average estimated duration in time from the earliest clinical manifestations of the disease to final outcome (based, for example, on the use of survival curves). For lung cancer, for example, it is suggested that the initial 5 years following first employment should be removed from the analysis.

The Board recognizes that removal of an initial number of years of follow-up in an historical cohort study (as indicated in Recommendation 4) will serve to reduce the bias from selection as well as from other factors. It should be noted, however, that this is not the only way to account for or minimize the HWE.

Use of an internal comparison group or a more comparable external comparison group will also serve to reduce bias from the HWE. In addition, analysis by latency is another way to account for the HWE.

Each method, including the removal of an initial number of years (as in Recommendation 4), has advantages and disadvantages.

The Panel also noted that all of the above recommendations should apply to the Panel in its own work.

The Board agrees with this point.

HEALTHY WORKER EFFECT
WCB RESPONSE TO IDSP REPORT No. 3

I. HISTORICAL BACKGROUND

Many occupational epidemiology studies compare the health of an occupational cohort to that of the general population. It has long been known, however, that the general population is less healthy than most actively working groups, and this circumstance creates a bias known as the healthy worker effect (HWE).

The HWE, as defined by McMichael (IDSP Report No. 3), is "the consistent tendency for actively employed people to have a more favourable mortality (or morbidity) experience than the population at large". It is an unintended bias which may produce an underestimation of the standardized mortality ratio (SMR) or other estimates of the association of interest.

In a letter dated June 12, 1986, the Workers' Compensation Board (WCB) requested the Industrial Disease Standards Panel (IDSP) to review the issue of the HWE. The Board requested responses to the following questions:

1. Should the WCB take the HWE into account in evaluating the epidemiological data found in mortality and morbidity studies?
2. If the answer to question 1 is yes, then
 - a) What type of correction factor should typically be employed to address this potential source of bias?
 - b) Are there any sorts of mortality or morbidity outcomes (e.g., cancer) in respect of which this correction factor should not apply?

These questions were addressed in a report by the IDSP, submitted to the WCB on June 21, 1988. In accordance with Section 86p(11) of the Workers' Compensation Act, the WCB published a notice in The Ontario Gazette on August 20, 1988 setting forth the nature of the findings of the IDSP and calling for comments, briefs, and submissions. The deadline for submissions was extended to December 15, 1988.

In addition to requesting submissions through The Ontario Gazette, the WCB distributed the IDSP Report on the HWE to a number of experts in the field of epidemiology. These experts were asked for their comments. The WCB also asked those individuals who had originally contributed to the IDSP report to comment on the Panel's final recommendations.

As of December 15, 1988, seven submissions were received by the WCB. Four submissions were received from contributors to the IDSP Report. One submission was from Ontario Hydro, one from the Ontario Mining Association, and one from Dr. Harvey Risch, Assistant Professor of Epidemiology in the Epidemiology Unit of the National Cancer Institute of Canada.

The purpose of this paper is to review the IDSP's report and the submissions received by the WCB so that recommendations can be made on a Board response.

Because it is integral to the understanding of the HWE, this report begins with an explanation of the standardized mortality ratio (SMR). It goes on to describe the IDSP report and presents a summary of the submissions to the WCB. Part V is the WCB Analysis of the IDSP Report.

II. EXPLANATION OF THE SMR

Most occupational epidemiology studies are historical cohort in design. That is, they identify a specific cohort of workers from the past and determine the cohort's morbidity or mortality patterns over time. The statistic most often presented in these studies is the standardized mortality ratio (SMR) or the standardized morbidity ratio (SMbR).

In order to understand the HWE and the implications of some of the suggestions for minimizing the HWE, it is important to have an appreciation of the calculation of the SMR or SMbR. Since calculation procedures for both statistics are the same, the SMR will be discussed below as an illustration.

The SMR is a ratio. The numerator of the ratio consists of the number of deaths attributed to a particular cause (e.g., lung cancer) which was observed in the cohort of interest over a period of time. The denominator of the ratio is the number of deaths that would have been expected in an equivalently aged group of individuals in the general population over the same period of time.

The calculation of expected number of deaths involves computing the person-years-at-risk of study subjects in each age and year interval (usually five year intervals) (see Table). The expected number of deaths (C) from each cause is computed by multiplying the person-years in the study group (A) by the cause-specific mortality rate for that age and year range (B) and then summing over all ages and years.

TABLE

STANDARDIZED MORTALITY RATIO (SMR) *

$\text{SMR} = 100 \times \Sigma \text{ observed} / \Sigma \text{ expected} = 100 (15) / 12.9 = 116 \text{ (E)}$			

*Monson, R.R., Occupational Epidemiology, CRC Press, Inc., Boca Raton, Florida, 1986, p. 85.

Normally, the provincial or national mortality rates are used for calculating expected numbers. Occasionally, local rates are used.

The total observed number of deaths (D) is then divided by the total expected number of deaths (C) to calculate a ratio of observed to expected. Normally, the ratio is multiplied by 100 to arrive at the SMR (E).

If the comparison group is less healthy than the occupational cohort under study (which is normally the case), the following will occur:

- The age-specific rate of disease in the general population will be higher than that in the occupational cohort.
- The expected number of deaths in the occupational cohort will also be high since these are derived from the age-specific rate of disease in the general population.
- The total expected number of deaths will be high.
- The ratio of observed to expected (the SMR) will be an underestimate of the association of interest because a high number of expected deaths in the denominator will reduce the SMR.

If the result of the HWE is an underestimate of the SMR, then it would be useful to know:

- the circumstances under which the HWE occurs
- how the HWE might be modified, reduced, or accounted for
- how a reported SMR should be interpreted

Each of these points is covered in the IDSP Report on the HWE.

III. SUMMARY OF IDSP REPORT

A. Methodology

After receiving a presentation on the HWE from Dr. Geoffrey Howe, Director of the Epidemiology Unit of the National Cancer Institute of Canada, the IDSP requested international experts in the field of epidemiology to provide short papers on the HWE. These experts were asked to include the following:

- examples of the presence of the HWE from their own studies
- methods they used to deal with the HWE
- knowledge they derived about the HWE
- conclusions which apply to the HWE, particularly with respect to cancer

The IDSP received ten papers on the HWE (one paper by Professor Robin Roberts of McMaster University was withdrawn). The nine papers (including the original presentation by Dr. Howe), make up the major portion of the IDSP Report on the HWE. Appendix 1 contains a list of the contributors to the IDSP Report and their affiliations.

The report also includes the Panel's findings, based on these reports, as well as four recommendations.

B. Discussion of the HWE

The following points were made by contributors to the IDSP Report:

- The HWE is a bias which produces an underestimation of the SMR.
- It occurs as a result of the incomparability of an occupational cohort to the general population (i.e., the general population, which contains employed and unemployed persons, is less healthy than the occupational cohort under study).
- The HWE is a result of a number of factors (e.g., selection by the employer to exclude those obviously at high risk of disease; selection to exclude those whose ill health makes the work unsatisfactory; self-selection by workers; beneficial effect of work; health benefits provided by employment).
- The greatest selection at time of employment is against those diseases which appear early in life (e.g., non-malignant diseases of the respiratory, digestive, endocrine and urinary systems). The least selection is against those diseases which do not manifest at time of employment (e.g., cancer).

- The HWE may also occur as a result of classification bias (differential ascertainment of mortality between the occupational cohort and the general population). This, however, would likely create an overestimation of the SMR.
- The HWE may also be due to confounding. The confounding factor is the health status of the group of workers.
- The HWE may vary according to a number of factors (e.g., type of disease, time, place, time since employment, sex, age, specific occupation, and socioeconomic status).
- There is more than one way to minimize or account for the HWE. Methods include improving the design of the study (e.g., by using an internal comparison group, by using a more comparable external comparison group, or by including in the study group all those who have left the workforce) or through the analysis (e.g., by excluding from the analysis some initial group of years or by subdividing the cohort according to latency).
- All but one contributor (Sterling) recommended against a uniform correction factor for the HWE.
- Although the HWE is operable when measuring relative risk, there is little evidence for the HWE in an absolute sense (i.e., when measuring attributable risk). Attributable risk can be determined by computing the observed minus the expected number of deaths and dividing by the number of person-years. Although the SMR (which is an estimate of the relative risk) is most often determined in occupational studies, it is becoming more widespread to calculate attributable risk in determining the magnitude of risk of cancer caused by exposure to radiation.
- Because cause-specific proportions are not independent, there is a tendency for proportionate mortality ratios (PMRs) for cancer to be greater than 100. This is a reflection of the HWE for circulatory and other non-malignant diseases. Several contributors recommended against the use of the PMR.

C. IDSP Recommendations

The IDSP made the following recommendations on the HWE:

1. The Workers' Compensation Board should take the healthy worker effect (HWE) into account in evaluating the epidemiological data found in mortality and morbidity studies.
2. Each epidemiological study, especially of the historical cohort type, should be assessed to determine if there is any evidence of the HWE in the form of a reduced (i.e. < 100%) standardized mortality ratio (SMR) for all causes mortality or for all cardiovascular diseases mortality; or correspondingly reduced standardized morbidity ratios (SMbR).
3. A correction factor should not be employed to address this potential source of bias since each study requires individual interpretation concerning the extent to which the HWE may have biased the point estimate of the standardized mortality or morbidity ratios for each condition of interest.
4. Where there is evidence of the presence of the HWE, and there is the possibility of excess mortality (or morbidity) from non-cardiovascular disease causes, the epidemiological estimates of mortality or morbidity should in general be derived after removing from the analysis the initial group of years from the time of first employment. The number of years of follow up to be so removed should be approximately equal to the average estimated duration in time from the earliest clinical manifestations of the disease to final outcome (based, for example, on the use of survival curves). For lung cancer, for example, it is suggested that the initial 5 years following first employment should be removed from the analysis.

The Panel also noted that all of the above recommendations should apply to the Panel in its own work.

IV. SUMMARY OF SUBMISSIONS TO WCB

Unsolicited submissions were received from Dr. T.D. Sterling, one of the contributors to the IDSP Report, Ontario Hydro, and the Ontario Mining Association. The WCB contacted all other contributors to the IDSP to ask for comments and received a response from Professors R. Doll, R. Monson, and P. Enterline.

Also responding to the WCB was Dr. Harvey A. Risch, Assistant Professor of the Epidemiology Unit of the National Cancer Institute of Canada.

The major points from each submission are noted below:

- A suppressed SMR for all causes is sufficient evidence of the HWE (Sterling).
- Recommendation 4 is a form of a correction factor (Sterling).
- Following Recommendation 4 would have the effect of reducing the strength of the study (Sterling).
- Strong weight should be given to studies which use an internal comparison group (Ontario Hydro, Risch).
- A little loss of power from using an internal comparison group is less important than the increase in bias from non-comparability (Risch).
- It is not clear whether the consideration of latency will also take into account the HWE (Ontario Hydro).
- Recommendation 3 is strongly endorsed (Ontario Hydro).
- Although Recommendation 4 is appropriate, there is a question as to how published data will be judged if it is presented with initial years removed (Ontario Hydro).
- The rationale for Recommendation 4 is not clear (Enterline).
- It was mentioned by five contributors that the HWE is minimal for cancer SMRs. However, this was not addressed in the IDSP recommendations (Ontario Hydro, Ontario Mining Association, Enterline).

V. WCB ANALYSIS OF IDSP REPORT

A. General Comments

The HWE occurs because a group of workers are hired on the basis of apparent good health (and other factors), while those with notable health deficiencies do not apply for or would be rejected for work. After a certain period of time, diseases that were not notable at time of hire would begin to show up in the working population as well as in the general population. To add to the situation, working people probably have better health benefits and health care, as well as, perhaps, an outlook on lifestyle that promotes good health.

The term "healthy worker effect" may not be entirely accurate. Although selection factors may prove favourable to an occupational cohort (thereby reducing the SMR), there are also selection biases which might prove unfavourable (e.g., mesomorphs in the fire and police service; type A personalities in sales and business).

B. Recommendations for Minimizing the HWE

Contributors to the IDSP report have recommended a number of ways to minimize or account for the HWE. These recommendations are listed in Appendix 2 and are discussed below. Also presented are the recommendations of the IDSP and those who made submissions to the WCB on the HWE report.

The HWE can be minimized either through the design of the study or through the analysis. No one method is always feasible or perfect. In addition, Sterling recommends a correction factor which could be used by the reader once the study is completed.

1. Design

The HWE is a function of non-comparability between the study cohort and the comparison group. If a more appropriate comparison group could be found, then the HWE could be minimized, or perhaps eliminated.

A number of contributors have recommended the use of an internal comparison group. This would reduce the selection differences between the occupation (exposure) of interest and the comparison groups (unless there is selection bias for the occupation of interest). As noted by a number of contributors, a disadvantage to this option is that the power of the study would be reduced because the numbers in each group would be small.

It has also been suggested that the HWE would be reduced if those who leave the workforce before retirement are included in the cohort and if those with short working histories are also included. Individuals in each of these groups tend to have poorer health, and, therefore, their exclusion would inaccurately reduce the SMR.

Nicholson has also recommended that nested case-control studies be conducted within historical cohort studies to shed further light on the relationship between an occupational exposure and a disease.

2. Analysis

A number of contributors have recommended removing from the analysis an initial group of years from time of first employment. The IDSP recommends basing the number of years on survival of the disease in question in order to eliminate those diseases which have begun to develop but may not be manifest. Other contributors have chosen an arbitrary number of years (usually five) to ensure that the HWE which resulted from selection bias has worn off.

Whichever method is chosen to decide upon the number of years of removal from the analysis, the effect will be the same:

- The total number of person years at risk will be reduced.
- The total expected number of deaths (which is based on the total number of person years at risk) will be reduced.

- The observed number of deaths in the numerator will also be reduced.
- The magnitude of the SMR will not change substantially. However, with smaller numbers, the power to detect a statistically significant SMR would be reduced.

The HWE can be accounted for (i.e., identified, to some extent) by subdividing data according to latency (number of years between first exposure and identification of disease or death). An SMR within each latency group is calculated and reported. An example of this approach is shown in Appendix 3.

In Appendix 3, the investigator has analyzed data by both latency (years since entering follow-up) and cause of death. The latency has been subdivided into five-year groups. It can be seen that the ratio (observed to expected) increases as the number of years since entering follow-up increases. After ten years or more (depending upon the cause of death) the ratio begins to plateau.

The table in Appendix 3 is an excellent demonstration of the presentation of data to identify the HWE. In addition, it is clear that the extent of the HWE is different for different diseases.

This method of analysis demonstrates the HWE to the reader, accounts for latency, while at the same time, accounts for the concern that some cancers may have begun to develop prior to the beginning of entry into the study.

Mathematically, this method utilizes all person years in the calculation of expected number of deaths. However, the subdivision into several groups according to latency creates small numbers and ultimately reduces power within each latency group.

3. After-the-fact Correction Factor

According to Sterling, the HWE is a phenomenon of confounding rather than of selection bias. Consequently, it is possible to correct for the HWE by estimating the overall confounding effect in the industrial cohort with respect to the generalized population. He proposes that the SMR of interest (e.g., lung cancer) be divided by a comparable SMR that

is less affected by the occupational exposure in question.

Sterling's method is pleasing because it provides the WCB with a method for dealing with a study once it is complete. Since the WCB is often in the position of interpreting studies rather than suggesting changes to design and analytical methodology, the concept has pragmatic appeal.

However, this method may also be misleading. It provides a general approach to correcting for the HWE but does not focus on the individual characteristics of the study or the study population. In addition, it does not take into account the primary cause of the HWE bias (i.e., likelihood of hiring individuals who are healthier than those in the general population).

Finally, because the SMR depends on the age structure of the study population (Rothman, K. Modern Epidemiology, Little, Brown and Co., Toronto, 1986), dividing the lung cancer SMR (which is dependent on one age structure) by the cardiovascular SMR (which is dependent on another age structure) may further bias the final result.

C. Implications of IDSP Recommendations

In order to make decisions on occupational disease claims, it is necessary to determine whether there is a causal relationship between an occupational exposure and a disease outcome. The disease-specific SMR, which is calculated in historical cohort studies, is an integral part of the equation for assessing a causal relationship.

The questions for anyone who is trying to interpret the SMR are:

- Is the SMR correct?
- If not, is it an underestimate (or overestimate) of relative mortality?
- If so, by how much and in what direction?
- Is the HWE (or other bias) at play?
- What could be done to minimize, eliminate, or account for the HWE (or other biases)?

The WCB cannot usually influence a researcher's design or analysis of the data. However, whether or not the researcher attempts to account for the HWE and other biases will affect how much weight the Board puts on the conclusions of that study. In turn, how seriously the study is taken will affect conclusions about causal associations between occupational exposure and disease and will also affect decisions on claims.

D. Conclusions

The IDSP report on the HWE has been useful in providing an understanding of the HWE. The individual papers, taken together, provide an excellent discussion of the definition of the HWE, the components, modifiers, and effect of the HWE. Examples were provided on when the HWE might have less of an impact on the association of interest in an epidemiological study (e.g., in the case of cancer). In addition, useful suggestions were provided on how to minimize and/or account for the HWE in the analysis and design of historical cohort studies.

All of the methods for minimizing or accounting for the HWE have their limitations. It is not always feasible to use an internal comparison group in an historical cohort study, and this analytical method reduces power. Power is also reduced by eliminating the initial years of exposure, and through analysis by latency. However, loss of power may be more desirable than further increasing bias by using a single correction factor.

Finally, it should be emphasized that the HWE is not the only serious potential bias in historical cohort studies. It is just as important to be wary of other biases as it is to account for the HWE.

CONTRIBUTOR	RECOMMENDATION
Axelson	<p>Use a proper comparison group.</p> <p>Allow for an adequately long latency period.</p> <p>Analyze data comparing observed and expected cases in various periods of time since first exposure (latency) in cancer studies.</p>
Doll	<p>Exclude the first five years' observations after recruitment to the study.</p>
Enterline	<p>No adjustment necessary for cancer.</p>
Howe	<p>A single correction factor would be misleading.</p> <p>Use an appropriate internal comparison group.</p> <p>Present results compared to general population rates, especially when relative risks are high, if an internal comparison group is not available.</p> <p>The HWE is unlikely to have a substantial influence upon the assessment of the causality of an association.</p>
McMichael	<p>Use an ideal external reference population which comprises all other actively employed person.</p> <p>Restrict the analysis of the health experience of the working population to that occurring after some minimum specified time since commencement of employment (e.g., five years).</p> <p>Trace and include those individuals who leave the workforce before retirement.</p>

RECOMMENDATIONS FOR
MINIMIZING THE HWE (cont'd)

CONTRIBUTOR	RECOMMENDATION
McMichael (cont'd)	<p>Examine the variation in health outcome rate across a gradient of increasing exposure within the workforce.</p> <p>The HWE is unlikely in cancer studies.</p> <p>Use an internal comparison group.</p> <p>It is not appropriate to apply a standard correction factor.</p>
Miettinen	<p>Improve epidemiologic design of studies.</p> <p>Use a comparison group which consists of workers in other occupations.</p>
Monson	<p>Do not use proportionate mortality.</p> <p>In cases of cancer, in general the HWE can be ignored in analyses that use mortality rates (SMRs).</p> <p>A single parameter is not sufficient to control the HWE.</p> <p>The HWE is unlikely to have any substantial influence upon the assessment of the causality of an association.</p> <p>The use of an external population may increase the power relative to using an internal control group.</p>
Nicholson	<p>Use internal and external controls and general population rates.</p> <p>Exclude individuals employed for short periods of time.</p> <p>Develop dose-response relationships.</p> <p>Conduct nested case-control studies.</p>

RECOMMENDATIONS FOR
MINIMIZING THE HWE (cont'd)

CONTRIBUTOR	RECOMMENDATION
Sterling	Divide the SMR of interest by a comparable SMR that is less affected by the occupational exposure in question. Test for dose-response relationships. Use the PMR, but with caution.
Ontario Mining Assoc. (submission)	Employers' hiring practices should be considered in studies.
Risch (submission)	Internal rate comparisons should be given more weight than external ones. Studies based on PMR should never be relied upon.
IDSP (Rec. 4)	Where there is evidence of the presence of the HWE, and there is the possibility of excess mortality (or morbidity) from non-cardio-vascular disease causes, the epidemiological estimates of mortality or morbidity should in general be derived after removing from the analysis the initial group of years from the time of first employment. The number of years of follow up to be so removed should be approximately equal to the average estimated duration in time from the earliest clinical manifestations of the disease to final outcome (based, for example, on the use of survival curves). For lung cancer, for example, it is suggested that the initial five years following first employment should be removed from the analysis.

REGULATION TO AMEND REGULATION 371 OF REVISED REGULATIONS OF ONTARIO, 1980 MADE UNDER THE FARM PRODUCTS MARKETING ACT

1.—(1) Section 1 of Regulation 371 of Revised Regulations of Ontario, 1980 is amended by relettering clause (a) as (aa) and by adding thereto the following clause:

(a) "Fund" means the Fund for Producers of Potatoes established under the *Farm Products Payments Act*;

(2) Clauses 1 (c) and (d) of the said Regulation are revoked and the following substituted therefor:

(c) "potatoes" means potatoes produced in Ontario and used or intended to be used for processing;

(d) "processing" means,

(i) canning, dehydrating, chipping, drying, freezing or peeling,

(ii) adding a substance or heat,

(iii) combining or mixing with another vegetable, or

(iv) entering into a contract for the purchase of potatoes;

2. Section 3 of the said Regulation is amended by adding thereto the following subsection:

(2) A processor is exempt from section 4 in respect of potatoes processed on the processor's premises and sold directly to the consumer from those premises. O. Reg. 272/89, s. 2.

3. The said Regulation is amended by adding thereto the following section:

4a. A licence is issued on the condition that the licensee,

- (a) where any payment is made from the Fund to a producer under the *Farm Products Payments Act* and the regulations thereunder, complies with the provisions of those regulations regarding repayment; and
- (b) complies with the provisions of the regulations under the *Farm Products Payments Act* respecting,
 - (i) the payment of fees to the board constituted to administer the Fund, and
 - (ii) the collection of fees and forwarding them to The Ontario Potato Growers' Marketing Board. O. Reg. 272/89, s. 3.

4. The said Regulation is further amended by striking out "Commission" where it occurs in sections 4 to 5d and inserting in lieu thereof in each instance "Director".

**REGULATION TO AMEND
ONTARIO REGULATION 528/87
MADE UNDER THE
FARM PRODUCTS PAYMENTS
ACT**

1.—(1) The definition of "Director" in section 1 of Ontario Regulation 528/87 is revoked and the following substituted therefor:

"Director" means the Director appointed under the *Farm Products Marketing Act*;

(2) The definition of "licence" in the said section 1 is revoked and the following substituted therefor:

"licence" means a licence under the *Farm Products Marketing Act* and "licensed" has a corresponding meaning;

2. Subsection 5 (6) of the said Regulation is revoked and the following substituted therefor:

(6) Every dealer shall keep for at least two years a record showing, in respect of all potatoes purchased or sold, as the case may be,

- (a) the names and addresses of the buyers and sellers;
- (b) the date of each purchase or sale;
- (c) the purchase or sale price;
- (d) the fees deducted; and
- (e) a description of the potatoes. O. Reg. 273/89, s. 2.

3. The said Regulation is amended by adding thereto the following section:

5a. Payment for potatoes shall be made in accordance with the agreement or award or renegotiated agreement or award declared to be in force by the Farm Products Marketing Commission under the *Farm Products Marketing Act*. O. Reg. 273/89, s. 3.

4. Clause 6 (b) of the said Regulation is revoked and the following substituted therefor:

- (b) a producer has not received payment for potatoes in accordance with section 5a; or

5. Clause 13 (1) (d) of the said Regulation is revoked and the following substituted therefor:

- (d) where the producer has made an agreement with the dealer whereby the time when payment shall be made under section 5a is extended; or

6. The said Regulation is further amended by adding thereto the following section:

16.—(1) On or before the 30th day of November in each year, every dealer shall,

(a) furnish to the Director proof of financial responsibility satisfactory to the Director; or

(b) deposit with the Director security in a form and in an amount that relates to the price of potatoes to be purchased by the dealer during the next year, as determined by the Director.

(2) The security described in clause (1) (b) shall not exceed the purchase price of potatoes to be purchased by the dealer during the next year.

(3) Security deposited under subsection (1) shall be applied only in respect of claims of a producer who sells potatoes to a dealer and in respect of which payments have been made under the Act and this Regulation.

(4) Where the Director receives notice under the Act or this Regulation that a payment has been made to a producer who has sold potatoes to a dealer who has deposited security under subsection (1), the Director may realize upon the security or such part thereof as the Director considers necessary.

(5) A dealer whose security has been realized upon under this section shall deposit such additional security with the Director as is necessary to maintain the security at the amount established under subsection (1).

(6) Where the Director realizes upon a security under subsection (4), the Director shall,

(a) pay the proceeds, or so much of the proceeds as is necessary to reimburse the Fund for the amount paid to the producer, into the Fund; and

(b) where the dealer whose security has been realized upon has complied with subsection (5), pay the balance, if any, of the proceeds to the dealer. O. Reg. 273/89, s. 6.

REGULATION TO AMEND ONTARIO REGULATION 250/87 MADE UNDER THE MILK ACT

1. The definition of "Commission" in section 1 of Ontario Regulation 250/87 is revoked.

2. Subsection 46 (1) of the said Regulation is amended by striking out "or" at the end of clause (b) and inserting in lieu thereof "and".

3. Section 98 of the said Regulation is revoked and the following substituted therefor:

98. No person shall operate a plant except in accordance with a licence from the Director. O. Reg. 275/89, s. 3.

4. The said Regulation is amended by adding thereto the following sections:

100a. Subject to section 104, the Director may impose such conditions upon a licence as the Director considers proper. O. Reg. 275/89, s. 4, *part*.

100b. Where, after a hearing, the Director has determined that a licensee or former licensee has contravened any condition of a licence or any provision of the Act, the regulations, a plan or any order or direction of the Commission, the Director may impose a penalty on the person. O. Reg. 275/89, s. 4, *part*.

100c.—(1) The Director may require that a person engaged in the operation of a plant furnish a performance bond in an amount that does not exceed 10 per cent of the price payable to the milk marketing board

and producers for milk and cream processed during the immediately preceding twelve months in the plant.

(2) The Director may determine that a performance bond is forfeited where, after a hearing, the Director has determined that the plant operator who obtained the bond has contravened any condition of a licence or a provision of the Act, the regulations, a plan or an order or direction of the Commission. O. Reg. 275/89, s. 4, *part*.

113a. Subject to section 114, the Director may impose such conditions upon a licence as the Director considers proper. O. Reg. 275/89, s. 4, *part*.

113b. Where, after a hearing, the Director has determined that a licensee or former licensee has contravened any condition of a licence or a provision of the Act, the regulations, a plan or an order or direction of the Commission, the Director may impose a penalty on the person. O. Reg. 275/89, s. 4, *part*.

113c.—(1) The Director may require that a distributor furnish a performance bond in an amount that does not exceed 10 per cent of the price payable to the marketing board and producers for milk and cream marketed during the immediately preceding twelve months by the distributor.

(2) The Director may determine that a performance bond is forfeited where, after a hearing, the Director has determined that the distributor who obtained the bond has contravened any condition of a licence or any provision of the Act, the regulations, a plan or any order or direction of the Commission. O. Reg. 275/89, s. 4, *part*.

113d. The proceeds of a penalty imposed under section 100b or 113b or of a performance bond forfeited under subsection 100c (2) or 113c (2) shall be paid to the Treasurer of Ontario. O. Reg. 275/89, s. 4, *part*.

113e.—(1) The penalty imposed by the Director for,

- (a) a first offence shall not exceed 2 per cent;
- (b) a second offence shall not exceed 5 per cent; and
- (c) a third or subsequent offence shall not exceed 10 per cent,

of the price payable to the producers for the regulated product marketed or processed during the immediately preceding twelve-month period by the person being penalized.

(2) Within the range set out in subsection (1), the Director shall consider a contravention that,

- (a) harms or has the potential to harm the health of any person;
- (b) endangers the safety of any person; or
- (c) results in a significant economic benefit to the contravenor,

as warranting a penalty at or near the maximum set out and the seriousness of the harm, danger or benefit, as the case may be, shall be a factor to be considered.

(3) If a contravention that was caused by wilful neglect by the person penalized causes harm to the health of any person, the penalty imposed may be the maximum provided in the Act despite subsection (1).

(4) If a contravention is of an administrative nature that does not have the potential to cause harm to the health of any person, the penalty shall not be the maximum set out in subsection (1). O. Reg. 275/89, s. 4, *part*.

5. Section 118 of the said Regulation is amended by striking out "A processor" in the first line and inserting in lieu thereof "An operator of a plant".

6. Section 119 of the said Regulation is amended by striking out "A processor" in the first line and inserting in lieu thereof "An operator of a plant".

Exemption—Ministry of Government
Services—MGS-98.

Made—April 21st, 1989.

Approved—April 21st, 1989.

Filed—May 19th, 1989.

ORDER MADE UNDER THE
ENVIRONMENTAL ASSESSMENT ACTEXEMPTION—MINISTRY OF GOVERNMENT
SERVICES—MGS-98

Having received a request from the Ministry of Government Services that an undertaking, namely:

The activities involved in the implementation of a Public Health Laboratory and Ambulance Centre Complex at a site which is legally referred to as Parts of Lots A and I, Concession 5 (Rideau Front), (formerly Township of Gloucester), now in the City of Ottawa, The Regional Municipality of Ottawa-Carleton,

be exempt from the application of the Act pursuant to section 29; and

Having been advised by the Ministry of Government Services that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The Crown will be interfered with and damaged by the undue delay and expense required to prepare an environmental assessment for an activity for which adverse environmental impacts have not been identified; and
- B. The public and the Ministry of Health will be interfered with and damaged in that the levels of efficiency and service are diminished by the inadequacies of the existing facilities.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reason:

- A. The proposed undertaking is not expected to have significant adverse effects on the environment.

This exemption is subject to the following terms and conditions:

1. Where any activity which otherwise would be exempt under this order is being carried out as or is part of an undertaking for which an environmental assessment has been accepted and approval to proceed received, the activity shall be carried out in accordance with any terms or conditions in the approval to proceed as well as the conditions of this order.
2. Where any activity which is the subject of this order is being carried out as or is part of another undertaking which is the subject of an exemption order under the Act, the activity exempt under this order shall be carried out in accordance with any terms or conditions in the other exemption order as well as the conditions in this order.
3. This order shall expire if construction has not commenced by December 31, 1991.

MOTOR VEHICLE TRANSPORT ACT, 1987

MOTOR VEHICLE TRANSPORT ACT, 1987, PART II TRUCK APPLICATIONS:

The following are applications for extra-provincial truck transport operating licences under Part II of the Motor Vehicle Transport Act, 1987, S.C. 1987, Chapter 35. These Applicants have been found to meet the fitness requirements pursuant to Section 8(2) of that Act and the provincial transport board for Ontario proposes to issue the licences if no objection is served on the Applicant and filed with the Registrar of Motor Vehicles within twenty-nine days of this publication.

EXTRA-PROVINCIAL APPLICATIONS:

NOTE: Where the application is for a licence other than a corridor operating authority, an interested person who serves and files an objection must also provide the Ontario Highway Transport Board with written evidence, within thirty-nine days of this publication that satisfies that Board that, in the absence of evidence to the contrary, the

operation of the undertaking in respect of which the licence is sought would likely be detrimental to the public interest.

* Indicates a person who has applied for licences under both Part II and Part III of the Motor Vehicle Transport Act, 1987.

MOTOR VEHICLE TRANSPORT ACT, 1987

INTRA-PROVINCIAL TRUCK APPLICATIONS:

The following are applications for operating licences under Part III of the Motor Vehicle Transport Act, 1987, S.C. 1987, Chapter 35. These applicants have been found to meet the fitness requirement in like manner to section 6 of the Truck Transportation Act, 1988, S.O. 1988, Chapter 64, and the provincial transport board for Ontario proposes to issue the licences unless a person, within thirty days of this publication, serves on the Applicant and files with the Registrar of Motor Vehicles a written request for a fitness hearing or a public interest test in like manner to Sub-

section 7(4) of the Truck Transportation Act, 1988, S.O. 1988, Chapter 64.

NOTE: A person who requests a public interest hearing must, within thirty-nine days of this publication, serve on the Ontario Highway Transport Board a document that makes out a written case to the Board that the granting of the operating authority applied for would be likely to have a significant detrimental effect on the public interest using the criteria set out in subsection 10(1) of the Truck Transportation Act, 1988, S.O. 1988, Chapter 64, and that the request is not frivolously made.

* Indicates a person who has applied for licences under both Part II and Part III of the Motor Vehicle Transport Act, 1987.

PUBLIC NOTICE

THE MOTOR VEHICLE TRANSPORT ACT, 1987, PART II TRUCK APPLICATIONS

The Applicants listed herein have applied for licences to operate an extra-provincial truck undertaking under Part II of the Motor Vehicle Transport Act, 1987. The Applications were published in the Ontario Gazettes of **August 8, October 1, December 17, December 31, 1988, January 7, January 28, February 11, February 18, February 25 and March 18, 1989.**

Notices of Objection and written evidence were filed on these applications, within the time prescribed, by interested persons. The Ontario Highway Transport Board has considered the evidence filed and is satisfied that in the absence of evidence to the contrary the operation of the extra-provincial truck undertaking in respect of which the licences are sought would likely be detrimental to the public interest. Any other interested persons who may wish to make representations or wish to file an objection and written evidence shall do so at **least fifteen (15) days before the date set for hearing.**

TAKE NOTICE that if any person who is a party to these proceedings does not attend at the hearing, the Board may proceed in his or her absence and such person is not entitled to any further notice in the proceedings.

Accordingly, the Board has directed that public hearings be held at the Board's Chambers, Britannica House, 151 Bloor Street West, 10th Floor, Toronto, Ontario as indicated hereunder:

For further information with respect to these hearings, members of the public are advised to contact the Secretary of the Board.

Guidelines for Chief Financial Officers

LEADERSHIP CONTESTANT - USE OF CONTESTANT'S OWN FUNDS

- .01 Any monies to be used for a leadership contest by a leadership contestant out of that leadership contestant's own funds are deemed to be a contribution to that leadership contestant.

section 15(1)

- .02 A leadership contestant cannot accept contributions unless that leadership contestant is registered with the Commission. The earliest that the leadership contestant can become registered with the Commission is the day the registered political party files with the Commission a statement setting forth the date of the official call of the leadership convention.

sections 15(1) and 15(4)

- .03 As with all other contributions, any monies which a leadership contestant contributes to that leadership contestant's own leadership contest must be deposited with the named bank, trust company, or other financial institution on record with the Commission.

If the leadership contestant makes contributions of goods and services, a statement of such contributions must be provided to the chief financial officer and an official receipt must be issued for the fair market value of those goods and services.

section 19(3)

- .04 There may be situations where a potential leadership contestant must determine if success in a leadership contest may be financially or politically feasible. Notwithstanding the restriction in paragraph .02, the Commission has determined that certain expenses, detailed in paragraph .05, may be incurred prior to the commencement of a leadership contest, provided however, that those expenses are paid for entirely out of the leadership contestant's own funds or by borrowing as specified in paragraph .06, and eventually reported to the Commission in the Statement of Income and Expenses described in Guideline G16. The corresponding contribution from the leadership contestant's own funds must also be subsequently reported in determining the final surplus or deficit of that leadership contestant.

**Guidelines for
Chief Financial Officers****.05**

Provided that no portion of the following expenditures was incurred for the purpose of soliciting support for a potential or registered leadership contestant or of opposing any other potential or registered leadership contestant, these expenses may be incurred by a potential leadership contestant prior to registration with the Commission or by a registered leadership contestant:

- (a) auditor's and accounting fees,
- (b) interest on loans authorized under section 36, and,
- (c) costs associated with research and polling.

The only permitted expenditures prior to the date of the official call for a leadership convention are those detailed above. The only contributions permitted prior to that date are those from the potential leadership contestant's own funds.

section 4(1)(j)

.06

A potential leadership contestant or registered leadership contestant may borrow from any chartered bank or other lending institution in Ontario, provided that all such loans and the terms thereof, including the name of any guarantor thereof are recorded by the potential leadership contestant or registered leadership contestant and reported to the Commission in the Statement of Income and Expenses described in Guideline G16. Loans made prior to the date of registration by the potential leadership contestant with the Commission may only be guaranteed by that potential leadership contestant.

Sheriffs' Sales of Lands

UNDER AND BY VIRTUE OF a Writ of Fieri Facias issued out of the County Court of the County of Essex in which National Bank of Canada is the Plaintiff and Stanley Young is the Defendant and to me directed against the goods and chattels and lands and tenements of the said Stanley Young, I have seized and taken in execution all the right, title and interest of the said Stanley Young in and to the following property.

All and singular that certain parcel or tract of land and premises situate lying and being in the Township of Anderdon in the County of Essex and the Province of Ontario, being composed of part of

Farm Lot 23, in the First Concession of the said Township containing by admeasurement 8 acres, more or less, and which said parcel is more particularly described as follows:

Bearings are referred to the Eastern limit of Front Road, (The King's Highway No. 18) as widened, shown as North 28 degrees 08 minutes 30 seconds East, according to Instrument No. 340029;

Commencing at an Iron Bar found in the Eastern limit of said Front Road, as widened, at a distance of 122.88 feet, measured Southerly along said Easterly limit from a Standard Iron Bar found marking the limit between the north half and the south half of said Farm Lot 23;

Thence South 28 degrees, 08 minutes, 30 seconds West, following the Eastern limit of said Front Road, as widened, 121.86 feet to an Iron Bar found;

Thence South 86 degrees, 46 minutes, 20 seconds East, 3,167.46 feet to a point;

Thence North 28 degrees, 08 minutes, 30 seconds East, parallel with the said Eastern limit of Front Road, as widened, 120.76 feet to a point;

Thence North 86 degrees, 45 minutes, 15 seconds West, 3,167 feet more or less, to the Place of Commencement.

The property is said to be located at Front Road North, Edgewater Beach, RR #4, Amherstburg, Ontario.

All of which said right, title, interest and equity of redemption of the said Stanley Young in the said lands and tenements I will offer for sale by public auction at my office in the Court House, 245 Windsor Avenue, Windsor, Ontario on Monday, the 10th day of July, 1989 at 11.00 a.m.

TERMS: Cash or certified cheque.

Deposit 10% of bid price at time of sale.

10 days to arrange financing.

Delivery only on payment in full.

This sale is subject to cancellation up to time of sale without any further notice.

No employee of the Ministry of the Attorney General may purchase any goods or chattels, lands or tenements exposed by a Sheriff for sale under legal process, either directly or indirectly.

Dated at the City of Windsor, this 25th day of May, 1989.

(d) the 1st day of July for all other specialty crops.

2.—(1) Paragraph 5 of Form 1 of the said Regulation is revoked and the following substituted therefor:

5.—(1) If before harvest any part of the insured crop is lost or damaged, the Commission, upon application therefor in writing by the insured person, may consent in writing to,

(a) the replanting of the damaged acreage to the insured crop and, in such case, the replanting shall be completed in accordance with and not later than the dates prescribed by section 17 of the Schedule;

(b) the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential thereof.

(2) Where the damaged acreage is replanted to the insured crop in accordance with clause (1) (a), the contract of insurance continues to apply to such replanted acreage and,

(a) a benefit for each acre of celery, lettuce, parsnips, strawberries and sweet corn shall be paid in accordance with the benefit per acre set out in the Table; and

- (b) a benefit for broccoli, cabbage, cauliflower and tomatoes shall be paid equal to the actual cost of the plants or seeds that are used in the replanting but not exceeding the amount noted in the Table.
- (3) Where the damaged acreage is used for any other purpose or the insured crop is abandoned or destroyed in accordance with clause (1) (b), the contract of insurance ceases to apply to the acreage and,
- (a) a benefit for each acre of celery, lettuce, parsnips, strawberries and sweet corn abandoned or destroyed shall be paid in accordance with the Table; and
- (b) a benefit for broccoli, cabbage, cauliflower and tomatoes shall be paid in an amount equal to the actual cost of the plants or seeds used in the original planting but not exceeding the amount noted in the Table.
- (4) If the damaged acreage is not used for any other purpose or the crop is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph (3) shall not be taken into account in the final adjustment of loss.
- (5) Acreage planted to an insured crop shall not be put to another use and the insured crop shall not be abandoned or destroyed until the Commission has appraised the potential of the acreage.
- (2) The Table to the said Form 1, as remade by section 2 of Ontario Regulation 278/88, is revoked and the following substituted therefor:

REGULATION TO AMEND
REGULATION 228 OF
REVISED REGULATIONS
OF ONTARIO, 1980
MADE UNDER THE
CROP INSURANCE ACT (ONTARIO)

1.—(1) Section 10 of the Schedule to Regulation 228 of Revised Regulations of Ontario, 1980, as remade by section 2 of Ontario Regulation 139/84, is revoked and the following substituted therefor:

10. For the purposes of this plan, the established price per hundredweight for white beans is,

- (a) \$14; or
- (b) \$20.

(2) Subsection 13 (1) of the said Schedule, as remade by section 2 of Ontario Regulation 324/87, is revoked and the following substituted therefor:

- (1) The total premium is,
- (a) \$25.20 per acre where the established price is \$14 per hundredweight; and
- (b) \$36 per acre where the established price is \$20 per hundredweight.

2. The Table to the said Regulation, as remade by section 2 of Ontario Regulation 305/81 and amended by section 4 of Ontario Regulation 301/85 and sec-

tion 4 of Ontario Regulation 324/87, is further amended by adding thereto the following item:

8. Red Spring Wheat.

3.—(1) Subparagraph 2 (1) of Form 2 of the said Regulation, as remade by section 2 of Ontario Regulation 189/88, is revoked and the following substituted therefor:

(1) An indemnity shall be paid for the acreage set out in subparagraph (1a) in the amount set out in subparagraph (1b), where,

- (a) all of the acres planted to the crops listed in the Table to Regulation 228 of Revised Regulations of Ontario, 1980 are offered for insurance;
- (b) the insured person elects the indemnity on the application for insurance;
- (c) the insured person pays a premium deposit of \$1.00 of each acre intended to be planted to the crops listed in the Table;
- (d) one or more of the designated perils prevents the planting,
 - (i) of three acres or more, in the case of systematically tile drained land, or
 - (ii) of six acres or more, in the case of land that is not systematically tile drained; and
- (e) the insured person notifies the Commission of his or her inability to plant the acres to the crops listed in the Table by the 15th day of June in the crop year.

(2) Subparagraphs 2 (1b) and (1c) of the said Form 2, as made by section 2 of Ontario Regulation 189/88, are revoked and the following substituted therefor:

(1b) The amount of the indemnity shall be one-third of the guaranteed production per acre of the crop with the highest priority as set out in the Table of the crops intended to be planted and insured by the insured person multiplied by the established price for that crop.

Crop Insurance Plan—Spring Grain.

Made—March 23rd, 1989.

Approved—May 19th, 1989.

Filed—May 24th, 1989.

**REGULATION TO AMEND
REGULATION 223 OF
REVISED REGULATIONS
OF ONTARIO, 1980
MADE UNDER THE
CROP INSURANCE ACT (ONTARIO)**

1.—(1) Subsection 12 (1) of the Schedule to Regulation 223 of Revised Regulations of Ontario, 1980, as remade by section 2 of Ontario Regulation 140/84 and amended by section 2 of Ontario Regulation 325/87, is revoked and the following substituted therefor:

(1) For the purposes of this plan, the established price for spring grain is,

- (a) \$.03 per pound;
- (b) \$.05 per pound; or
- (c) the greater of \$.04 per pound and the floating price per pound for spring grain, as determined under subsection (1a).

(1a) To obtain the floating price per pound for spring grain, the Commission shall,

- (a) calculate the floating price of barley, oats and mixed grain by averaging the daily prices of barley, oats and mixed grain at the Ontario locations of Hensall/Mitchell, Peterborough/Trenton and Embrun/St. Isidore as set out in the Farm Market News, during the period of August 10th to August 31st in each crop year; and
- (b) reduce the amount calculated under clause (a) by trucking costs in the amount of \$.004 per pound of spring grain.

(2) Subsection 13 (1) of the said Schedule, as remade by section 1 of Ontario Regulation 277/88, is revoked and the following substituted therefor:

(1) The total premium is,

- (a) \$.640 per acre where the established price is \$.03 per pound;

- (b) \$10.80 per acre where the established price is \$0.05 per pound; or
- (c) \$12.60 per acre where the established price is the floating price per pound.

2. The Table to the said Regulation, as remade by section 4 of Ontario Regulation 306/81 and amended by section 4 of Ontario Regulation 302/85 and section 6 of Ontario Regulation 325/87, is further amended by adding thereto the following item:

8. Red spring wheat.

3. Subparagraph 3 (1), as remade by section 2 of Ontario Regulation 277/88, and subparagraphs 3 (1a), (1b), (1c) and (1d), as made by section 2 of Ontario Regulation 277/88, of Form 2 of the said Regulation are revoked and the following substituted therefor:

(1) An indemnity shall be paid for the acreage set out in subparagraph (1a) in the amount set out in subparagraph (1b), if,

- (a) all of the acres planted to the crops listed in the Table to Regulation 223 of Revised Regulations of Ontario, 1980 are offered for insurance;
- (b) the insured person elects the indemnity on the application;
- (c) the insured person pays a premium deposit of \$1 for each acre intended to be planted to the crops listed in the Table;
- (d) one or more of the designated perils prevents the planting,
 - (i) of three acres or more, in the case of systematically tile drained land, or
 - (ii) of six acres or more, in the case of land that is not systematically tile drained; and
- (e) the insured person notifies the Commission of his or her inability to plant the acres to the crops listed in the Table by the 15th day of June in the crop year.

(1a) The indemnity shall be paid,

- (a) for each unplanted acre, in the case of systematically tile drained land; or
- (b) for each unplanted acre in excess of three unplanted acres, in the case of land that is not systematically tile drained.

(1b) The amount of the indemnity shall be one-third of the guaranteed production per acre of the crop with the highest priority in the Table of the crops intended to be planted and insured by the insured person multiplied by the established price for that crop.

(1c) If the insured person has elected the floating price as the established price, the established price prescribed by clause 12 (1) (b) of the Schedule shall be used in lieu of the floating price for the purposes of the calculation in subparagraph (1b).

(1d) No indemnity shall be payable under this paragraph for land for which the same indemnity was paid by the Commission in the immediately preceding year.

REGULATION 211 OF
REVISED REGULATIONS
OF ONTARIO, 1980
MADE UNDER THE
CROP INSURANCE ACT (ONTARIO)**

1. Regulation 211 of Revised Regulations of Ontario, 1980 is amended by striking out "hay" wherever it occurs and inserting in lieu thereof in each instance "forage".

- 2.—(1) Section 3 of the Schedule to the said Regulation is revoked and the following substituted therefor:

3. In this plan,

- (a) "forage" means feed for live stock produced from grasses or legumes;
- (b) "grasses" means Timothy, Bromegrass, Orchardgrass, Reed Canary Grass, Creeping Red Fescue, Tall Fescue, Meadow Foxtail, Perennial Ryegrass, annual Ryegrass and Bluegrass;
- (c) "harvesting" includes pasturing;
- (d) "legumes" means Alfalfa, Bird's-foot Trefoil, Red Clover, White Clover and Sweet Clover;
- (e) "seeded acreage" means acreage seeded to grasses or legumes during the current crop year for the purpose of producing forage or pasture or for the purpose of soil conservation.

- (2) Section 9 of the said Schedule, as remade by section 1 of Ontario Regulation 146/84, is revoked and the following substituted therefor:

- 9.—(1) Subject to subsection (2), the maximum coverage, as determined by the Commission, is,

- (a) \$25 for each acre sown to forage that fails to establish a reasonable stand; or
- (b) \$50 for each acre that fails to establish a reasonable stand where a minimum of 50 per cent of the crop is sown to trefoil or alfalfa.

- (2) A minimum of three acres must be lost before any indemnity is payable.

- (3) Subsection 11 (1) of the said Schedule, as remade by section 1 of Ontario Regulation 224/88, is revoked and the following substituted therefor:

- (1) The total premium is,

- (a) \$4 per acre where the coverage is \$25 per acre; or
- (b) \$6 per acre where the coverage is \$50 per acre.

- (4) The said Schedule is amended by adding thereto the following sections:

- 11a.—(1) Where a contract of insurance is in force, a premium shall be paid in respect of each crop year in which the insured person plants acreage to the insured crop.

(2) Where a premium is payable in respect of a crop year, the insured person shall pay the premium, less the premium deposit, if any, to the Commission at the time the final acreage report required by section 13 is filed.

FINAL ACREAGE REPORTS

13.—(1) Within ten days after the planting of acreage to forage is completed in each crop year, every insured person shall file with the Commission a final acreage report in a form provided by the Commission.

(2) A final acreage report filed with the Commission shall not be amended without the consent in writing of the Commission.

14.—(1) The Commission may revise a final acreage report in any and all respects and adjust the premium accordingly and shall, after any revision and adjustment, notify the insured person in writing immediately of such revision and adjustment.

(2) The insured person shall be deemed to have agreed with the revision and adjustment described in subsection (1) unless, within ten days after the mailing or delivery of the notification by the Commission, the insured person notifies the Commission in writing that the insured person rejects such revision and adjustment.

(3) Where the Commission receives notification from an insured person under subsection (2), the Commission shall,

(a) notify the insured person in writing that the contract of insurance does not apply for the crop year in respect of which the final acreage report was filed; and

(b) refund any premium or premium deposit paid in respect of that crop year.

(4) A final acreage report revised under subsection (1) shall, if no notice is given under subsection (2) by the insured person, be deemed to be a final acreage report for the insured acreage for the crop year.

15.—(1) Where an insured person in any crop year fails to file a final acreage report in accordance with this Regulation, the Commission may,

(a) prepare a final acreage report; or

(b) declare the insured acreage to be nil.

(2) Where the Commission prepares a final acreage report under subsection (1), the Commission shall mail or deliver a copy of the report to the insured person.

(3) An insured person to whom a final acreage report is mailed or delivered shall pay the premium for the crop year in respect of which the report was pre-

pared within ten days after a copy of the report is mailed or delivered, as the case may be.

- (a) all of the acres planted to the crops listed in the Table to Regulation 204 of Revised Regulations of Ontario, 1980 are offered for insurance;
- (b) the insured person elects the indemnity on the application for insurance;
- (c) the insured person pays a premium deposit of \$1 for each acre intended to be planted to the crops listed in the Table;
- (d) one or more of the designated perils prevents the planting,
 - (i) of three acres or more, in the case of systematically tile drained land, or
 - (ii) of six acres or more, in the case of land that is not systematically tile drained; and
- (e) the insured person notifies the Commission of his or her inability to plant the acres to the crops listed in the Table by the 15th day of June in the crop year.

(2) Subparagraphs 2 (1b) and (1c) of the said Form 1, as made by section 2 of Ontario Regulation 223/88, are revoked and the following substituted therefor:

(1b) The amount of the indemnity shall be one-third of the guaranteed production per acre of the crop with the highest priority, in the Table, of the crops intended to be planted and insured by the insured person multiplied by the established price for that crop.

Crop Insurance Plan—Greenhouse
Vegetables.

Made—March 8th, 1989.

Approved—May 19th, 1989.

Filed—May 24th, 1989.

REGULATION MADE UNDER THE
CROP INSURANCE ACT (ONTARIO)CROP INSURANCE PLAN—GREENHOUSE
VEGETABLES

1. The plan in the Schedule is established for the insurance within Ontario of greenhouse vegetables. O. Reg. 310/89, s. 1.

Schedule

Crop Insurance Act (Ontario)

PLAN

1. This plan may be cited as the "Ontario Crop Insurance Plan—Greenhouse Vegetables".
2. The purpose of this plan is to provide for insurance against a loss in the production of greenhouse vegetables resulting from one or more of the designated perils.

INTERPRETATION

3. In this plan,
"average farm yield" means the average of previous yields of planted greenhouse vegetables computed by the Commission on the basis of production records provided by the Ontario Greenhouse Vegetable Producers Marketing Board or such other basis as the Commission determines;
"greenhouse vegetables" means tomatoes and cucumbers produced in Ontario in a greenhouse or other enclosure under glass, plastic or other protective material used for the purpose of controlling temperature and providing protection for growing plants, but does not include seedlings planted in a starting greenhouse or other enclosure.

DESIGNATION OF PERILS

4. The following perils which result in the breakage in a greenhouse or other enclosure of glass, plastic or other protective material are designated as perils for the purpose of this plan:
 1. Hail.
 2. Hurricane.
 3. Ice.
 4. Snow load.
 5. Tornado.
 6. Wind.

DESIGNATION OF CROP YEAR

5. The crop year for greenhouse vegetables is the period from the 15th day of December in any year to the 14th day of December next following.

CONTRACT OF INSURANCE

6. For the purpose of this plan, a contract of insurance is comprised of,
 - (a) the contract of insurance in Form 1;
 - (b) the application for insurance;
 - (c) the final planting report for each crop year; and
 - (d) any amendment agreed upon in writing to a document referred to in clause (a), (b) or (c).
7. An application for insurance shall,
 - (a) be accompanied by a premium deposit of at least \$100; and
 - (b) be filed with the Commission not later than the first day of the crop year for which the application is made.

8. A contract of insurance is conditional on the greenhouse or other enclosure containing the crop to be insured being properly constructed and maintained.

DURATION OF CONTRACT

- 9.—(1) A contract of insurance shall be in force for the crop year for which it is made and shall continue in force for each crop year thereafter until it is cancelled under subsection (2) or terminated in accordance with the contract of insurance.
(2) A contract of insurance may be cancelled by the insured person or the Commission by notice in writing to the other party on or before the first day of the crop year for which the cancellation is to be effective.

- (3) Despite subsection (1), where the production of an insured crop extends beyond the crop year for which the crop is insured, the crop year is extended, and the contract of insurance remains in force, for that particular crop until the crop is harvested and removed from the greenhouse or enclosure in which it is grown.

- (4) Despite subsection (1), the contract of insurance ceases to apply to an insured crop when the crop is harvested and removed from the greenhouse or enclosure in which it is grown.

COVERAGE

10. The coverage provided under a contract of insurance for greenhouse vegetables grown by an

insured person in accordance with the regulations is 80 per cent of the average farm yield expressed,

- (a) in pounds per square foot for tomatoes; and
- (b) in dozens per square foot for cucumbers.

11. The maximum amount for which the Commission is liable for a loss in production under a contract of insurance is the amount obtained by multiplying the established price for the insured crop by the coverage determined under section 10.

12.—(1) For the purposes of this plan, the established price for cucumbers is,

- (a) \$3.50 per dozen; or
- (b) \$5 per dozen.

(2) For the purposes of this plan, the established price for tomatoes is,

- (a) \$0.40 per pound; or
- (b) \$0.60 per pound.

PREMIUMS

13.—(1) The premium for cucumbers is,

- (a) \$2.60 per hundred square feet where the established price is \$3.50 per dozen; or
- (b) \$3.80 per hundred square feet where the established price is \$5 per dozen.

(2) The premium for tomatoes is,

- (a) \$3.10 per hundred square feet where the established price is \$0.40 per pound; or
- (b) \$4.60 per hundred square feet where the established price is \$0.60 per pound.

(3) Despite subsection (1), the minimum premium payable by an insured person in each crop year is \$100.

14.—(1) Where a contract of insurance is in force, the premium prescribed in subsections 13 (1) and (2) shall be paid in respect of each crop year in which the insured person produces greenhouse vegetables.

(2) Despite subsection (1), where an insured person harvests and removes the insured crop from the greenhouse before the end of the crop year and replants the area to the same crop, the replanted crop shall not be covered by the contract of insurance unless the insured person pays a premium in respect of the replanted crop within ten days after the planting of the crop is completed.

(3) Where a premium is payable, the insured person shall pay the premium, less the premium deposit, if

applicable, paid under subsection (4), to the Commission at the time the insured person files a final planting report under section 15.

(4) Where coverage is renewed, the insured person shall pay a premium deposit of at least \$100 not later than ten days after the planting of the insured crop is completed.

FINAL PLANTING REPORT

15.—(1) Within ten days after the planting of an insured crop is completed in each crop year, every insured person shall file with the Commission, in a form provided by the Commission, a final planting report for each insured crop.

(2) A final planting report filed with the Commission shall not be amended without the consent in writing of the Commission.

16.—(1) The Commission may revise a final planting report in any or all respects and adjust the premium accordingly and shall, after any revision and adjustment, notify the insured person in writing immediately of such revision and adjustment.

(2) The insured person shall be deemed to have agreed with the revision and adjustment described in subsection (1) unless, within ten days after the mailing or delivery of the notification by the Commission, the insured person notifies the Commission in writing that the insured person rejects the revision and adjustment.

(3) Where the Commission receives notification from an insured person under subsection (2), the Commission shall notify the insured person in writing that the contract of insurance does not apply for the crop year in respect of which the final planting report was filed.

(4) A final planting report revised under subsection (1) shall, if no notice is given under subsection (2) by the insured person, be deemed to be a final planting report for the insured crop in the crop year.

17.—(1) Where an insured person does not file a final planting report in accordance with this Regulation, the Commission may,

- (a) prepare a final planting report in respect of the insured person; or
- (b) declare the insured crop to be nil.

(2) Where the Commission prepares a final planting report under subsection (1), the Commission shall mail or deliver a copy of the report to the insured person.

(3) Every insured person shall pay the premium for the crop year in respect of which a final planting report is prepared by the Commission within ten days after the mailing or delivery to the insured person of the report. O. Reg. 310/89, Sched.

Form 1

Crop Insurance Act (Ontario)

CONTRACT OF INSURANCE

BETWEEN:

THE CROP INSURANCE COMMISSION OF ONTARIO
hereinafter referred to as "THE COMMISSION",

OF THE FIRST PART,

and

.....
of the of

in the County of (as the case may be) of,
hereinafter referred to as "THE INSURED PERSON",

OF THE SECOND PART,

WHEREAS the insured person has applied for crop insurance on greenhouse vegetables under The Ontario Crop Insurance Plan for Greenhouse Vegetables, hereinafter referred to as "the plan";

NOW THEREFORE, subject to the *Crop Insurance Act (Ontario)*, and the regulations made thereunder, where in a crop year the insured person suffers a loss in the production of greenhouse vegetables resulting from one or more of the perils designated in the plan, the Commission, subject to the terms and conditions hereinafter set forth, agrees to indemnify the insured person in respect of such loss.

TERMS AND CONDITIONS

INSURED CROP

1. In this contract, "insured crop" means greenhouse vegetables as defined in the plan.

CAUSES OF LOSS NOT INSURED AGAINST

2. This contract does not insure against, and no indemnity shall be paid in respect of a loss resulting from,

- (a) the negligence, misconduct or poor farming practices of the insured person or his or her agents or employees;
- (b) a shortage of labour or machinery;
- (c) insect infestation or plant disease; or
- (d) a peril other than the perils designated in the plan.

EXTENT OF INSURANCE

3.—(1) The insured person shall offer for insurance all areas planted to the insured crop in each crop year in the greenhouse or greenhouses operated by the insured person in Ontario and, subject to subparagraph (2), this contract applies to all such areas.

(2) This contract does not apply to an area where the insured crop has been harvested and removed from the greenhouse and the insured person has replanted the area to the insured crop without having paid a premium therefor.

HARVESTING OF INSURED CROP

4. All greenhouse vegetables planted in a crop year shall be harvested unless the Commission, upon application therefor in writing, consents in writing to the use of the greenhouse area or any part thereof for another purpose.

EVALUATION OF LOSS

5.—(1) Where loss or damage occurs before the 15th day of March in a crop year, the Commission, upon application therefor in writing by the insured person, may consent in writing to,

- (a) replanting of the damaged crop to the insured crop;
- (b) replanting of the damaged crop to an alternate crop; or
- (c) the use of the damaged area for any other purpose and, in such case, the Commission shall determine the number of damaged plants and the potential production thereof.

(2) Where the damaged crop is replanted to the insured crop in accordance with clause (1) (a), a benefit of \$0.75 for each cucumber plant and \$0.50 for each tomato plant so replanted shall be paid and the contract of insurance shall continue to apply to such replanted crop.

(3) Despite subparagraph (2), the replanting benefit shall only be payable to an insured person where a minimum of 200 plants is replanted to the insured crop after the Commission has inspected the area and approved the replanting in writing.

(4) Where the damaged acreage is replanted to an alternate crop in accordance with clause (1) (b), the guaranteed production shall be reduced by one-half for the replanted area and the loss calculated thereunder shall be taken into account in the final adjustment of loss.

(5) Where the damaged area is used for any other purpose in accordance with clause (1) (c), the loss calculated thereunder shall be taken into account in the final adjustment of loss.

(6) Where harvesting has been completed for the insured crop, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted area shall be calculated by multiplying the established price by the difference between the guaranteed production as amended by subparagraph (4) or (5) and the actual production.

INCORRECT CALCULATION IN FINAL PLANTING REPORT

6.—(1) Where the actual number of greenhouse vegetables planted in a crop year is less than the amount declared on the final planting report, the total guaranteed production and the amount of insurance shall be reduced proportionately and no premium shall be refunded.

(2) Where the actual number of greenhouse vegetables planted in a crop year exceeds the amount declared on the final planting report, production from the total greenhouse vegetables planted shall be counted and there shall be no increase in the total guaranteed production or the maximum indemnity payable.

MISREPRESENTATION, VIOLATION OF CONDITIONS OR FRAUD

7.—(1) Where, in respect of an insured crop, the insured person,

- (a) in his or her application for insurance or a final planting report,
 - (i) gives false particulars of the insured crop to the prejudice of the Commission, or
 - (ii) knowingly misrepresents or fails to disclose any fact required to be stated therein;
- (b) contravenes a term or condition of the contract of insurance;
- (c) commits a fraud; or
- (d) wilfully makes a false statement in respect of a claim under the contract of insurance,

a claim by the insured person is invalid and his or her right to recover indemnity is forfeited.

(2) Where an insured person,

- (a) has coverage in respect of two or more crops; and
- (b) forfeits the right to recover indemnity for one or more of those crops under subparagraph (1),

the Commission may cancel the coverage obtained by the insured person in respect of any other crop.

(3) Where the Commission cancels the coverage of a crop under subparagraph (2), the right of the insured person to recover indemnity in respect of that crop is forfeited.

WAIVER OR ALTERATION

8. No term or condition of this contract shall be deemed to be waived or altered in whole or in part by the Commission unless the waiver or alteration is clearly expressed in writing signed by the Commission or a representative authorized for that purpose by the Commission.

INTEREST OF OTHER PERSONS

9. Despite a person other than the insured person holding an interest of any kind in an insured crop, for the purposes of this contract,

- (a) the interest of the insured person in the insured crop is deemed to be the full value of the total guaranteed production; and
- (b) except as provided in paragraph 10, no indemnity shall be paid to any person other than the insured person.

ASSIGNMENT OF RIGHT TO INDEMNITY

10. The insured person may assign all or part of the right to indemnity under this contract in a crop year in respect of an insured crop but an assignment is not binding on the Commission and no payment of indemnity shall be made to an assignee unless the Commission consents to the assignment in writing.

NOTICE OF LOSS OR DAMAGE

11.—(1) Where loss or damage to an insured crop occurs and the insured person intends to replant or use the planted area for another purpose, the insured person shall notify the Commission in writing of such intention and shall take no further action without the consent in writing of the Commission.

(2) Where loss or damage to the insured crop occurs and the damage was occasioned at a readily ascertainable time, the insured person shall notify the Commission in writing within twenty-four hours of such time.

(3) Where loss or damage to the insured crop occurs and it appears, or ought reasonably to appear, to the insured person at any time after planting and before the completion of harvesting of the insured crop that the production of the insured crop may thereby be reduced, the insured person shall, as soon as the loss or damage is apparent, notify the Commission in writing.

(4) Despite any notice given by the insured person under this paragraph, where, on completion of harvesting of an insured crop, actual production is less than the total guaranteed production, the insured person shall notify the Commission in writing forthwith.

12.—(1) When the insured person experiences a loss or damage to the insured crop, the Commission may cause the production of an insured crop to be appraised by any method that it considers proper.

(2) The loss in respect of an insured crop and the amount of indemnity payable therefor shall be determined separately for each insured crop.

(3) No indemnity shall be paid for a loss in respect of an insured crop unless the insured person,

- (a) establishes the actual production obtained from the insured crop for the crop year;
- (b) establishes that the loss in production in the crop year resulted directly from one or more of the perils insured against; and
- (c) provides the Commission with such books, records, documents or things as it may require to substantiate the loss in production.

PROOF OF LOSS

13.—(1) A claim for indemnity in respect of an insured crop shall be made on a proof of loss form provided by the Commission and shall be filed with the Commission not later than sixty days after the earlier of,

- (a) the completion of harvesting of the insured crop; or
- (b) the end of the crop year in which the loss occurred.

(2) Subject to subparagraph (3), a claim for indemnity shall be made by the insured person.

(3) A claim for indemnity may be made,

- (a) in the case of the absence or inability of the insured person, by his or her authorized representative; or
- (b) in the case of the absence or inability of the insured person or on the failure or refusal of the insured person to do so, by an assignee under an assignment made in accordance with paragraph 10.

ARBITRATION

14. Where the Commission and the insured person fail to resolve any dispute respecting the adjustment of a loss under this contract, the matter shall be determined by arbitration in accordance with the regulations.

TIME FOR PAYMENT OF INDEMNITY

15.—(1) Except as otherwise provided in the endorsement for an insured crop, no indemnity under this contract becomes due and payable until the end of

the crop year in which the loss or damage was sustained.

(2) When the indemnity payable by the Commission under this contract is established by the filing of a proof of loss form or by an award of an arbitrator or board of arbitration, it shall be paid within sixty days of the receipt by the Commission of the proof of loss form or award, as the case may be.

(3) Nothing in this paragraph prevents the Commission from paying indemnity under this contract at an earlier date.

SUBROGATION

16. Where the Commission has paid a claim under this contract, the Commission is subrogated to the extent thereof to all rights of recovery of the insured person against any person and may bring action in the name of the insured person to enforce those rights.

RIGHT OF ENTRY

17. The Commission has a right of entry to the premises of the insured person that may be exercised by agents of the Commission at any reasonable time or times for any purpose related to the contract of insurance.

DEATH OR ASSIGNMENT UNDER THE BANKRUPTCY ACT
(CANADA)

18. This contract terminates in respect of each insured crop at the end of the crop year in which the death of the insured person occurs or an authorized assignment is made by the insured person under the *Bankruptcy Act* (Canada).

NOTICE

19.—(1) Any written notice to the Commission shall be given by delivery thereof or by sending it by mail to the Commission.

(2) Written notice to the insured person shall be given by delivery thereof or by sending it by mail addressed to the insured person at his or her last post office address on file with the Commission.

IN WITNESS WHEREOF The Crop Insurance Commission of Ontario has caused this contract of insurance to be signed by its general manager but the same shall not be binding upon the Commission until countersigned by a duly authorized representative thereof.

O. Reg. 315/89.

Town of Ingersoll, Township of South-West
Oxford Boundary.

Made—May 19th, 1989.

Filed—May 25th, 1989.

ORDER IN COUNCIL

R.O.C. 230/89

WHEREAS The Corporation of the Town of Ingersoll, The Corporation of the Township of South-West Oxford and the County of Oxford have entered into an agreement dated the 14th day of December, 1988 for the resolution of certain boundary issues;

AND WHEREAS public notice was given by the Clerk of the Executive Council under subsection 17 (1) of the *Municipal Boundary Negotiations Act, 1981* of the intention to make an Order implementing the inter-municipal agreement;

AND WHEREAS no objections to the proposed issuance of the Order were filed with the Clerk of the Executive Council within the filing period;

NOW THEREFORE, on the recommendation of the undersigned, the Lieutenant Governor, by and with the advice and concurrence of the Executive Council, orders under section 14 of the *Municipal Boundary Negotiations Act, 1981* that,

1. On the 1st day of June, 1989, the portion of the Township of South-West Oxford described in the Schedule is annexed to the Town of Ingersoll.

2. All real property of The Corporation of the Township of South-West Oxford situate in the annexed area vests in The Corporation of the Town of Ingersoll on the 1st day of June, 1989.

3. On the 1st day of June, 1989, the by-laws of The Corporation of the Town of Ingersoll extend to the annexed area and the by-laws of The Corporation of the Township of South-West Oxford cease to apply to such area, except,

(a) by-laws of The Corporation of the Township of South-West Oxford,

(i) that were passed under section 34 or 41 of the *Planning Act, 1983* or a predecessor of that section,

(ii) that were kept in force by subsection 13 (3) of the *Municipal Amendment Act, 1941*, or

(iii) that were passed under the *Highway Traffic Act* or the *Municipal Act* that regulate the use of highways by vehicles and pedestrians and that regulate the encroachment or projection of buildings or any portion thereof upon or over highways,

which shall remain in force until repealed by the council of The Corporation of the Town of Ingersoll;

(b) by-laws of The Corporation of the Township of South-West Oxford passed under section 45, 58 or 61 of the *Drainage Act* or a predecessor of those sections; and

(c) by-laws conferring rights, privileges, franchises, immunities or exemptions that could not have been lawfully repealed by the council of The Corporation of the Township of South-West Oxford.

4. The clerk of The Corporation of the Township of South-West Oxford shall immediately prepare and furnish to the clerk of The Corporation of the Town of Ingersoll a special collector's roll showing all arrears of taxes or special rates assessed against the lands in the annexed area up to and including the 31st day of May, 1989 and the persons assessed therefor.

5.—(1) All real property taxes levied under any general or special Act and uncollected in the annexed area which are due and unpaid on the 31st day of May, 1989 shall be deemed on that date to be taxes due and payable to The Corporation of the Town of Ingersoll and may be collected by The Corporation of the Town of Ingersoll.

(2) On or before the 1st day of September, 1989, The Corporation of the Town of Ingersoll shall pay to The Corporation of the Township of South-West Oxford an amount equal to the amount of all real property taxes that The Corporation of the Town of Ingersoll is entitled to collect in the annexed area under subsection (1), that were due but unpaid on the 31st day of May, 1989.

6. MOTOR VEHICLE TRANSPORT ACT, 1987

MOTOR VEHICLE TRANSPORT ACT, 1987, PART II TRUCK APPLICATIONS:

The following are applications for extra-provincial truck transport operating licences under Part II of the Motor Vehicle Transport Act, 1987, S.C. 1987, Chapter 35. These Applicants have been found to meet the fitness requirements pursuant to Section 8(2) of that Act and the provincial transport board for Ontario proposes to issue the licences if no objection is served on the Applicant and filed with the Registrar of Motor Vehicles with the prescribed filing fee, within twenty-nine days of this publication.

EXTRA-PROVINCIAL APPLICATIONS:

NOTE: Where the application is for a licence other than a corridor operating authority, an interested person who serves and files an objection must also provide the Ontario Highway Transport Board with written evidence, within thirty-nine days of this publication that satisfies that Board that, in the absence of evidence to the contrary, the operation of the undertaking in respect of which the licence is sought would likely be detrimental to the public interest.

MOTOR VEHICLE TRANSPORT ACT, 1987

INTRA-PROVINCIAL TRUCK APPLICATIONS:

The following are applications for operating licences under Part III of the Motor Vehicle Transport Act, 1987, S.C. 1987, Chapter 35. These applicants have been found to meet the fitness requirement in like manner to section 6 of the Truck Transportation Act, 1988, S.O. 1988, Chapter 64, and the provincial transport board for Ontario proposes to issue the licences unless a person, within thirty days of this publication, serves on the Applicant and files with the Registrar of Motor Vehicles with the prescribed filing fee, a written request for a fitness hearing or a public interest test in like manner to Subsection 7(4) of the Truck Transportation Act, 1988, S.O. 1988, Chapter 64.

NOTE: A person who requests a public interest hearing must, within thirty-nine days of this publication, serve on the Ontario Highway Transport Board a document that makes out a written case to the Board that the granting of the operating authority applied for would be likely to have a significant detrimental effect on the public interest using the criteria set out in subsection 10(1) of the Truck Transportation Act, 1988, S.O. 1988, Chapter 64, and that the request is not frivolously made.

* Indicates a person who has applied for licences under both Part II and Part III of the Motor Vehicle Transport Act, 1987.

MOTOR VEHICLE TRANSPORT ACT, 1987

M.V.T.A. 1987, PART 11, TRUCK APPLICATIONS

The following applicants have made applications for extra-provincial operating licences.

Recently, the Divisional Court of Ontario determined that the Ontario Highway Transport Board is the provincial transport board under the Act, and therefore for greater certainty, notice of these applications are re-published herein with reference only to the applicant's name, file number and date of earlier publication. These applications were

unopposed at the time of the initial publication. Any interested person may file an objection within 15 days and written evidence within 25 days of the date of this publication that satisfies the Board that, in the absence of evidence to the contrary, the operation of the undertaking in respect of which the licence is sought would likely be detrimental to the public interest.

For further information with respect to these applications, members of the public are advised to contact the Secretary of the Board.

Sales of Lands for Tax Arrears by Public Tender

MUNICIPAL TAX SALES ACT, 1984

THE CORPORATION OF THE TOWNSHIP OF BONFIELD

TAKE NOTICE that tenders are invited for the purchase of the land(s) described below and will be received until 3.00 p.m. local time on July 12th, 1989, at 3.00 p.m.

The tenders will then be opened in public on the same day at 4.00 p.m.

Description of Land(s)	Minimum Tender Amount
Block "F", Plan M-18. Remainder of Parcel 17270 Nipissing. Township of Bonfield, District of Nipissing	\$1,684.19

Tenders must be submitted in the prescribed form and must be accompanied by a deposit in the form of a money order or of a bank draft or cheque certified by a bank, trust company or Province of Ontario Savings Office payable to the municipality (or board) and representing at least 20 per cent of the tender amount.

The municipality makes no representation regarding the title to or any other matters relating to the land to be sold. Responsibility for ascertaining these matters rests with the potential purchasers.

This sale is governed by the *Municipal Tax Sales Act, 1984*, being chapter 48 of the Statutes of Ontario, 1984 and the *Municipal Tax Sales Rules* made under that Act. The successful purchaser will be required to pay the amount tendered plus accumulated taxes and the relevant land transfer tax.

ENVIRONMENTAL PROTECTION ACT

O. Reg. 321/89.

Effluent Monitoring—Iron and Steel

Manufacturing Sector.

Made—May 25th, 1989.

Filed—May 29th, 1989.

REGULATION MADE UNDER THE ENVIRONMENTAL PROTECTION ACT

EFFLUENT MONITORING—IRON AND STEEL MANUFACTURING SECTOR

DEFINITIONS

1.—(1) In this Regulation,

“acid pickling” means the chemical removal of oxides and scale from the surface of steel by the action of water solutions and inorganic acids;

“characterization”, in relation to a plant, means the analysis of a sample for all of the parameters specified in the characterization parameters schedule for that plant;

“cold forming” means the steel forming process in which cold steel is transformed in size and shape through a series of forming steps;

“cokemaking” means the production of coke from coal in coking ovens;

“cooling water” means water and associated material that is used in an industrial process for the purpose of removing heat, that is not intended to come into contact with process materials, and that is discharged to a surface watercourse;

“cooling water effluent stream” means cooling water that flows through an open or closed channel;

“cooling water sampling point” means a location in a cooling water effluent stream situated before the place of discharge to a surface watercourse;

“final effluent” means any effluent that contains process subcategory effluent and one or more of cooling water, storm water and waste disposal site effluent;

“final effluent sampling point” means a location in a final effluent stream situated before the place of discharge to a surface watercourse;

“final effluent stream” means a final effluent that flows through an open or closed channel;

“final treatment” means the last treatment of an effluent before that effluent is discharged to a surface watercourse;

“General Effluent Monitoring Regulation” means Ontario Regulation 695/88;

“hot forming” means the steel forming process in which hot steel is transformed in size and shape through a series of forming steps to produce semi-finished and finished steel products;

“ironmaking” means the production of molten iron by the reduction of iron ore, sinter and steel slag;

“open characterization”, in relation to a plant, means the analysis of a sample,

(a) to identify and quantify all of the parameters in analytical test groups 16, 17, 19, 20 and 23 as indicated in the characterization parameters schedule for that plant, and

(b) to identify and to determine the approximate quantity of all of the parameters in analytical test groups 28a, 28b and 29 as indicated in Schedule C;

“process change” means a change in equipment, production process or treatment process;

“process subcategory” means any of the processes of cokemaking, sintering, ironmaking, steelmaking wet process, cold forming, hot forming, salt bath descaling and acid pickling;

“process subcategory effluent” means any effluent that is generated by a process subcategory;

“process subcategory effluent sampling point” means a location in a process subcategory effluent stream situated,

(a) upstream of any significant contaminant masking or significant dilution from any other effluent stream, and

(b) after any treatment other than final treatment and before any final treatment;

“process subcategory effluent stream” means a process subcategory effluent that flows through an open or closed channel;

“quarterly” means once in each three-month period beginning on the 1st day of January, April, July and October;

“salt bath descaling” means the processing of specialty steel products in molten salt solutions in order to remove scale;

“semi-annually” means once in each six-month period beginning on the 1st day of January and July;

“sintering” means the production of an iron ore agglomerate for use as a feed material in making iron;

“steelmaking wet process” means the production of steel in basic oxygen or electric arc furnaces using wet gas cleaning methods;

“storage site” means land owned, occupied or managed by a direct discharger and used to store coal or coke;

“storage site effluent” means any liquid and associated material that is collected from a storage site for discharge to a surface watercourse;

“storage site effluent sampling point” means a location in a storage site effluent stream situated,

(a) before any place of discharge to a surface watercourse,

(b) upstream of significant dilution from any other effluent stream, and

(c) after any final treatment;

“storage site effluent stream” means storage site effluent that flows through an open or closed channel;

“treatment” means the use of a physical, chemical or biological process or any combination thereof, to condition an effluent;

“waste disposal site effluent” means any liquid and associated material from a waste disposal site that has been in contact with waste and that is collected for discharge to a surface watercourse.

(2) The definitions in section 1 of the General Effluent Monitoring Regulation that are not redefined in this Regulation apply to this Regulation. O. Reg. 321/89, s. 1.

PURPOSE

2. The purpose of this Regulation is to establish a data base on effluent quality in the iron and steel sector that will be used, along with other pertinent information, to develop effluent limits for the iron and steel sector. O. Reg. 321/89, s. 2.

APPLICATION

3.—(1) This Regulation applies only with respect to the plants listed in subsection (2) and only with respect to the effluent streams named in the site-specific monitoring schedules for those plants.

(2) The characterization parameters schedule and the site-specific monitoring schedule for each plant are as follows:

Plant	Location	Owner as of the 21st of April, 1989	Characterization Parameters Schedule	Site-Specific Monitoring Schedule
Algoma Steel	Sault Ste. Marie	Dofasco Inc.	A	1
Atlas Specialty Steels	City of Welland	Rio Algom Limited	B	2
Dofasco	City of Hamilton	Dofasco Inc.	A	3
Ivaco Rolling Mills	L'Original	Ivaco Inc.	B	4
Lasco	Town of Whitby	Co-Steel International Limited	B	5
Stelco Steel Hilton Works	City of Hamilton	Stelco Inc.	A	6
Stelco Steel Lake Erie Works	City of Nanticoke	Stelco Inc.	A	7

(3) This Regulation is a Sectoral Effluent Monitoring Regulation within the meaning of the General Effluent Monitoring Regulation.

(4) Each direct discharger shall carry out the monitoring obligations, including the sampling, analysis,

toxicity testing, flow measurement, recording and reporting obligations of this Regulation, in accordance with the General Effluent Monitoring Regulation and in accordance with the sampling principles specified in Schedule D and the analytical principles specified in Schedule E.

(5) Each direct discharger shall carry out the monitoring obligations of this Regulation using the analytical method detection limits specified in Column 6 of Schedule 3 to the General Effluent Monitoring Regulation and in Schedule E.

(6) Each direct discharger shall carry out the sampling and analytical obligations in relation to ethylbenzene and di-n-octyl phthalate in accordance with Notes 2 and 3 to the characterization parameters schedule for that discharger's plant.

(7) An obligation on a direct discharger to do a thing under this Regulation is discharged if another person has done it on the direct discharger's behalf.

(8) A reference in the General Effluent Monitoring Regulation to an effluent stream or sampling point of a type listed in Column A is, for the purposes of this Regulation, deemed to be a reference to an effluent stream or sampling point of the type listed opposite it in Column B:

COLUMN A	COLUMN B
Process effluent	Process subcategory effluent
Combined effluent	Final effluent
Once-through cooling water	Cooling water

(9) Each direct discharger shall carry out the monitoring obligations, including the sampling, analysis, flow measurement, recording and reporting obligations of this Regulation in relation to storage site effluent in accordance with the methods specified in the General Effluent Monitoring Regulation in relation to waste disposal site effluent.

(10) Each direct discharger shall collect each sample required to be collected from a process subcategory or final effluent sampling point as a composite sample throughout an operating day in accordance with subsection 3 (4) of the General Effluent Monitoring Regulation.

(11) Where a sample is collected by a direct discharger from a process subcategory effluent sampling point, a cooling water sampling point or a final effluent sampling point for analysis for parameters in analytical test groups 15 to 17 and 28a as indicated in the characterization parameters schedule for that discharger's plant, the sample shall consist of a single grab sample.

(12) In the event that, on any day, because of the collection of inspection samples or because of insufficient flow, a direct discharger cannot collect a sufficient volume of sample from a sampling point to perform all of the analyses required to be performed on that day on samples collected from that sampling point, the discharger shall collect a set of samples sufficient to perform all of those analyses from that sampling point on the next operating day on which such

collection is possible, and shall perform thereon all of those analyses. O. Reg. 321/89, s. 3.

SAMPLING POINTS

4.—(1) Each direct discharger shall, by the 8th day of August, 1989, establish a sampling point on each effluent stream named in the site-specific monitoring schedule for that discharger's plant, as follows:

- 1. A cooling water sampling point on each cooling water effluent stream.
- 2. An emergency overflow effluent sampling point on each emergency overflow effluent stream.
- 3. A final effluent sampling point on each final effluent stream.
- 4. A process subcategory effluent sampling point on each process subcategory effluent stream.
- 5. A storage site effluent sampling point on each storage site effluent stream.
- 6. A storm water sampling point on each storm water effluent stream.
- 7. A waste disposal site effluent sampling point on each waste disposal site effluent stream.

(2) Each direct discharger shall use the sampling points established under subsection (1) for all sampling required by this Regulation, except that a direct discharger may use alternate sampling points where that is acceptable to the Director.

(3) Except as otherwise specifically provided, sets of samples required to be collected under this Regulation need not be collected on the same day. O. Reg. 321/89, s. 4.

CHARACTERIZATION AND OPEN CHARACTERIZATION

5.—(1) Each direct discharger shall, if final effluent samples are collected under section 10 in that discharger's plant, collect a set of samples from each final effluent sampling point of that discharger once during each of the months of January, April, July and October, and shall, subject to subsection (11), perform a characterization on each such set.

(2) Each direct discharger shall, if final effluent samples are collected under section 10 in that discharger's plant, collect a set of samples sufficient to perform the analyses required by subsection (3) from each final effluent sampling point of that discharger semi-annually.

(3) Each direct discharger shall analyze each set of samples collected under subsection (2) for the parameters in analytical test groups 24 and 27, as indicated in

the characterization parameters schedule for that discharger's plant.

(4) For the purposes of subsection (2), samples collected from a sampling point after the first sample is collected from that sampling point under subsection (2) shall be collected no sooner than 180 days after the previous sampling under subsection (2) from that sampling point.

(5) Each direct discharger shall collect a set of samples from each final effluent sampling point of that discharger once within thirty days after every process change that may adversely affect the quality of the effluent at that point, and shall perform a characterization on each such set.

(6) Each direct discharger shall, if final effluent samples are collected under section 10 in that discharger's plant, collect a set of samples during each of the months of February, May, August and November from each final effluent sampling point of that discharger, and shall perform an open characterization on each such set.

(7) Each direct discharger shall ensure that each collection of samples from a sampling point under subsection (1) is separated by at least fifteen days from each collection of samples from that sampling point under subsection (6).

(8) If final effluent samples are not collected under section 10 in a direct discharger's plant, that discharger shall, for each emergency, maintenance activity or malfunction in respect of which final effluent samples are collected under section 13, on a day on which a final effluent sample is collected under section 13 in respect of that event, collect a set of samples from each final effluent sampling point of that discharger from which samples are collected under section 13 on that day and shall,

- (a) perform an open characterization on each such set; and
- (b) analyze each such set for the parameters in analytical test groups 24 and 27 as indicated in the characterization parameters schedule for that discharger's plant.

(9) Once in each quarter, each direct discharger shall collect a set of samples from each cooling water sampling point of that discharger and shall, subject to subsection (11), perform a characterization on each such set.

(10) Each set of samples collected under subsection (9) shall be collected on one of the days on which samples are collected under subsection 11 (1).

(11) In performing the analyses required by subsections (1) and (9), the direct discharger need not analyze for parameters in analytical test groups 24 and 27 as indicated in the characterization parameters schedule for that discharger's plant.

(12) For the purposes of subsection 4 (3) of the General Effluent Monitoring Regulation, samples collected under this section are collected for characterization.

(13) Each set of samples collected under this section shall be collected on an operating day. O. Reg. 321/89, s. 5.

DAILY MONITORING

6.—(1) During each operating day, each direct discharger shall collect a set of samples sufficient to perform the analyses required by subsection (2) from each sampling point of that discharger.

(2) Each direct discharger shall analyze each set of samples collected under subsection (1) for the parameters indicated in the column marked "D", for the stream from which the set was collected, of the site-specific monitoring schedule for that discharger's plant. O. Reg. 321/89, s. 6.

THRICE-WEEKLY MONITORING

7.—(1) On three operating days in each week, each direct discharger shall collect a set of samples sufficient to perform the analyses required by subsection (2) from each sampling point of that discharger.

(2) Each direct discharger shall analyze each set of samples collected under subsection (1) for the parameters indicated in the column marked "TW", for the stream from which the set was collected, of the site-specific monitoring schedule for that discharger's plant. O. Reg. 321/89, s. 7.

WEEKLY MONITORING

8.—(1) On one operating day in each week, each direct discharger shall collect a set of samples sufficient to perform the analyses required by subsection (2) from each sampling point of that discharger.

(2) Each direct discharger shall analyze each set of samples collected under subsection (1) for the parameters indicated in the column marked "W", for the stream from which the set was collected, of the site-specific monitoring schedule for that discharger's plant.

(3) Each set of samples collected under subsection (1) shall be collected on one of the days on which a sample is collected under subsection 7 (1) from the same sampling point, if a sample is collected from that sampling point under subsection 7 (1) in the week.

(4) For the purposes of subsection (1), samples collected from a sampling point after the first sample is collected from that sampling point under subsection (1) shall be collected no sooner than two days after the previous sampling under subsection (1) from that sampling point. O. Reg. 321/89, s. 8.

EXTENDED WEEKLY MONITORING

9.—(1) On one operating day in each week, each direct discharger shall collect a set of samples sufficient to perform the analyses required by subsection (2) from each final effluent sampling point of that discharger.

(2) Each direct discharger shall analyze each set of samples collected under subsection (1) for the parameters in analytical test groups 2, 3, 4a, 5a, 6, 7, 8, 9, 14, 15, 25 and IS1 indicated in the columns marked "D", "TW" and "W", for the stream from which the set was collected, of the site-specific monitoring schedule for that discharger's plant.

(3) For the purposes of subsection (1), samples collected from a sampling point after the first sample is collected from that sampling point under subsection (1) shall be collected no sooner than two days after the previous sampling under subsection (1) from that sampling point. O. Reg. 321/89, s. 9.

MONTHLY MONITORING

10.—(1) On one operating day in each month, each direct discharger shall collect a set of samples sufficient to perform the analyses required by subsection (2) from each process subcategory effluent and final effluent sampling point of that discharger.

(2) Each direct discharger shall analyze each set of samples collected under subsection (1) for the parameters indicated in the column marked "M", for the stream from which the set was collected, of the site-specific monitoring schedule for that discharger's plant.

(3) Each set of samples collected under subsection (1) shall be collected on one of the days on which a sample is collected under subsection 8 (1) from the same sampling point, if a sample is collected from that sampling point under subsection 8 (1) in the month.

(4) Each set of samples collected under subsection (1) shall be collected on one of the days on which a sample is collected under subsection 7 (1) from the same sampling point, if a sample is collected from that sampling point under subsection 7 (1) in the month.

(5) For the purposes of subsection (1), samples collected from a sampling point after the first sample is collected from that sampling point under subsection (1) shall be collected no sooner than two weeks after the previous sampling under subsection (1) from that sampling point. O. Reg. 321/89, s. 10.

MONTHLY MONITORING—COOLING WATER

11.—(1) On one operating day in each month, each direct discharger shall collect a set of samples sufficient to perform the analyses required by subsection (2) from each cooling water sampling point of that discharger.

(2) Each direct discharger shall analyze each set of samples collected under subsection (1) for the parameters indicated in the column marked "M", for the cooling water effluent stream from which the set was collected, of the site-specific monitoring schedule for that discharger's plant.

(3) Each set of samples collected under subsection (1) shall be collected on one of the days on which a sample is collected under subsection 10 (1), if samples are collected under subsection 10 (1) in the direct discharger's plant. O. Reg. 321/89, s. 11.

MONTHLY MONITORING—STORM WATER

12.—(1) On one operating day in each month in which there is a storm event or a thaw on an operating day, during a storm water discharge related to a storm event or thaw, each direct discharger shall collect a set of samples from each storm water sampling point of that discharger that is affected by the storm event or thaw, sufficient to perform the analyses required by subsection (2).

(2) Each direct discharger shall analyze each set of samples collected under subsection (1) for the parameters indicated in the column marked "M", for the stream from which the set was collected, of the site-specific monitoring schedule for that discharger's plant.

(3) Where a direct discharger has been unable to collect a set of samples from a storm water sampling point as required by subsection (1) because of insufficient flow, the discharger shall collect a compensating set of samples from that sampling point during the next storm water discharge in respect of which the flow is sufficient and in respect of which a set of samples is not collected under subsection (1) and shall analyze the compensating set for the parameters referred to in subsection (2).

(4) The discharge of storm water referred to in subsection (3) shall be related to a storm event or thaw that affects the sampling point from which the compensating set of samples is collected. O. Reg. 321/89, s. 12.

EVENT ORIENTED MONITORING

13.—(1) During each operating day on which process subcategory effluent and final effluent are discharged due to an emergency, a maintenance activity or a malfunction in a direct discharger's plant, each direct discharger shall, during the discharges, collect grab samples sufficient to perform the analyses required by subsection (2) from each affected process subcategory effluent and final effluent sampling point of that discharger.

(2) Each direct discharger shall analyze each grab sample collected under subsection (1) for the parameters indicated in the column marked "event oriented", for the stream from which the grab sample was collected.

lected, of the site-specific monitoring schedule for that discharger's plant. O. Reg. 321/89, s. 13.

STORAGE SITE EFFLUENT MONITORING

14.—(1) During each discharge of storage site effluent, each direct discharger shall collect a set of samples from each affected storage site effluent sampling point of that discharger sufficient to perform the analyses required by subsection (3).

(2) The collection required by subsection (1) need not occur more frequently than twice in one month, or more frequently than twelve times in one year.

(3) Each direct discharger shall analyze the samples collected under subsection (1) for the parameters indicated in the column marked "event oriented", for the stream from which the set was collected, of the site-specific monitoring schedule for that discharger's plant. O. Reg. 321/89, s. 14.

WASTE DISPOSAL SITE EFFLUENT MONITORING

15.—(1) During each discharge of waste disposal site effluent, each direct discharger shall collect a set of samples from each affected waste disposal site effluent sampling point of that discharger sufficient to perform the analyses required by subsection (3).

(2) The collection required by subsection (1) need not occur more frequently than twice in one month, or more frequently than twelve times in one year.

(3) Each direct discharger shall analyze the samples collected under subsection (1) for the parameters indicated in the column marked "event oriented", for the stream from which the set was collected, of the site-specific monitoring schedule for that discharger's plant. O. Reg. 321/89, s. 15.

EMERGENCY OVERFLOW EFFLUENT MONITORING

16.—(1) During each emergency overflow, each direct discharger shall collect a set of samples sufficient to perform the analyses required by subsection (3) from each affected emergency overflow effluent sampling point of that discharger.

(2) Subsection (1) does not apply if the collection of samples would result in danger to health or safety.

(3) Each direct discharger shall analyze each set of samples collected under subsection (1) for the parameters indicated in the column marked "event oriented", for the stream from which the set was collected, of the site-specific monitoring schedule for that discharger's plant. O. Reg. 321/89, s. 16.

QUALITY CONTROL MONITORING

17.—(1) Once in each month, on a day on which samples are collected under section 10, each direct discharger shall collect a duplicate sample for each sample collected on that day under sections 6 to 8 from the

process subcategory and final effluent streams indicated as requiring quality control monitoring in the site-specific monitoring schedule for that discharger's plant.

(2) Each direct discharger shall analyze each duplicate sample collected under subsection (1) for a sample collected under section 6 for the parameters indicated in the column marked "D", each duplicate sample collected under subsection (1) for a sample collected under section 7 for the parameters indicated in the column marked "TW", and each duplicate sample collected under subsection (1) for a sample collected under section 8 for the parameters indicated in the column marked "W", for the stream from which the duplicate sample was collected, of the site-specific monitoring schedule for the discharger's plant.

(3) Semi-annually, on a day on which samples are collected under section 10, each direct discharger shall collect a duplicate sample for each sample collected on that day under section 10 from the process subcategory and final effluent streams indicated as requiring quality control monitoring in the site-specific monitoring schedule for that discharger's plant.

(4) Each direct discharger shall analyze each duplicate sample collected under subsection (3) for the parameters indicated in the column marked "M", for the stream from which the duplicate sample was collected, of the site-specific monitoring schedule for that discharger's plant.

(5) Semi-annually, on a day on which samples are collected under section 11, each direct discharger shall collect a duplicate sample for each sample collected on that day under sections 8 and 11 from the cooling water effluent stream indicated as requiring quality control monitoring in the site-specific monitoring schedule for that discharger's plant.

(6) Each direct discharger shall analyze each duplicate sample collected under subsection (5) for a sample collected under section 8 for the parameters indicated in the column marked "W", and each duplicate sample collected under subsection (5) for a sample collected under section 11 for the parameters indicated in the column marked "M", for the stream from which the duplicate sample was collected, of the site-specific monitoring schedule for that discharger's plant.

(7) For the purposes of subsections (3) and (5), samples collected from a sampling point after the first sample is collected from that sampling point under subsection (3) or (5) shall be collected no sooner than 180 days after the previous sampling under subsection (3) or (5) from that sampling point.

(8) Once in respect of each emergency, maintenance activity or malfunction in a direct discharger's plant, on a day on which samples are collected under section 13 in respect of that event, the discharger shall collect a duplicate sample for each sample collected on that day under section 13 from the process subcategory and final effluent streams indicated as requiring quality

control monitoring in the site-specific monitoring schedule for that discharger's plant.

(9) Each direct discharger shall analyze each duplicate sample collected under subsection (8) for the parameters indicated in the column marked "event oriented", for the stream from which the duplicate sample was collected, of the site-specific monitoring schedule for that discharger's plant.

(10) Once in each month, on a day on which samples are collected under subsection (1), each direct discharger shall prepare, process and return to the laboratory a travelling blank sample for each sample collected on that day under sections 6 to 8 from the process subcategory and final effluent streams indicated as requiring quality control monitoring in the site-specific monitoring schedule for that discharger's plant.

(11) Each direct discharger shall analyze each travelling blank sample prepared under subsection (10) for a sample collected under section 6 for the parameters indicated in the column marked "D", each travelling blank sample prepared under subsection (10) for a sample collected under section 7 for the parameters indicated in the column marked "TW", and each travelling blank sample prepared under subsection (10) for a sample collected under section 8 for the parameters indicated in the column marked "W", for the stream from which the sample for which the travelling blank sample was prepared was collected, of the site-specific monitoring schedule for that discharger's plant.

(12) Each direct discharger shall prepare, process and return to the laboratory a travelling blank sample for each duplicate sample collected under subsection (3), and shall analyze each travelling blank sample for the parameters indicated in the column marked "M", for the stream from which the duplicate sample was collected, of the site-specific monitoring schedule for that discharger's plant.

(13) Semi-annually, on a day on which samples are collected under subsection (5), each direct discharger shall prepare, process and return to the laboratory a travelling blank sample for each sample collected on that day under sections 8 and 11 from the cooling water effluent stream indicated as requiring quality control monitoring in the site-specific monitoring schedule for that discharger's plant.

(14) Each direct discharger shall analyze each travelling blank sample prepared under subsection (13) for a sample collected under section 8 for the parameters indicated in the column marked "W", and each travelling blank sample prepared under subsection (13) for a sample collected under section 11 for the parameters indicated in the column marked "M", for the stream from which the sample for which the travelling blank sample was prepared was collected, of the site-specific monitoring schedule for that discharger's plant.

(15) Each direct discharger shall prepare, process and return to the laboratory a travelling blank sample

for each duplicate sample collected under subsection (8), and shall analyze each travelling blank sample for the parameters indicated in the column marked "event oriented", for the stream from which the duplicate sample was collected, of the site-specific monitoring schedule for that discharger's plant.

(16) Despite subsections (11), (12), (14) and (15), a direct discharger need not analyze a travelling blank sample for parameters in analytical test groups 3 and 8 as indicated in the characterization parameters schedule for that discharger's plant.

(17) Once in each month, on a day on which samples are collected under subsection (1), each direct discharger shall prepare, process and return to the laboratory a travelling spiked blank sample for each sample collected on that day under sections 6 to 8 from the process subcategory and final effluent streams indicated as requiring quality control monitoring in the site-specific monitoring schedule for that discharger's plant.

(18) Each direct discharger shall analyze each travelling spiked blank sample prepared under subsection (17) for a sample collected under section 6 for the parameters in analytical test groups 16 to 20, 23 and 26 indicated in the column marked "D", each travelling spiked blank sample prepared under subsection (17) for a sample collected under section 7 for the parameters in analytical test groups 16 to 20, 23 and 26 indicated in the column marked "TW", and each travelling spiked blank sample prepared under subsection (17) for a sample collected under section 8 for the parameters in analytical test groups 16 to 20, 23 and 26 indicated in the column marked "W", for the stream from which the sample for which the travelling blank sample was prepared was collected, of the site-specific monitoring schedule for that discharger's plant.

(19) Each direct discharger shall prepare, process and return to the laboratory a travelling spiked blank sample for each duplicate sample collected under subsection (3), and shall analyze each travelling spiked blank sample for the parameters in analytical test groups 16 to 20, 23 and 26 indicated in the column marked "M", for the stream from which the duplicate sample was collected, of the site-specific monitoring schedule for that discharger's plant.

(20) Each direct discharger shall prepare, process and return to the laboratory a travelling spiked blank sample for each duplicate sample collected under subsection (5), and shall analyze each travelling spiked blank sample for the parameters in analytical test groups 16 to 20, 23 and 26 as indicated in the characterization parameters schedule for that discharger's plant.

(21) Each direct discharger shall prepare, process and return to the laboratory a travelling spiked blank sample for each duplicate sample collected under subsection (8), and shall analyze each travelling spiked blank sample for the parameters in analytical test

groups 16 to 20, 23 and 26 indicated in the column marked "event oriented", for the stream from which the duplicate sample was collected, of the site-specific monitoring schedule for that discharger's plant.

(22) Each direct discharger shall prepare each travelling spiked blank sample required to be analyzed by subsections (18) to (21) with a standard solution containing at least the parameters to be analyzed for, and shall record the concentration of each such parameter. O. Reg. 321/89, s. 17.

TOXICITY TESTING

18.—(1) Each direct discharger shall, if final effluent samples are collected under section 10 in that discharger's plant, collect a sample from each final effluent sampling point of that discharger once in each month on the same day as a set of samples is collected under section 10 from that sampling point, and shall perform a fish toxicity test on each such sample.

(2) If the tests performed under subsection (1) on all samples from a final effluent sampling point in three consecutive months result in mortality for no more than two out of ten fish at all effluent concentrations, a direct discharger may thereafter perform the tests required by subsection (1), on the samples from that sampling point, on 100 per cent undiluted samples only.

(3) If a test performed under subsection (2) on any sample from a final effluent sampling point results in mortality for more than two out of ten fish, subsection (2) ceases to apply and continues not to apply to samples from that sampling point, until the tests performed under subsection (1) on all samples from that sampling point in a further three consecutive months result in mortality for no more than two out of ten fish at all effluent concentrations.

(4) Each direct discharger shall, if final effluent samples are collected under section 10 in that discharger's plant, collect a sample from each final effluent sampling point of that discharger once in each month, on the same day as the sample is collected under subsection (1) from that sampling point, and shall perform a *Daphnia magna* acute lethality toxicity test on each such sample.

(5) Each direct discharger shall collect each sample required by subsection (4) together in the same container or set of containers with the sample collected under subsection (1) from the same sampling point.

(6) If final effluent samples are not collected under section 10 in a direct discharger's plant, that discharger shall, for each emergency, maintenance activity or malfunction in respect of which final effluent samples are collected under section 13, on a day on which a final effluent sample is collected under section 13 in respect of that event, collect a sample from each final effluent sampling point of that discharger from which samples are collected under section 13 of that day, and

shall perform a fish toxicity test and a *Daphnia magna* acute lethality toxicity test on each such sample.

(7) Each direct discharger shall collect a sample from each cooling water sampling point of that discharger once in each quarter, on the same day as a set of samples is collected under section 11 from that sampling point, and shall perform a fish toxicity test and a *Daphnia magna* acute lethality toxicity test on each such sample. O. Reg. 321/89, s. 18.

FLOW MEASUREMENT

19.—(1) Each direct discharger shall continuously measure and record the flow of each process subcategory effluent stream of that discharger at a location or set of locations representative of the flow at the sampling point established for that stream.

(2) Subject to subsection (3), each direct discharger shall continuously measure and record the flow of each final effluent stream of that discharger at a location or set of locations representative of the flow at the sampling point established for that stream.

(3) Where a direct discharger satisfies the Director that the continuous measurement of the flow of a final effluent stream would be unusually difficult, and where the direct discharger continuously measures the flow of each process subcategory effluent stream that contributes to that final effluent stream, the direct discharger may use the flow information from each process subcategory effluent stream that contributes to that final effluent stream to calculate the flow of that final effluent stream, and shall record the calculated flow.

(4) For the purposes of subsection (3), each direct discharger shall calculate the flow of the final effluent stream using methods and devices capable of accuracy to within plus or minus 20 per cent of the actual flow.

(5) Where the flow of a process subcategory or final effluent stream cannot be continuously measured on any operating day because of equipment malfunction and all reasonable care has been taken to avoid and correct the malfunction, the direct discharger may fulfil the continuous flow measurement requirements of subsections (1), (2) and (3) by estimating the total volume of effluent discharged on that day from that stream, and recording that estimate.

(6) Each direct discharger shall at the time of each sampling under this Regulation from a cooling water effluent stream of that discharger, measure or estimate the flow of that stream at a location or set of locations representative of the flow at the sampling point established for that stream and shall record the measured or estimated data.

(7) Each direct discharger shall measure or estimate the duration and approximate volume of every discharge of storm water, waste disposal site effluent, storage site effluent and emergency overflow effluent in respect of which the discharger has taken a sample

under this Regulation and shall record the measured or estimated data.

(8) Subsection 6 (6) of the General Effluent Monitoring Regulation does not apply in respect of measurements or estimates of the volume of discharges of storm water.

(9) Subject to subsection (10), each direct discharger shall demonstrate by calibration, performed no earlier than 365 days before the filing of this Regulation and no later than thirty days before the first use of the device for the purposes of this Regulation, that each primary flow measuring device used to measure the flow of a process subcategory effluent stream for the purposes of this Regulation, meets the accuracy requirement of subsection 6 (1) of the General Effluent Monitoring Regulation.

(10) Where a direct discharger demonstrates to the Director, by means of a certified report of a registered professional engineer of the Province of Ontario, that a primary flow measuring device has been designed and installed in accordance with the standards of a national or international standards setting organization, that primary flow measuring device will be deemed to have met the accuracy requirement of subsection 6 (1) of the General Effluent Monitoring Regulation.

(11) Subject to subsection (12), each direct discharger shall demonstrate by calibration, performed no earlier than 365 days before the filing of this Regulation and no later than thirty days before the first use of the device for the purposes of this Regulation, that each flow measuring device used to measure the flow of a final effluent stream for the purposes of this Regulation, meets the accuracy requirement of subsection 6 (3) of the General Effluent Monitoring Regulation.

(12) Where a direct discharger demonstrates to the Director, by means of a certified report of a registered professional engineer of the Province of Ontario, that a flow measurement device has been designed and installed in accordance with the standards of a national or international standards setting organization, that flow measurement device will be deemed to have met the accuracy requirement of subsection 6 (3) of the General Effluent Monitoring Regulation. O. Reg. 321/89, s. 19.

REPORTING

20.—(1) Each direct discharger shall, by the 8th day of August, 1989, submit an initial report to the Director in respect of that direct discharger's plant.

(2) Each direct discharger shall ensure that the plans submitted under paragraph 1 of subsection 7 (1) of the General Effluent Monitoring Regulation identify by type each effluent stream named in the site-specific monitoring schedule for that discharger's plant.

(3) Each direct discharger shall notify the Director in writing of any changes in respect of the information submitted under subsections (1) and (2), within thirty days after the end of the month during which the change occurs.

(4) Each direct discharger shall notify the Director in writing of any change of name or ownership of its plant occurring after the 21st day of April, 1989, within thirty days after this Regulation comes into force or within thirty days after any such change.

(5) Each direct discharger shall, no later than thirty days after the event, notify the Director in writing of any process change that occurs after the day this Regulation comes into force and that may adversely affect the quality of the effluent in any effluent stream named in the site-specific monitoring schedule for that discharger's plant.

(6) Each direct discharger shall, no later than thirty days before the event or thirty days after this Regulation comes into force, notify the Director in writing of any redirection of or change in the type of an effluent stream named in the site-specific monitoring schedule for that discharger's plant that occurs after the day this Regulation comes into force.

(7) For the purposes of subsections (2) and (6), effluent stream types are the types mentioned in subsection 4 (1).

(8) Despite subsection (6), a direct discharger need not notify the Director of any redirection of an effluent stream to an emergency overflow effluent stream.

(9) Each direct discharger shall report to the Director, on a floppy diskette in a format acceptable to the Director and by hard copy generated from that diskette and signed by the discharger, the results of all analyses performed by or on behalf of the discharger under sections 5 to 17 of this Regulation and under subsection 4 (18) of the General Effluent Monitoring Regulation, including the data recorded under subsection 17 (22) and all positive numerical values at or above the analytical method detection limits calculated by the laboratory performing the analysis, together with the date on which each sample was collected and the method used to collect each sample.

(10) For the purpose of subsection (9), each direct discharger shall report the results of analyses of samples collected for analysis for parameters in analytical test group 2, 3, 4a, 4b, 5a, 5b, 6, 7, 8, 11, 14, 15, 25 or IS1 as indicated in the characterization parameters schedule for that discharger's plant within sixty days after the last day of the week in which the sample was collected and shall report the results of samples collected for analysis for parameters in analytical test group 9, 10, 12, 16, 17, 19, 20, 23, 24, 26, 27, 28a, 28b or 29 as indicated in the characterization parameters schedule for that discharger's plant within ninety days after the last day of the week in which the sample was collected.

(11) Each direct discharger shall, in accordance with subsection 7 (6) of the General Effluent Monitoring Regulation, report to the Director the toxicity test information obtained under section 18, together with the date on which each sample was collected under section 18.

(12) For the purpose of subsection (11), each direct discharger shall report the toxicity test information obtained in respect of each sample collected under section 18 within sixty days after the last day of the week in which the sample was collected, on a floppy diskette in a format acceptable to the Director and by hard copy generated from that diskette and signed by the discharger.

(13) Each direct discharger shall submit to the Director documentation of any calibration or certification of accuracy required by subsections 19 (9) to (12) of this Regulation and subsection 6 (2) of the General Effluent Monitoring Regulation, no later than thirty days before the first use of the device for the purposes of this Regulation.

(14) Each direct discharger shall, with respect to each method, device or calculation for flow measurement or estimation to be used in meeting the requirements of this Regulation, other than methods, devices or calculations to be used to measure or estimate the volume of discharges of storm water, submit to the Director, no later than thirty days before the first use of the method, device or calculation for the purposes of this Regulation, documentation sufficient to satisfy the Director that the method, device or calculation complies with the accuracy requirements of subsection 6 (6) of the General Effluent Monitoring Regulation.

(15) Each direct discharger shall, no later than the 1st day of October, 1989, submit to the Director a description of the methods, devices or calculations to be used in measuring or estimating the volume of discharges of storm water under subsection 19 (7), together with an assessment of the accuracy of those methods, devices or calculations.

(16) Each direct discharger shall submit to the Director a description of any methods, devices or calculations used in measuring or estimating the volume of a discharge of emergency overflow effluent under subsection 19 (7), together with an assessment of the accuracy of those methods, devices or calculations, within sixty days after each such measurement or estimation.

(17) Each direct discharger shall submit to the Director documentation of each calibration performed under subsection 6 (7) of the General Effluent Monitoring Regulation, within thirty days after the calibration was performed or within thirty days after this Regulation comes into force.

(18) Each direct discharger shall report to the Director the flow measurement information required to be recorded under subsections 19 (1) to (6) in respect of each process subcategory effluent stream, final

effluent stream and cooling water effluent stream of that discharger and the date on which each flow was measured.

(19) Each direct discharger shall submit to the Director a description of any methods, devices or calculations used in estimating the volume of a discharge of effluent under subsection 19 (5), together with an assessment of the accuracy of those methods, devices or calculations, within sixty days after each such estimation.

(20) Each direct discharger shall report to the Director the information required to be recorded under subsection 19 (7), as well as the date and location of each discharge and overflow measured or estimated under subsection 19 (7).

(21) Each direct discharger shall report in writing to the Director the date, approximate duration and amount of rainfall of each storm event in respect of which a sample is collected under section 12, within sixty days after each such storm event.

(22) Each direct discharger shall submit to the Director, at least thirty days before the collection of the first sample in each month under sections 5, 10 and 11, a schedule of intended sampling dates by sampling point location for all sampling to be done under sections 5, 10 and 11.

(23) Within thirty days after the end of each quarter, each direct discharger shall submit a report to the Director summarizing the quantities of chemicals added to each cooling water effluent stream of that discharger from which samples were collected under section 11 in the quarter, and stating the frequency of those additions.

(24) Each direct discharger shall keep records of all sampling required by this Regulation, including, for each sample, the date of collection, the sampling procedures used, the amount of sample dilution by preservative if dilution exceeds 1 per cent, and any incident likely to affect an analytical result.

(25) Each direct discharger shall record, for each grab sample collected under this Regulation, the time at which the sample was collected.

(26) Each direct discharger shall record the results of all maintenance and calibration performed on sampling equipment used in meeting the requirements of this Regulation.

(27) Each direct discharger shall, no later than the 1st day of December, 1990, submit a report to the Director describing the variation in daily flow, for the period beginning the 1st day of November, 1989 and ending the 31st day of October, 1990, of each process subcategory effluent stream from which samples are collected under this Regulation other than by means described in clauses 3 (4) (a), (b) and (c) of the General Effluent Monitoring Regulation.

(28) The report referred to in subsection (27) shall include the raw data and calculation methods used to produce the report.

(29) Each direct discharger shall keep records of all analytical methods used in meeting the requirements of this Regulation.

(30) Each direct discharger shall submit a report to the Director detailing the date, duration and cause of each sampling, toxicity testing, analytical and flow measurement malfunction or problem that interferes with fulfilling the requirements of this Regulation, together with a description of any remedial action taken, within thirty days after the end of the month in which the malfunction or problem occurs.

(31) Each direct discharger shall keep all records and reports required by this Regulation to be kept or made for a period of two years following the date of the last report submitted to the Director under this section. O. Reg. 321/89, s. 20.

COMMENCEMENT

21.—(1) This Regulation, except sections 5 to 18 and subsections 19 (1) to (8), comes into force on the day on which it is filed.

(2) Sections 5 to 8, sections 10 to 18 and subsections 19 (1) to (8) come into force on the 1st day of November, 1989.

(3) Section 9 comes into force on the 1st day of November, 1990.

REVOCATION

22.—(1) Sections 5 to 8, sections 10 to 18 and subsections 19 (1) and (6) to (12) are revoked on the 1st day of November, 1990.

(2) Section 9 and subsections 19 (2) to (5) are revoked on the 1st day of May, 1991.

Fatty and Resin Acids 26	Amber glass or fluorocarbon resin lined cap.	If pre-treatment necessary: Bottle: Sequence of extensive washing/hot water, detergent, water, distilled water. Bake at 300° C for 8 h minimum or 3 rinses with pesticide grade or distilled in glass hexane and dichloromethane. Cap: no pre-treatment.	Contact surfaces must be glass, fluorocarbon resin or stainless steel.	800mL	None	7
Iron IS1	Sample containers and caps/ liners must be composed only of one or more of the following materials: fluorocarbon resin, polyethylene terephthalate, glass, polystyrene, polypropylene, high or low density polyethylene. Metallic foil should not be used.	If pre-treatment necessary, soak overnight in a 5% solution of nitric acid (HNO3), followed by several rinses in distilled water.	If sample is high (>5%) in hydrocarbons or organic solvents, use glass or fluorocarbon resin sample container only.	100mL	Add nitric acid (HNO3) (containing <1 mg/L of all analytes) to lower pH to <2.	30

1. Item 9 of the Table to subsection 5 (1) of Regulation 581 of Revised Regulations of Ontario, 1980, as made by section 2 of Ontario Regulation 520/82 and amended by section 1 of Ontario Regulation 318/84 and section 2 of Ontario Regulation 70/86, is further amended by adding the following subitem in Column 2:

SkyDome, Toronto

2.—(1) Subsections 35a (4) and (5), as remade by section 1 of Ontario Regulation 239/84, subsections 35a (6) to (10), as made by section 4 of Ontario Regulation 520/82, subsection 35a (10a), as made by section 1 of Ontario Regulation 383/84, and subsection 35a (12), as made by section 4 of Ontario Regulation 520/82, of the said Regulation are revoked and the following substituted therefor:

(4) The holder of a stadium licence may sell and serve at the stadium for which the licence was issued on those days when a live professional baseball, professional football or professional soccer game is being played in the stadium liquor that at the time of manufacture did not exceed 5 per cent of alcohol by volume.

(5) Notwithstanding subsections 9 (1) and (3a), the sale and service of liquor under the authority of a stadium licence shall not start earlier than one hour before the scheduled start of the game and shall stop,

(a) in the case of a professional baseball game, at the end of the eighth inning in a single game and at the end of the second inning of the second game of a double header;

(b) in the case of a professional football game, when the fourth quarter commences; and

(c) in the case of a professional soccer game, fifteen minutes prior to the end of the game.

(6) Liquor that is sold under the authority of a stadium licence shall be served only in a disposable container made of plastic or paper or in a similar disposable type of container that has a maximum capacity of 400 millilitres.

(7) Containers with liquor that are sold under the authority of a stadium licence shall have lids and shall be distinct in appearance from containers for non-alcoholic beverages that are sold in the stadium.

(8) Liquor that is sold under the authority of a stadium licence shall be sold only from service areas that are separate from other concession facilities at the stadium and such service areas shall be restricted to the sale of liquor only.

(9) Each holder of a stadium licence shall ensure that not more than two containers of liquor are served to a person at any one time.

(10) No person at a stadium, other than a vendor of liquor, shall have or be in possession of more than two containers of liquor of any one time. O. Reg. 329/89, s. 2 (1), *part*.

(12) Each holder of a stadium licence shall provide the Board with a schedule of the events during which liquor will be sold and served at the stadium for which the licence was issued. O. Reg. 329/89, s. 2 (1), *part*.

(2) Section 35a of the said Regulation, as made by section 4 of Ontario Regulation 520/84 and amended by section 1 of Ontario Regulation 239/84, section 2 of Ontario Regulation 318/84 and section 1 of Ontario Regulation 383/84, is further amended by adding thereto the following subsections:

(15) Each holder of a stadium licence shall ensure that each person who is employed in the service of liquor at the stadium for which the licence was issued has attended a course of instruction in beverage alcohol service that is approved by the Board.

(16) Each holder of a stadium licence shall make reasonable efforts in the circumstances to ensure that there are areas in the stands at the stadium for which the licence was issued that are designated as areas

where no liquor may be consumed and that the designated areas afford a reasonable choice of seats within the various price ranges offered at the stadium.

(17) Each holder of a stadium licence shall ensure that adequate security staff who have attended a course referred to in subsection (15) are stationed throughout the stadium at every event during which liquor is served. O. Reg. 329/89, s. 2 (2).

Proclamation

(Great Seal of Ontario)

LINCOLN M. ALEXANDER

PROVINCE OF ONTARIO

ELIZABETH THE SECOND, by the Grace of God of the United Kingdom, Canada and Her other Realms and Territories, Queen, Head of the Commonwealth, Defender of the Faith.

TO ALL TO WHOM THESE PRESENTS SHALL COME,

GREETING:

PROCLAMATION

WHEREAS by an Act passed at the First Session of the Thirty-fourth Legislature of Ontario convened on the third day of November, 1987 intituled the Planning Amendment Act, 1989, being Chapter 5 of the Statutes of Ontario, 1989, it is enacted thereof that the said Act shall come into force on a day to be named by Our Lieutenant Governor by his Proclamation;

AND WHEREAS it has appeared expedient that a Proclamation should now issue bringing section 4, subsection 5 (2) and section 14 of the said Act into force;

NOW THEREFORE KNOW YE that, having taken the premises into Our Royal consideration, We, by and with the advice of Our Executive Council of Ontario and in the exercise of the power in US vested in this behalf by the said Act or otherwise howsoever, Do, by this Our Royal

PROCLAMATION hereby Name Tuesday, the fifth day of September, 1989 as the day upon which section 4, subsection 5 (2) and section 14 of the said Act intituled the Planning Amendment Act, 1989, being Chapter 5 of the Statutes of Ontario, 1989, shall come into force.

OF ALL WHICH PREMISES all Our loving subjects and all others whom it doth or may in anywise concern are hereby required to take notice and govern themselves accordingly.

IN TESTIMONY WHEREOF We have caused these Our Letters to be made patent and the Great Seal of Our Province of Ontario to be hereunto affixed.

WITNESS:

THE HONOURABLE LINCOLN M. ALEXANDER, A Member of Our Privy Council for Canada, One of Our Counsel Learned in the Law, Bachelor of Arts, LIEUTENANT GOVERNOR OF OUR PROVINCE OF ONTARIO,

at Our City of Toronto in Our said Province this nineteenth day of May, in the year of Our Lord one thousand nine hundred and eighty-nine and in the thirty-eighth year of Our Reign.

BY COMMAND

MOTOR VEHICLE
TRANSPORT ACT, 1987

MOTOR VEHICLE TRANSPORT ACT, 1987,
PART II TRUCK APPLICATIONS:

The following are applications for extra-provin-
cial truck transport operating licences under
Part II of the Motor Vehicle Transport Act, 1987,
S.C. 1987, Chapter 35. These Applicants have
been found to meet the fitness requirements pursu-
ant to Section 8(2) of that Act and the provincial
transport board for Ontario proposes to issue the

licences if no objection is served on the Applicant
and filed with the Registrar of Motor Vehicles with
the prescribed filing fee, within twenty-nine days of
this publication.

EXTRA-PROVINCIAL APPLICATIONS:

NOTE: Where the application is for a licence other
than a corridor operating authority, an
interested person who serves and files a
objection must also provide the Ontario
Highway Transport Board with written evi-
dence, within thirty-nine days of this publi-
cation that satisfies that Board that, in the
absence of evidence to the contrary, the
operation of the undertaking in respect of
which the licence is sought would likely be
detrimental to the public interest.

* Indicates a person who has applied for licences
under both Part II and Part III of the Motor
Vehicle Transport Act, 1987.

MOTOR VEHICLE TRANSPORT ACT, 1987

INTRA-PROVINCIAL TRUCK APPLICATIONS:

The following are applications for operating licences under Part III of the Motor Vehicle Transport Act, 1987, S.C. 1987, Chapter 35. These applicants have been found to meet the fitness requirement in like manner to section 6 of the Truck Transportation Act, 1988, S.O. 1988, Chapter 64, and the provincial transport board for Ontario proposes to issue the licences unless a person, within thirty days of this publication, serves on the Applicant and files with the Registrar of Motor Vehicles with the prescribed filing fee, a written request for a fitness hearing or a public interest test in like manner to Subsection 7(4) of the Truck Transportation Act, 1988, S.O. 1988, Chapter 64.

NOTE: A person who requests a public interest hearing must, within thirty-nine days of this publication, serve on the Ontario Highway

Transport Board a document that makes out a written case to the Board that the granting of the operating authority applied for would be likely to have a significant detrimental effect on the public interest using the criteria set out in subsection 10(1) of the Truck Transportation Act, 1988, S.O. 1988, Chapter 64, and that the request is not frivolously made.

* Indicates a person who has applied for licences under both Part II and Part III of the Motor Vehicle Transport Act, 1987.
